

THIRD EDITION

PUBLIC FINANCE AND PUBLIC POLICY

JONATHAN GRUBER
Massachusetts Institute of Technology

Worth Publishers

Brief Contents

Preface	xxvii
PART I Introduction and Background	
1 Why Study Public Finance?	1
2 Theoretical Tools of Public Finance	25
3 Empirical Tools of Public Finance	63
4 Budget Analysis and Deficit Financing	91
PART II Externalities and Public Goods	
5 Externalities: Problems and Solutions	121
6 Externalities in Action: Environmental and Health Externalities	149
7 Public Goods	181
8 Cost-Benefit Analysis	205
9 Political Economy	227
10 State and Local Government Expenditures	261
11 Education	289
PART III Social Insurance and Redistribution	
12 Social Insurance: The New Function of Government	319
13 Social Security	353
14 Unemployment Insurance, Disability Insurance, and Workers' Compensation	389
15 Health Insurance I: Health Economics and Private Health Insurance	419
16 Health Insurance II: Medicare, Medicaid, and Health Care Reform	453
17 Income Distribution and Welfare Programs	489
PART IV Taxation in Theory and Practice	
18 Taxation in the United States and Around the World	523
19 The Equity Implications of Taxation: Tax Incidence	557
20 Tax Inefficiencies and Their Implications for Optimal Taxation	589
21 Taxes on Labor Supply	623
22 Taxes on Savings	647
23 Taxes on Risk Taking and Wealth	675
24 Corporate Taxation	701
25 Fundamental Tax Reform	737
Glossary	G-1
References	R-1
Name Index	NI-1
Subject Index	SI-1

Contents

Preface xxvii

CHAPTER 1 Why Study Public Finance? 1

1.1 The Four Questions of Public Finance 3

- When Should the Government Intervene in the Economy? 3
 - Application:** The Measles Epidemic of 1989–1991 5
- How Might the Government Intervene? 6
- What Are the Effects of Alternative Interventions? 7
 - Application:** The Congressional Budget Office: Government Scorekeepers 8
- Why Do Governments Do What They Do? 9

1.2 Why Study Public Finance? Facts on Government in the United States and Around the World 10

- The Size and Growth of Government 10
- Decentralization 12
- Spending, Taxes, Deficits, and Debts 12
- Distribution of Spending 13
- Distribution of Revenue Sources 17
- Regulatory Role of the Government 19

1.3 Why Study Public Finance Now? Policy Debates over Social Security, Health Care, and Education 20

- Social Security 20
- Health Care 21
- Education 21

1.4 Conclusion 22

Highlights 22

Questions and Problems 23

Advanced Questions 24

CHAPTER 2 Theoretical Tools of Public Finance 25

2.1 Constrained Utility Maximization 26

- Preferences and Indifference Curves 27
- Utility Mapping of Preferences 29
- Budget Constraints 31
- Putting It All Together: Constrained Choice 33
- The Effects of Price Changes: Substitution and Income Effects 35

PART I

**Introduction
and
Background**

2.2 Putting the Tools to Work: TANF and Labor Supply Among Single Mothers	37
Identifying the Budget Constraint	38
The Effect of TANF on the Budget Constraint	39
2.3 Equilibrium and Social Welfare	43
Demand Curves	44
Supply Curves	46
Equilibrium	48
Social Efficiency	49
Competitive Equilibrium Maximizes Social Efficiency	50
From Social Efficiency to Social Welfare: The Role of Equity	52
Choosing an Equity Criterion	54
2.4 Welfare Implications of Benefit Reductions: The TANF Example Continued	55
2.5 Conclusion	57
Highlights	57
Questions and Problems	58
Advanced Questions	59
APPENDIX TO CHAPTER 2 The Mathematics of Utility Maximization	60
CHAPTER 3 Empirical Tools of Public Finance	63
3.1 The Important Distinction Between Correlation and Causality	64
The Problem	65
3.2 Measuring Causation with Data We'd Like to Have: Randomized Trials	66
Randomized Trials as a Solution	67
The Problem of Bias	67
Randomized Trials of ERT	69
Randomized Trials in the TANF Context	69
Why We Need to Go Beyond Randomized Trials	70
3.3 Estimating Causation with Data We Actually Get: Observational Data	71
Time Series Analysis	72
Cross-Sectional Regression Analysis	75
Quasi-Experiments	80
Structural Modeling	83

3.4 Conclusion	85
Highlights	85
Questions and Problems	85
Advanced Questions	86
APPENDIX TO CHAPTER 3 Cross-Sectional Regression Analysis	88

CHAPTER 4 Budget Analysis and Deficit Financing 91

4.1 Government Budgeting	93
The Budget Deficit in Recent Years	93
The Budget Process	94
Application: Efforts to Control the Deficit	95
Budget Policies and Deficits at the State Level	97
4.2 Measuring the Budgetary Position of the Government: Alternative Approaches	98
Real vs. Nominal	98
The Standardized Deficit	99
Cash vs. Capital Accounting	100
Static vs. Dynamic Scoring	102
4.3 Do Current Debts and Deficits Mean Anything? A Long-Run Perspective	103
Background: Present Discounted Value	103
Why Current Labels May Be Meaningless	104
Alternative Measures of Long-Run Government Budgets	105
What Does the U.S. Government Do?	109
Application: The Financial Shenanigans of 2001	112
4.4 Why Do We Care About the Government's Fiscal Position?	113
Short-Run vs. Long-Run Effects of the Government on the Macroeconomy	113
Background: Savings and Economic Growth	114
The Federal Budget, Interest Rates, and Economic Growth	115
Intergenerational Equity	117
4.5 Conclusion	118
Highlights	119
Questions and Problems	119
Advanced Questions	120

PART II

Externalities and Public Goods

CHAPTER 5 Externalities: Problems and Solutions	121
5.1 externality Theory	123
Economics of Negative Production Externalities	123
Negative Consumption Externalities	126
Application: The Externality of SUVs	127
Positive Externalities	128
5.2 Private-Sector Solutions to Negative Externalities	130
The Solution	130
The Problems with Coasian Solutions	132
5.3 Public-Sector Remedies for Externalities	134
Corrective Taxation	135
Subsidies	136
Regulation	137
5.4 Distinctions Between Price and Quantity Approaches to Addressing Externalities	137
Basic Model	137
Price Regulation (Taxes) vs. Quantity Regulation in This Model	139
Multiple Plants with Different Reduction Costs	140
Uncertainty About Costs of Reduction	143
5.5 Conclusion	146
Highlights	146
Questions and Problems	147
Advanced Questions	148
CHAPTER 6 Externalities in Action: Environmental and Health Externalities	149
6.1 Acid Rain	150
The Damage of Acid Rain	150
History of Acid Rain Regulation	151
Empirical Evidence: Estimating the Adverse Health Effects of Particulates	152
Has the Clean Air Act Been a Success?	154
6.2 Global Warming	155
Application: The Montreal Protocol	157
The Kyoto Treaty	158
Can Trading Make Kyoto More Cost-Effective?	158
What Does the Future Hold?	161
Application: Congress Takes on Global Warming	162

- 6.3 The Economics of Smoking** 165
 - The Externalities of Smoking 166
 - Should We Care Only About Externalities, or Do “Internalities” Matter Also? 170
- 6.4 The Economics of Other Addictive Behaviors** 173
 - Drinking 173
 - Illicit Drugs 174
 - Application:** Public Policy Toward Obesity 174
 - Summary 177
- 6.5 Conclusion** 177
- Highlights** 178
- Questions and Problems** 178
- Advanced Questions** 179
-
- CHAPTER 7 Public Goods** **181**
- 7.1 Optimal Provision of Public Goods** 182
 - Optimal Provision of Private Goods 183
 - Optimal Provision of Public Goods 185
- 7.2 Private Provision of Public Goods** 187
 - Private-Sector Underprovision 188
 - Application:** The Free Rider Problem in Practice 189
 - Can Private Providers Overcome the Free Rider Problem? 190
 - Application:** Business Improvement Districts 190
 - When Is Private Provision Likely to Overcome the Free Rider Problem? 192
- 7.3 Public Provision of Public Goods** 194
 - Private Responses to Public Provision: The Problem of Crowd-Out 195
 - Measuring the Costs and Benefits of Public Goods 197
 - How Can We Measure Preferences for the Public Good? 197
 - Empirical Evidence:** Measuring Crowd-Out 198
- 7.4 Conclusion** 199
- Highlights** 200
- Questions and Problems** 200
- Advanced Questions** 201
-
- APPENDIX TO CHAPTER 7 The Mathematics of Public Goods Provision** 202

CHAPTER 8 Cost-Benefit Analysis	205
8.1 Measuring the Costs of Public Projects	206
The Example 207	
Measuring Current Costs 208	
Measuring Future Costs 209	
8.2 Measuring the Benefits of Public Projects	210
Valuing Driving Time Saved 210	
Application: The Problems of Contingent Valuation 213	
Empirical Evidence: Valuing Time Savings 214	
Valuing Saved Lives 215	
Application: Valuing Life 215	
Discounting Future Benefits 220	
Cost-Effectiveness Analysis 220	
8.3 Putting It All Together	221
Other Issues in Cost-Benefit Analysis 221	
8.4 Conclusion	223
Highlights	223
Questions and Problems	224
Advanced Questions	225
CHAPTER 9 Political Economy	227
9.1 Unanimous Consent on Public Goods Levels	229
Lindahl Pricing 229	
Problems with Lindahl Pricing 231	
9.2 Mechanisms for Aggregating Individual Preferences	232
Application: Direct Democracy in the United States 232	
Majority Voting: When It Works 234	
Majority Voting: When It Doesn't Work 236	
Arrow's Impossibility Theorem 237	
Restricting Preferences to Solve the Impossibility Problem 237	
Median Voter Theory 239	
The Potential Inefficiency of the Median Voter Outcome 239	
Summary 240	
9.3 Representative Democracy	241
Vote-Maximizing Politicians Represent the Median Voter 241	
Assumptions of the Median Voter Model 242	
Lobbying 244	
Application: Farm Policy in the United States 245	
Evidence on the Median Voter Model for Representative Democracy 247	
Empirical Evidence: Testing the Median Voter Model 248	

9.4 Public Choice Theory: The Foundations of Government Failure	249
Size-Maximizing Bureaucracy	249
Problems with Privatization	250
Application: Contracting Out with Non-Competitive Bidding	251
Leviathan Theory	253
Corruption	254
Application: Government Corruption	254
Empirical Evidence: Government Failures and Economic Growth	257
The Implications of Government Failure	258
9.5 Conclusion	258
Highlights	258
Questions and Problems	259
Advanced Questions	260
CHAPTER 10 State and Local Government Expenditures	261
10.1 Fiscal Federalism in the United States and Abroad	263
Spending and Revenue of State and Local Governments	264
Fiscal Federalism Abroad	265
10.2 Optimal Fiscal Federalism	267
The Tiebout Model	267
Problems with the Tiebout Model	269
Evidence on the Tiebout Model	271
Optimal Fiscal Federalism	273
Empirical Evidence: Evidence for Capitalization from California's Proposition 13	274
10.3 Redistribution Across Communities	275
Should We Care?	276
Tools of Redistribution: Grants	277
Redistribution in Action: School Finance Equalization	282
Empirical Evidence: The Flypaper Effect	283
Application: School Finance Equalization and Property Tax Limitations in California	285
10.4 Conclusion	285
Highlights	286
Questions and Problems	286
Advanced Questions	287

CHAPTER 11 Education	289
11.1 Why Should the Government Be Involved in Education?	292
Productivity 292	
Citizenship 293	
Credit Market Failures 293	
Failure to Maximize Family Utility 293	
Redistribution 294	
11.2 How Is the Government Involved in Education?	294
Free Public Education and Crowding Out 295	
Solving the Crowd-Out Problem: Vouchers 297	
Problems with Educational Vouchers 300	
11.3 Evidence on Competition in Education Markets	304
Direct Experience with Vouchers 304	
Experience with Public School Choice 304	
Empirical Evidence: Estimating the Effects of Voucher Programs 305	
Experience with Public School Incentives 306	
Bottom Line on Vouchers and School Choice 307	
11.4 Measuring the Returns to Education	307
Effects of Education Levels on Productivity 308	
Effect of Education Levels on Other Outcomes 309	
Empirical Evidence: Estimating the Return to Education and Evidence for Screening 310	
The Impact of School Quality 310	
11.5 The Role of the Government in Higher Education	311
Empirical Evidence: Estimating the Effects of School Quality 312	
Current Government Role 313	
What Is the Market Failure and How Should It Be Addressed? 314	
11.6 Conclusion	315
Highlights	316
Questions and Problems	316
Advanced Questions	317

PART III

Social Insurance and Redistribution

CHAPTER 12 Social Insurance: The New Function of Government	319
12.1 What Is Insurance and Why Do Individuals Value It?	321
What Is Insurance? 321	
Why Do Individuals Value Insurance? 322	
Formalizing This Intuition: Expected Utility Model 323	

12.2 Why Have Social Insurance? Asymmetric Information and Adverse Selection	326
Asymmetric Information	326
Example with Full Information	327
Example with Asymmetric Information	327
The Problem of Adverse Selection	329
Does Asymmetric Information Necessarily Lead to Market Failure?	330
Application: Adverse Selection and Health Insurance “Death Spirals”	331
How Does the Government Address Adverse Selection?	332
12.3 Other Reasons for Government Intervention in Insurance Markets	333
Externalities	333
Administrative Costs	333
Redistribution	334
Paternalism	334
Application: Flood Insurance and the Samaritan’s Dilemma	334
12.4 Social Insurance vs. Self-Insurance: How Much Consumption Smoothing?	337
Example: Unemployment Insurance	337
Lessons for Consumption-Smoothing Role of Social Insurance	341
12.5 The Problem with Insurance: Moral Hazard	342
Application: The Problems with Assessing Workers’ Compensation Injuries	343
What Determines Moral Hazard?	344
Moral Hazard Is Multidimensional	344
The Consequences of Moral Hazard	345
12.6 Putting It All Together: Optimal Social Insurance	346
12.7 Conclusion	346
Highlights	347
Questions and Problems	347
Advanced Questions	348
APPENDIX TO CHAPTER 12 Mathematical Models of Expected Utility	350
CHAPTER 13 Social Security	353
13.1 What Is Social Security and How Does It Work?	354
Program Details	355
Application: Why Choose 35 Years?	355

How Does Social Security Work Over Time?	359
Application: Ida May Fuller	360
How Does Social Security Redistribute in Practice?	362
13.2 Consumption-Smoothing Benefits of Social Security	364
Rationales for Social Security	364
Does Social Security Smooth Consumption?	365
Social Security and Private Savings	366
Living Standards of the Elderly	366
13.3 Social Security and Retirement	367
Theory	367
Empirical Evidence: Measuring the Crowd-Out Effect of Social Security on Savings	368
Evidence	369
Application: Implicit Social Security Taxes and Retirement Behavior	372
Implications	374
13.4 Social Security Reform	374
Reform Round I: The Greenspan Commission	375
Application: The Social Security Trust Fund and National Savings	376
Incremental Reforms	377
Fundamental Reforms	379
Application: Company Stock in 401(k) Plans	383
Application: Mixed Proposals for Social Security Reform	384
13.5 Conclusion	385
Highlights	385
Questions and Problems	386
Advanced Questions	387
CHAPTER 14 Unemployment Insurance, Disability Insurance, and Workers' Compensation	389
14.1 Institutional Features of Unemployment Insurance, Disability Insurance, and Workers' Compensation	391
Institutional Features of Unemployment Insurance	391
Institutional Features of Disability Insurance	393
Institutional Features of Workers' Compensation	394
Comparison of the Features of UI, DI, and WC	395
Application: The Duration of Social Insurance Benefits Around the World	396
14.2 Consumption-Smoothing Benefits of Social Insurance Programs	397

14.3 Moral Hazard Effects of Social Insurance Programs	398
Moral Hazard Effects of Unemployment Insurance	398
Empirical Evidence: Moral Hazard Effects of Unemployment Insurance	400
Evidence for Moral Hazard in DI	402
Evidence for Moral Hazard in WC	403
Empirical Evidence: Moral Hazard Effects of DI	404
Empirical Evidence: Krueger's Study of Workers' Compensation	405
14.4 The Costs and Benefits of Social Insurance to Firms	406
The Effects of Partial Experience Rating in UI on Layoffs	406
The "Benefits" of Partial Experience Rating	408
Application: The "Cash Cow" of Partial Experience Rating	408
Workers' Compensation and Firms	409
14.5 Implications for Program Reform	410
Benefits Generosity	410
Targeting	410
Experience Rating	411
Worker Self-Insurance?	411
Application: Reforming UI	412
14.6 Conclusion	413
Highlights	413
Questions and Problems	414
Advanced Questions	414
APPENDIX TO CHAPTER 14 Advanced Quasi-Experimental Analysis	416
CHAPTER 15 Health Insurance I: Health Economics and Private Health Insurance	419
15.1 An Overview of Health Care in the United States	421
How Health Insurance Works: The Basics	422
Private Insurance	423
Medicare	427
Medicaid	427
TRICARE/CHAMPVA	428
The Uninsured	428
Empirical Evidence: Health Insurance and Mobility	430
15.2 How Generous Should Insurance Be to Patients?	432
Consumption-Smoothing Benefits of Health Insurance for Patients	432
Moral Hazard Costs of Health Insurance for Patients	433
Application: The Problem with McAllen, Texas	436

How Elastic Is the Demand for Medical Care? The RAND Health Insurance Experiment	438
Empirical Evidence: Estimating the Elasticity of Demand for Medical Care	439
Optimal Health Insurance	440
Why Is Insurance So Generous in the United States?	441
Application: Health Savings Accounts	442
15.3 How Generous Should Insurance Be to Medical Providers?	445
Managed Care and Prospective Reimbursement	445
The Impacts of Managed Care	447
How Should Providers Be Reimbursed?	448
15.4 Conclusion	448
Highlights	449
Questions and Problems	449
Advanced Questions	450
CHAPTER 16 Health Insurance II: Medicare, Medicaid, and Health Care Reform	453
16.1 The Medicaid Program for Low-income Mothers and Children	455
How Medicaid Works	455
Who Is Eligible for Medicaid?	456
What Health Services Does Medicaid Cover?	456
How Do Providers Get Paid?	457
16.2 What Are the Effects of the Medicaid Program?	457
How Does Medicaid Affect Health? A Framework	457
How Does Medicaid Affect Health? Evidence	458
Empirical Evidence: Using State Medicaid Expansions to Estimate Program Effects	461
16.3 The Medicare Program	462
How Medicare Works	462
Application: The Medicare Prescription Drug Debate	463
16.4 What Are the Effects of the Medicare Program?	466
The Prospective Payment System	466
Empirical Evidence on the Move to the PPS	467
Problems with PPS	467
Lesson: The Difficulty of Partial Reform	469
Medicare Managed Care	469
Should Medicare Move to a Full Choice Plan? Premium Support	472
Application: A Premium Support System for Medicare	472
Gaps in Medicare Coverage	474

16.5 Long-term Care	475
Financing Long-term Care	475
16.6 Lessons for Health Care Reform in the United States	476
Rising Health Care Costs	476
The Uninsured	478
National Health Insurance	479
Application: The Massachusetts Experiment with Incremental Universalism	480
Reform Efforts in 2009	482
16.7 Conclusion	484
Highlights	484
Questions and Problems	485
Advanced Questions	486
CHAPTER 17 Income Distribution and Welfare Programs	489
17.1 Facts on Income Distribution in the United States	491
Relative Income Inequality	491
Absolute Deprivation and Poverty Rates	492
Application: Problems in Poverty Line Measurement	494
What Matters—Relative or Absolute Deprivation?	496
17.2 Welfare Policy in the United States	496
Cash Welfare Programs	497
In-Kind Programs	498
17.3 The Moral Hazard Costs of Welfare Policy	499
Moral Hazard Effects of a Means-Tested Transfer System	500
Solving Moral Hazard by Lowering the Benefit Reduction Rate	503
The “Iron Triangle” of Redistributive Programs	505
17.4 Reducing the Moral Hazard of Welfare	505
Moving to Categorical Welfare Payments	505
Using “Ordeal Mechanisms”	508
Application: An Example of Ordeal Mechanisms	510
Increasing Outside Options	511
Empirical Evidence: The Canadian Self-Sufficiency Project	513
17.5 Welfare Reform	517
Changes Due to Welfare Reform	517
Effects of the 1996 Welfare Reform	517
Empirical Evidence: Estimating the Impact of Welfare Reform	518

17.6 Conclusion	519
Highlights	520
Questions and Problems	520
Advanced Questions	521

PART IV
Taxation in
Theory and
Practice

CHAPTER 18 Taxation in the United States and Around the World	523
18.1 Types of Taxation	524
Taxes on Earnings 524	
Taxes on Individual Income 525	
Taxes on Corporate Income 525	
Taxes on Wealth 525	
Taxes on Consumption 525	
Taxation Around the World 525	
18.2 Structure of the Individual Income Tax in the United States	527
Computing the Tax Base 527	
Tax Rates and Taxes Paid 529	
Application: The Coming AMT Timebomb 531	
18.3 Measuring the Fairness of Tax Systems	532
Average and Marginal Tax Rates 532	
Vertical and Horizontal Equity 533	
Measuring Vertical Equity 534	
Application: The Political Process of Measuring Tax Fairness 534	
18.4 Defining the Income Tax Base	536
The Haig-Simons Comprehensive Income Definition 536	
Deviations Due to Ability-to-Pay Considerations 537	
Deviations Due to Costs of Earning Income 538	
Application: What Are Appropriate Business Deductions? 538	
18.5 Externality/Public Goods Rationales for Deviating from Haig-Simons	539
Charitable Giving 540	
Spending Crowd-Out Versus Tax Subsidy Crowd-In 540	
Consumer Sovereignty Versus Imperfect Information 542	
Housing 543	
Empirical Evidence: The Social Benefits of Homeownership 545	
Tax Deductions Versus Tax Credits 546	
Application: The Refundability Debate 547	
Bottom Line: Tax Expenditures 549	

18.6 The Appropriate Unit of Taxation	550
The Problem of the “Marriage Tax”	550
Marriage Taxes in Practice	552
18.7 Conclusion	554
Highlights	554
Questions and Problems	555
Advanced Questions	556
CHAPTER 19 The Equity Implications of Taxation:	
Tax Incidence	557
19.1 The Three Rules of Tax Incidence	559
The Statutory Burden of a Tax Does Not Describe Who Really Bears the Tax	559
The Side of the Market on Which the Tax Is Imposed Is Irrelevant to the Distribution of the Tax Burdens	561
Parties with Inelastic Supply or Demand Bear Taxes; Parties with Elastic Supply or Demand Avoid Them	564
Reminder: Tax Incidence Is About Prices, Not Quantities	567
19.2 Tax Incidence Extensions	568
Tax Incidence in Factor Markets	568
Tax Incidence in Imperfectly Competitive Markets	572
Balanced Budget Tax Incidence	574
19.3 General Equilibrium Tax Incidence	575
Effects of a Restaurant Tax: A General Equilibrium Example	575
Issues to Consider in General Equilibrium Incidence Analysis	577
19.4 The Incidence of Taxation in the United States	580
CBO Incidence Assumptions	580
Empirical Evidence: The Incidence of Excise Taxation	581
Results of CBO Incidence Analysis	581
Current Versus Lifetime Income Incidence	584
19.5 Conclusion	584
Highlights	585
Questions and Problems	585
Advanced Questions	586
APPENDIX TO CHAPTER 19 The Mathematics of Tax Incidence	587

CHAPTER 20 Tax Inefficiencies and Their Implications for Optimal Taxation	589
20.1 Taxation and Economic Efficiency	590
Graphical Approach	590
Elasticities Determine Tax Inefficiency	592
Application: Tax Avoidance in Practice	593
Determinants of Deadweight Loss	594
Deadweight Loss and the Design of Efficient Tax Systems	595
Application: The Deadweight Loss of Taxing Wireless Communications	600
20.2 Optimal Commodity Taxation	601
Ramsey Taxation: The Theory of Optimal Commodity Taxation	601
Inverse Elasticity Rule	602
Equity Implications of the Ramsey Model	603
Application: Price Reform in Pakistan	603
20.3 Optimal Income Taxes	607
A Simple Example	607
General Model with Behavioral Effects	608
An Example	610
20.4 Tax-benefit Linkages and the Financing of Social Insurance Programs	611
The Model	611
Issues Raised by Tax-benefit Linkage Analysis	613
Empirical Evidence: A Group-Specific Employer Mandate	615
20.5 Conclusion	616
Highlights	616
Questions and Problems	617
Advanced Questions	617
APPENDIX TO CHAPTER 20 The Mathematics of Optimal Taxation	619
CHAPTER 21 Taxes on Labor Supply	623
21.1 Taxation and Labor Supply—Theory	625
Basic Theory	625
Limitations of the Theory: Constraints on Hours Worked and Overtime Pay Rules	627
21.2 Taxation and Labor Supply—Evidence	628
Empirical Evidence: Estimating the Elasticity of Labor Supply	629
Limitations of Existing Studies	630

21.3 Tax Policy to Promote Labor Supply:	
The Earned Income Tax Credit	631
Background on the EITC	631
Impact of EITC on Labor Supply: Theory	633
Impact of EITC on Labor Supply: Evidence	634
Empirical Evidence: The Effect of the EITC on Single Mother Labor Supply	636
Summary of the Evidence	637
Application: EITC Reform	637
21.4 The Tax Treatment of Child Care and Its Impact on Labor Supply	639
The Tax Treatment of Child Care	639
Empirical Evidence: The Effect of Child Care Costs on Maternal Labor Supply	640
Options for Resolving Tax Wedges	642
Comparing the Options	643
21.5 Conclusion	643
Highlights	644
Questions and Problems	644
Advanced Questions	645
CHAPTER 22 Taxes on Savings	647
22.1 Taxation and Savings—Theory and Evidence	648
Traditional Theory	648
Evidence: How Does the After-Tax Interest Rate Affect Savings?	653
Inflation and the Taxation of Savings	653
22.2 Alternative Models of Savings	655
Precautionary Savings Models	655
Self-Control Models	656
Empirical Evidence: Social Insurance and Personal Savings	657
22.3 Tax Incentives for Retirement Savings	658
Available Tax Subsidies for Retirement Savings	659
Why Do Tax Subsidies Raise the Return to Savings?	660
Theoretical Effects of Tax-Subsidized Retirement Savings	662
Application: The Roth IRA	666
Implications of Alternative Models	668
Private vs. National Savings	669
Empirical Evidence: Estimating the Impact of Tax Incentives for Savings on Savings Behavior	670
Evidence on Tax Incentives and Savings	671

22.4 Conclusion	672
Highlights	673
Questions and Problems	673
Advanced Questions	674
CHAPTER 23 Taxes on Risk Taking and Wealth	675
23.1 Taxation and Risk Taking	677
Basic Financial Investment Model	677
Real-World Complications	678
Evidence on Taxation and Risk Taking	680
Labor Investment Applications	680
23.2 Capital Gains Taxation	681
Current Tax Treatment of Capital Gains	681
What Are the Arguments for Tax Preferences for Capital Gains?	683
What Are the Arguments Against Tax Preferences for Capital Gains?	688
23.3 Transfer Taxation	688
Why Tax Wealth? Arguments for the Estate Tax	690
Arguments Against the Estate Tax	691
23.4 Property Taxation	694
Who Bears the Property Tax?	695
Types of Property Taxation	696
Application: Property Tax Breaks to Businesses	696
23.5 Conclusion	698
Highlights	699
Questions and Problems	699
