Abstract vii

List of Tables xii

List of Figures xiv

Chapter 1. Employment Flows with Endogenous Financing Constraints 1

1.1 Introduction ........................................... 1

1.2 The Environment ..................................... 8

1.3 Equilibrium ........................................... 11

1.3.1 Symmetric Information ............................ 11

1.3.2 The Optimal Financial Contract with Asymmetric Information ..................................... 13

1.3.3 Entry of New Firms ................................ 31

1.3.4 Evolution of the Industry .......................... 33

1.3.5 Balance Sheet of the bank ....................... 35

1.3.6 Stationary Competitive Equilibrium ............. 35

1.4 Quantitative Analysis ................................. 38

1.4.1 Baseline Calibration ............................... 38

1.4.2 How Much Job Reallocation Can be Accounted for by the Endogenous Financing Constraints? ..................................... 42

1.4.3 How Much of the Negative Size Dependence Can be Accounted for by the Endogenous Financing Constraints? .... 45

1.4.3.1 Exit Rates by Size ................................ 45

1.4.3.2 Employment Flows by Size .................... 47

1.4.4 Exit Rates and Employment Flows by Age ........ 54
Chapter 1. Costly External Finance and Aggregate Productivity with Heterogenous Firms

2.1 Introduction ................. 64
2.2 Measurement of Aggregate Productivity and Decomposition of Aggregate Productivity Growth .......... 67
2.3 The Model ................. 69
2.4 Calibration and Simulation .......... 76
2.5 Results ................. 79
  2.5.1 Impact of Costly External Finance on Aggregate Productivity .......... 80
  2.5.2 Impact of Costly External Finance on Capital Accumulation and Output .......... 85
  2.5.3 Comparative Statics ................. 87
  2.5.4 Considering Firm Entry and Exit .......... 90
2.6 Conclusion ................. 93

Chapter 2. Business Cycle Asymmetries via Occasionally Binding International Borrowing Constraints

3.1 Introduction ................. 95
3.3 Structure of the Model ................. 101
3.4 Findings ................. 105
  3.4.1 Calibration ................. 105
  3.4.2 Business Cycle Moments .......... 107
  3.4.3 Business Cycle Asymmetries .......... 109
3.5 Conclusion ................. 112

Appendices ................. 116
