Contents

1 Introduction .............................................................. 1
  1.1 General View of the Subject ....................................... 1
  1.2 Overview of Postwar Japan ......................................... 2
    1.2.1 Political Landscape ......................................... 2
    1.2.2 Economic Landscape ......................................... 7
  1.3 Economic Landscape by Period .................................... 8
    1.3.1 Recovery Period ............................................. 8
    1.3.2 Rapid Economic Growth Period .............................. 8
    1.3.3 Positive Effects (Economic Results) ....................... 9
    1.3.4 Negative Effects ........................................... 10
    1.3.5 Moderate Economic Growth Period ......................... 10
    1.3.6 Stagnation Period .......................................... 11
  1.4 Toward a Welfare-Oriented Society: Some Lessons from Rapid Economic Growth and the Bubble Economy .................. 12
  1.5 Quality of Life in the Mature Society .......................... 13
  1.6 The Plan ............................................................ 13

2 Historical Changes of the Japanese Economy ....................... 15
  2.1 Postwar Labor Force Status ...................................... 15
  2.2 Price Increase ..................................................... 17
  2.3 Income and Income Distribution .................................. 18
    2.3.1 Income ..................................................... 18
    2.3.2 Income Distribution ....................................... 19
  2.4 Structural Changes ................................................ 20
    2.4.1 Production by Industry ..................................... 20
    2.4.2 Labor Force by Industry and Status in Employment ....... 20
  2.5 International Concern ............................................. 23
    2.5.1 Exchange Rate .............................................. 23
    2.5.2 Trade Balance and Foreign Investment ..................... 23
6.3.3 Countermeasures Taken by the Government ................. 61
6.3.4 Antipollution Litigations, Standards, and Investment ......... 62
6.4 Inflation and People Left Behind by the Advancing Times ....... 63
  6.4.1 Inflation ............................................. 63
  6.4.2 People Left Behind by the Advancing Times ................ 64

7 Bubble Economy and Its Generation ............................... 69
  7.1 Speculative Bubbles ....................................... 69
    7.1.1 Land and Stock Prices .................................. 69
    7.1.2 Capital Gains and Losses .............................. 71
  7.2 Backgrounds ............................................... 72
    7.2.1 Trade Imbalance ...................................... 72
  7.3 The Triggering Role of Monetary, Fiscal, and Other Policies ....... 74
  7.4 A Critical Factor ........................................... 76
  7.5 Economic Cost of the Bubble in the Bubble Economy ............. 78

8 Bursting the Bubble and Its Consequences .......................... 81
  8.1 The Process of Bursting the Bubble ........................... 81
    8.1.1 Domestic Ground ...................................... 81
    8.1.2 International Ground .................................. 82
  8.2 Consequences of Bursting the Bubble ......................... 82
    8.2.1 Accelerated "Hollowing Out" ............................ 82
    8.2.2 Nonperforming Loans in Japanese Banks ................. 83
    8.2.3 Outstanding Government Bonds (GB) ..................... 88
  8.3 Causes of Prolonged Stagnation ................................ 89
    8.3.1 Stock Adjustments .................................... 90
    8.3.2 Adjustment to Worldwide Globalization .................. 91

9 Toward a Welfare-Oriented Society: Some Lessons from Rapid Economic Growth and the Bubble Economy ................................. 95
  9.1 Weaknesses of the GNP (Applied to GDP) Concept ............... 96
    9.1.1 Market Failures in the Measurement of GNP ............... 96
    9.1.2 Distortions or Limitations of the GNP Concept (from the Viewpoint of Welfare) .......................... 96
  9.2 Toward a Welfare Viewpoint ................................ 98
    9.2.1 NNW and the Questions ................................ 98
    9.2.2 NNW and Some Estimates ................................ 98
    9.2.3 Social Imbalance ..................................... 99
  9.3 Further Development ..................................... 100
    9.3.1 The GPI ............................................. 100
    9.3.2 Social Indicators .................................... 101
    9.3.3 Measurement of Happiness (Happiness Research) .......... 101
  9.4 GDP, GPI, and Happiness Research ............................. 102
  9.5 Some Lessons from the Bubble Economy ....................... 103
    9.5.1 Overview .......................................... 103
    9.5.2 Some Lessons ....................................... 105
10 Income and Asset Distribution, and the Relative Share

10.1 Income Distribution
  10.1.1 Inverse U-Shaped Hypothesis
  10.1.2 Japanese Case
  10.1.3 International Comparison

10.2 Asset Distribution
  10.2.1 Financial and Physical Assets
  10.2.2 Some Properties of Asset Distribution

10.3 Relative Share of Income
  10.3.1 Estimates
  10.3.2 Properties of the Relative Share of Labor
  10.3.3 Macroeconomic Explanation
  10.3.4 Remaining Questions

11 Households and Pension

11.1 The Japanese Households: Data
  11.1.1 Data

11.2 The Structure of the Japanese Household
  11.2.1 Structural Changes
  11.2.2 Current Household Structure

11.3 Pension
  11.3.1 History
  11.3.2 Serious Concerns
  11.3.3 A Possible Solution

12 Toward the Quality of Life in the Mature Society (Summary and Lessons)

12.1 A Brief Summary

12.2 Toward a Welfare-Oriented Society
  12.2.1 Enhancing GPI
  12.2.2 Some Important Factors Dealt with in Chapters 10 and 11

12.3 Quality of Life in the Mature Society
  12.3.1 Systemic Design
  12.3.2 Some Important Concerns
  12.3.3 International Concern
