Preface to *The Biology of Disadvantage: Socioeconomic Status and Health*  
*By Nancy E. Adler and Judith Stewart* .......................... 1

Health disparities across the lifespan: Meaning, methods, and mechanisms  
*By Nancy E. Adler and Judith Stewart* .......................... 5

Socioeconomic gradients in health in international and historical context  
*By William H. Dow and David H. Rehkopf* ......................... 24

Childhood socioeconomic status and adult health  
*By Sheldon Cohen, Denise Janicki-Deverts, Edith Chen, and Karen A. Matthews* .......................... 37

Money, schooling, and health: Mechanisms and causal evidence  
*By Ichiro Kawachi, Nancy E. Adler, and William H. Dow* .................. 56

Race, socioeconomic status, and health: Complexities, ongoing challenges, and research opportunities  
*By David R. Williams, Selina A. Mohammed, Jacinta Leavell, and Chiquita Collins* ............... 69

Work and its role in shaping the social gradient in health  
*By Jane E. Clougherty, Kerry Souza, and Mark R. Cullen* .................. 102

Neighborhoods and health  
*By Ana V. Diez Roux and Christina Mair* .................. 125

Are psychosocial factors mediators of socioeconomic status and health connections? A progress report and blueprint for the future  
*By Karen A. Matthews, Linda C. Gallo, and Shelley E. Taylor* .................. 146

Multiple risk exposure as a potential explanatory mechanism for the socioeconomic status–health gradient  
*By Gary W. Evans and Pilyoung Kim* .................. 174

Central role of the brain in stress and adaptation: Links to socioeconomic status, health, and disease  
*By Bruce S. McEwen and Peter J. Gianaros* .................. 190

Socio-economic differentials in peripheral biology: Cumulative allostatic load  
*By Teresa Seeman, Elissa Epel, Tara Gruenewald, Arun Karlamangla, and Bruce S. McEwen* .................. 223
Evaluating the evidence base: Policies and interventions to address socioeconomic status gradients in health
   By William H. Dow, Robert F. Schoeni, Nancy E. Adler, and Judith Stewart ............... 240

Using team science to address health disparities: MacArthur network as case example
   By Nancy E. Adler and Judith Stewart ................................................................. 252

Subject index ............................................................................................................. 261
