CONTENTS

Preface ix

Introduction Making Innovation Happen 1

Ideas are only beginnings
Conflict between innovation and ongoing operations is inevitable
Innovation initiatives require a special team and a special plan

Part I: Build the Team

One Divide the Labor 29
Define a partnership between a Dedicated Team and the Performance Engine
Understand the Performance Engine's limits
The Performance Engine must sustain excellence in ongoing operations

Two Assemble the Dedicated Team 51
Don't build a Little Performance Engine
Act as though you are building a new company from scratch
Expect discomfort

Three Manage the Partnership 75
Be positive, persuasive, and collaborative
Get help from senior executives
Anticipate conflict and act in advance
Part II: Run a Disciplined Experiment

Four  Formalize the Experiment  101
To get great results, focus on learning, not results
Talk about what you don't know
Make formal but routine revisions to the plan

Five  Break Down the Hypothesis  123
Draft a crystal-clear hypothesis of record
Focus on great conversations, not great spreadsheets
Create a custom scorecard

Six  Seek the Truth  143
Understand sources of bias
Expect your predictions to be wrong
Create a framework for accountability

Conclusion  Moving On, Moving Up  163
