PART I  CONCEPTS AND STOCHASTIC FRAMEWORKS FOR MODEL RISK

1  Downturn Model Risk: Another View on the Global Financial Crisis
   Daniel Rösch; Harald Scheule
   Leibniz Universität Hannover; The University of Melbourne

2  Follow the Money from Boom to Bust
   Jorge R. Sobehart
   Citi Risk Architecture

3  Model Risk and Non-Gaussian Latent Risk Factors
   Steffi Höse and Stefan Huschens
   Technische Universität Dresden

4  Model Risk in Garch-Type Financial Time Series
   Corinna Luedtke, Philipp Sibbertsen
   Leibniz Universität Hannover

PART II  MACROECONOMIC AND CAPITAL MODELS

5  Monetary Policy, Asset Return Dynamics and the General Equilibrium Effect
   Kuang-Liang Chang; Nan-Kuang Chen; Charles Ka Yui Leung
   National Chiayi University; National Taiwan University;
   City University of Hong Kong

6  Capital Divergence: Sensitivity of Economic and Regulatory Capital under Stress
   Oleg Burd
   KfW IPEX-Bank GmbH
PART III  CREDIT PORTFOLIO RISK MODELS

7 Diversified Asset Portfolio Modelling: Sources and Mitigants of Model Risk  
Sean Keenan, Stefano Santilli, Sukyul Suh; Andrew Barnes, Huaiyu Ma, Colin McCulloch 
GE Capital; GE Global Research Center

8 Transmission of Macro Shocks to Loan Losses in a Deep Crisis: The Case of Finland  
Esa Jokivuolle; Matti Virén; Oskari Vähämäa - 
Bank of Finland; University of Turku and Bank of Finland; University of Turku

9 Comparison of Credit-Risk Models for Portfolios of Retail Loans Based on Behavioural Scores  
Lyn C. Thomas; Madhur Malik 
University of Southampton; Lloyds Banking Group

10 Validating Structural Credit Portfolio Models  
Michael Kalkbrener, Akwum Onwunta 
Deutsche Bank AG

11 Asymmetric Asset Correlation: Some Implications for the Estimation of Probability of Default  
Peter Miu; Bogie Ozdemir 
McMaster University; BMO Financial Group

12 A Latent Variable Approach to Validate Credit Rating Systems  
Kurt Hornik, Rainer Jankowitsch, Christoph Leitner, Stefan Pichler; Manuel Lingo, Gerhard Winkler 
Wirtschaftsuniversität Wien; Oesterreichische Nationalbank

PART IV  LIQUIDITY, MARKET AND OPERATIONAL RISK MODELS

13 Modelling Derivatives Cashflows in Liquidity Risk Models  
Stefan Reitz 
Hochschule für Technik Stuttgart

14 Potential Future Market Risk  
Manuela Spangler, Ralf Werner 
Deutsche Pfandbriefbank

15 Market Risk Modelling: Approaches to Assessing Model Adequacy  
Carsten S. Wehn 
DekaBank
16 Estimation of Operational Value-at-Risk in the Presence of Minimum Collection Threshold: An Empirical Study

Anna Chernobai; Christian Menn; Svetlozar T. Rachev; Stefan Trück
Syracuse University; DZ Bank AG; Universität Karlsruhe, Finanalytica Inc, University of California at Santa Barbara; Macquarie University

17 Operational Risk and Hedge Fund Performance: Evidence from Australia

Robin Luo, Xiangkang Yin
La Trobe University

PART V RISK TRANSFER AND SECURITISATION MODELS

18 Identification and Classification of Model Risks in Counterparty Credit Risk Measurement Systems

Marcus R. W. Martin
University of Applied Sciences, Darmstadt

19 Quantifying Systematic Risks in a Portfolio of Collateralised Debt Obligations

Martin Donhauser, Alfred Hamerle, Kilian Plank
University of Regensburg

Epilogue

Index
