Learning Across Sites

New tools, infrastructures and practices

Edited by Sten Ludvigsen, Andreas Lund, Ingvill Rasmussen and Roger Säljö
## Contents

### Foreword

xi

1 Introduction: learning across sites; new tools, infrastructures and practices

STEIN LUDVIGSEN, ANDREAS LUND, INGVILL RASMUSSEN AND ROGER SÄLJÖ

### SECTION I

**Developing professional expertise**

2 Learning how to know who: professional learning for expansive practice between organizations

ANNE EDWARDS

3 Co-configurational design of learning instrumentalities: an activity-theoretical perspective

YRJÖ ENGELSTRÖM AND HANNA TOIVIAINEN

4 Professional learning as epistemic trajectories

LEIF CHRISTIAN LAHN

5 Cultivating collective expertise within innovative knowledge-practice networks

KAI HAKKARAINEN, JIRI LALLIMO, SEppo TOIKIKA AND HAL WHITE

15

17

33

53

69
6 A new artifact in the trade: notes on the arrival of a computer-supported manufacturing system in a technical school
   ANNE-NELLY PERRET-CLERMONT AND JEAN-FRANCOIS PERRET

SECTION 2
Unpacking collaboration and trajectories of participation

7 Intersecting trajectories of participation: temporality and learning
   STEN LUDVIGSEN, INGVILL RASMUSSEN, INGEBORG KRANGE,
   ANNE MOEN AND DAVID MIDDLETON

8 Noticing the past to manage the future: on the organization of
   shared knowing in IT-support practices
   ANN-CHARLOTTE EKLUND, ÅSA MÄKITALO AND ROGER SÄLJÖ

9 Design and use of an integrated work and learning system:
   information seeking as critical function
   ANDERS I. MØRCH AND MARI ANN SKAANES

10 Versions of computer-supported collaborating in higher education
    CHARLES CROOK

11 Promoting knowledge creation and object-oriented inquiry in
    university courses
    HANNI MUUKKONEN, MINNA LAKKALA AND SAMI PAAVOLA

12 Social practices of group cognition in virtual match teams
    GERRY STAHL

13 Changing objects in knowledge-creation practices
    ANDREAS LUND AND TROND EILIV HAUJE

14 Socio-cognitive tension in collaborative working relations
    JERRY ANDRIESSEN, MICHAEL BAKER AND CHIEL VAN DER PUIJ
15 Productive e-feedback in higher education: two models and some critical issues 243
OLGA DYSTHE, SØLVI LILJEJORD, BARBARA WASSON AND ARNE VINES

SECTION 3
Institutional development 259

16 Breakdowns between teachers, educators and designers in elaborating new technologies as precursors of change in education to dialogic thinking 261
BARUCH SCHWARZ AND REUMA DE GROOT

17 Researching classroom interactions: a methodology for teachers and researchers 278
SALLY BARNES AND ROSAMUND SUTHERLAND

18 Weaving the context of digital literacy 295
OLA ERSTAD

SECTION 4
Design environments and new tools and representations 311

19 Using Bakhtin to re-think the teaching of Higher-order thinking for the network society 313
RUPERT WEGERIF AND MAARTEN DE LAAT

20 Self-regulation and motivation in computer-supported collaborative learning environments 330
SANNA JÄRVELÄ, TARJA-RIITTA HURME AND HANNA JÄRVENOJA

21 Interactive whiteboards: does new technology transform teaching? 346
NEIL MERCER, JULIA GILLEN, JUDITH KLEINE STAARMAN, KAREN LITTLETON AND ALISON TWINER
