C.A. Brebbia
Wessex Institute of Technology, UK
Contents

Section 1: Tourism impact and strategies

Possibilities and limitations in the development of selective forms of tourism in the Croatian archipelago: case study of the Istrian islands
Z. Gržetić, M. Kovačić & S. Favro ................................................................. 3

Selection, design and dissemination of Fuerteventura’s projected tourism image (Canary Isles)
A. J. Rodríguez, P. Díaz, D. Ruiz-Labourdette, F. D. Pineda,
M. F. Schmitz & A. Santana ............................................................................ 13

How far does tourism stress coral reef environment in island states: case studies of Indian Ocean and Caribbean islands
V. Duval........................................................................................................... 25

Tourism valorisation of lighthouses on Croatian islands and along the coast
V. T. Opacic, S. Favro & M. Perišić ............................................................... 37

Section 2: Community issues

Scales and scenarios of change in the anthropology-landscape relationship: models of cultural tourism in Fuerteventura (Canary Isles)
D. Ruiz-Labourdette, P. Díaz, A. J. Rodríguez, A. Santana,
M. F. Schmitz & F. D. Pineda ........................................................................ 51

Development of sustainability indices for the wider area of Troodos in Cyprus
A. Zorpas, S. Malamis, G. Lambrou, E. Katsou, M. Loizidou & I. Voukali ................................................................................................................... 65
The attitudes of the island local community towards sustainable tourism development – the case of Stari Grad, island Hvar
L. Petrić & L. Pranić

The socio-cultural impacts of visiting friends and relatives on hosts: a Samoan study
R. G. Taufanofua & S. Craig-Smith

Traditional medicinal knowledge in Cuba
I. M. Madaleno

Section 3: Changing climate and environment

Is it really happening here? A study of climate change perception in the Azores

Future sea level rise implications on development of Lazarus Island, Singapore Southern Islands
T. S. Teh, D. K. Raju, K. Santosh & J. Chandrasekar

Rising sea level and long term sustainability of near-shore islands of the United Arab Emirates: an approach to establishing setback lines for Abu Dhabi
G. G. Garland

Coastal erosion in the archaeological area of Selinunte
V. Liguori & A. Porcaro

Coastal monitoring with high resolution synthetic aperture radar
P. Trivero, W. Biamino, M. Borasi & M. Cavagnero

3-D process modelling of ancient storm-dominated deposits by an event-based approach
L. Laigle, P. Joseph, G. de Marsily & S. Violette

Section 4: Infrastructures

Infrastructure maintenance and disaster prevention measures on isolated Islands: the case of the Izu Islands near Tokyo
H. Gotoh, Y. Maeno, M. Takezawa, T. Murata & N. Takahashi

Responsive demand in isolated energy systems
D. Livengood, F. C. Sim-Sim, C. S. Ioakimidis & R. Larson
Innovative shore protection for island communities
S. J. Boc & E. C. Burg

Designing of protective seaside wall composite elements for protection of roads along the seashore
A. E. Ushakov, Y. G. Klenin, A. V. Pankov & S. N. Ozerov

Application of composite materials for the protection of sea shores and engineering structures against the impact of waves
E. S. Ashpiz, A. O. Egorov & A. E. Ushakov

A new approach to estimate armourstone abrasion: modified slake durability test
Ö. Acır & R. Kılıç

Section 5: Transport issues

Travelling towards and from minor islands through non-conventional air transport: demand and cost analysis
L. La Franca, M. Catalano, F. Castelluccio & F. Montana

Development of nautical tourism: islands development motivator
N. Jolić, N. Perko & Z. Kavran

Fast charging stations for electric vehicles infrastructure
J. Borges, C. S. Ioakimidis & P. Ferrão
