Contents

Preface................................................................................. ix
Introduction........................................................................... xi
About the Editors................................................................. xv
Contributors......................................................................... xv
Review Board....................................................................... xxiii

SECTION I  INDUSTRIAL AND SERVICE APPLICATIONS
OF THE SUPPLY CHAIN

1  Multicriteria Decision Making in Ethanol Production
Problems: A Fuzzy Goal Programming Approach............... 3
KENNETH D. LAWRENCE, DINESH R. PAI,
RONALD K. KLINBERG AND SHEILA M. LAWRENCE

2  From Push to Pull: The Automation and Heuristic
Optimization of a Caseless Filler Line in the
Dairy Industry.................................................................13
BRIAN W. SEGULIN

3  Optimization of Medical Services: The Supply Chain
and Ethical Implications....................................................29
DANIEL J. MIORI AND VIRGINIA M. MIORI

4  Using Hierarchical Planning to Exploit Supply Chain
Flexibility: An Example from the Norwegian
Meat Industry.................................................................47
PETER SCHÜTZ, ASGEIR TOMASGARD,
AND KRISTIN TOLSTAD UGGEN

5  Transforming U.S. Army Supply Chains:
An Analytical Architecture for Management Innovation ....69
GREG H. PARLIER
SECTION II ANALYTIC PROBABILISTIC MODELS OF SUPPLY CHAIN PROBLEMS

6 A Determination of the Optimal Level of Collaboration between a Contractor and Its Suppliers under Demand Uncertainty .................................................................................. 97
SEONG-HYUN NAM, JOHN VITTON, AND HISASHI KURATA

7 Online Auction Models and Their Impact on Sourcing and Supply Management ............................................. 121
JOHN F. KROS AND CHRISTOPHER M. KELLER

8 Analytical Models for Integrating Supplier Selection and Inventory Decisions ........................................... 133
BURCU B. KESKIN

9 Inventory Optimization of Small Business Supply Chains with Stochastic Demand .................................... 151
KATHLEEN CAMPBELL, GERARD CAMPAGNA, ANTHONY COSTANZO, AND CHRISTOPHER MATTHEWS

SECTION III OPTIMIZATION MODELS OF SUPPLY CHAIN PROBLEMS

10 A Dynamic Programming Approach to the Stochastic Truckload Routing Problem .................................. 179
VIRGINIA M. MIORI

11 Modeling Data Envelopment Analysis (DEA) Efficient Location/Allocation Decisions ................................ 205
RONALD K. KLIMBERG, SAMUEL J. RATICK, VINAY TAVVA, SASANKA VUYYURU, AND DANIEL MRAZIK

12 Sourcing Models for End-of-Use Products in a Closed-Loop Supply Chain .................................................. 219
KISHORE K. POCHAMPALLY AND SURENDRRA M. GUPTA

13 A Bi-Objective Supply Chain Scheduling .................................................................................................. 243
TADEUSZ SAWIK
14 Applying Data Envelopment Analysis and Multiple Objective Data Envelopment Analysis to Identify Successful Pharmaceutical Companies ........................................... 277
RONALD K. KLIMBERG, GEORGE P. SILLUP,
GEORGE WEBSTER, HAROLD RAHMLOW,
AND KENNETH D. LAWRENCE

Index ........................................................................................................................................ 297
