Energy, Natural Resources and Environmental Economics

 Springer

Contents

Part I Petroleum and Natural Gas

Investment Strategy of Sovereign Wealth Funds	3
Trond Døskeland	
Chasing Reserves: Incentives and Ownership	19
Petter Osmundsen	
Elastic Oil: A Primer on the Economics of Exploration and Production	39
Klaus Mohn	
Applied Mathematical Programming in Norwegian Petroleum Field and Pipeline Development: Some Highlights from the Last 30 Years	59
Bjørn Nygreen and Kjetil Haugen	
Analysis of Natural Gas Value Chains	71
Kjetil T. Midthun and Asgeir Tomasgard	
On Modeling the European Market for Natural Gas	83
Lars Mathiesen	
Equilibrium Models and Managerial Team Learning	101
Anna Mette Fuglseth and Kjell Grønhaug	
Refinery Planning and Scheduling: An Overview	115
Jens Bengtsson and Sigrid-Lise Nonås	

Part II Electricity Markets and Regulation

Multivariate Modelling and Prediction of Hourly One-Day Ahead Prices at Nordpool	133
Jonas Andersson and Jostein Lillestøl	
Time Regularities in the Nordic Power Market: Potentials for Profitable Investments and Trading Strategies?	155
Ole Gjølberg	
Valuation and Risk Management in the Norwegian Electricity Market*	167
Petter Bjerksund, Heine Rasmussen, and Gunnar Stensland	
Stochastic Programming Models for Short-Term Power Generation Scheduling and Bidding	187
Trine Krogh Kristoffersen and Stein-Erik Fleten	
Optimization of Fuel Contract Management and Maintenance Scheduling for Thermal Plants in Hydro-based Power Systems	201
Raphael Martins Chabar, Sergio Granville, Mario Veiga F. Pereira, and Niko A. Iliadis	
Energy Portfolio Optimization for Electric Utilities: Case Study for Germany	221
Steffen Rebennack, Josef Kallrath, and Panos M. Pardalos	
Investment in Combined Heat and Power: CHP	247
Göran Bergendahl	
Capacity Charges: A Price Adjustment Process for Managing Congestion in Electricity Transmission Networks	267
Mette Bjørndal, Kurt Jörnsten, and Linda Rud	
Harmonizing the Nordic Regulation of Electricity Distribution	293
Per J. Agrell and Peter Bogetoft	
Benchmarking in Regulation of Electricity Networks in Norway: An Overview	317
Endre Bjørndal, Mette Bjørndal, and Kari-Anne Fange	
On Depreciation and Return on the Asset Base in a Regulated Company Under the Rate-of-Return and LRIC Regulatory Models	343
L. Peter Jennergren	

Part III Natural Resources and Logistics

Rescuing the Prey by Harvesting the Predator: Is It Possible?359
Leif K. Sandal and Stein I. Steinshamn

**Absorptive Capacity and Social Capital: Innovation
and Environmental Regulation**379
Arent Greve

Issues in Collaborative Logistics395
Sophie D'Amours and Mikael Rönnqvist

Pilot Assignment to Ships in the Sea of Bothnia411
Henrik Edwards

**Transportation Planning and Inventory Management
in the LNG Supply Chain**427
Henrik Andersson, Marielle Christiansen, and Kjetil Fagerholt

Part IV General Problems and Methods

**Optimal Relinquishment According to the Norwegian
Petroleum Law: A Combinatorial Optimization Approach**.....443
Horst W. Hamacher and Kurt Jörnsten

**An Overview of Models and Solution Methods for Pooling
Problems**459
Dag Haugland

Cooperation Under Ambiguity471
Sjur Didrik Flåm

The Perpetual American Put Option for Jump-Diffusions493
Knut K. Aase

**Discrete Event Simulation in the Study of Energy, Natural
Resources and the Environment**509
Ingolf Ståhl
