Preface xxiii

PART I The Scope and Environment of Financial Management 2

1 An Introduction to the Foundations of Financial Management 2

The Goal of the Firm 3

Five Principles that Form the Foundations of Finance 4

- Principle 1: Cash Flow Is What Matters 4
- Principle 2: Money Has a Time Value 4
- Principle 3: Risk Requires a Reward 5
- Principle 4: Market Prices Are Generally Right 6
- Principle 5: Conflicts of Interest Cause Agency Problems 7
- Avoiding Financial Crisis—Back to the Principles 8
- The Essential Elements of Ethics and Trust 9

Ethics in Financial Management The Wall Street Journal Workplace-Ethics Quiz 10

The Role of Finance in Business 10

- Why Study Finance? 11
- The Role of the Financial Manager 11

The Legal Forms of Business Organization 12

- Sole Proprietorships 12
- Partnerships 13
- Corporations 13
- Organizational Form and Taxes: The Double Taxation on Dividends 14
- S-Corporations and Limited Liability Companies (LLC) 14
- Which Organizational Form Should Be Chosen? 14

Finance and the Multinational Firm: The New Role 15

Summary 15 • Key Terms 16 • Review Questions 16 • Mini Case 17

2 The Financial Markets and Interest Rates 18

Financing of Business: The Movement of Funds through the Economy 19

- Public Offerings Versus Private Placements 21
- Primary Markets Versus Secondary Markets 22
- The Money Market Versus the Capital Market 22
- Spot Markets Versus Futures Markets 23
- Organized Security Exchanges Versus Over-the-Counter Markets 23

The Investment-Banking Function 25

- Functions 25
- The Demise of the Stand-Alone Investment-Banking Industry 26
- Distribution Methods 27

Private Debt Placements 29

- Flotation Costs 30

Cautionary Tale Forgetting Principle 5: Conflicts of Interest Cause Agency Problems 30

- Regulation Aimed at Making the Goal of the Firm Work: The Sarbanes-Oxley Act 31

Rates of Return in the Financial Markets 31

- Rates of Return over Long Periods 31
- Interest Rate Levels in Recent Periods 32

Interest Rate Determinants in a Nutshell 35

Estimating Specific Interest Rates Using Risk Premiums: An Example 35
Real and Nominal Rates of Interest 35

Can You Do It? 35

Did You Get It? 36

Inflation and Real Rates of Return: The Financial Analyst's Approach 37

Can You Do It? Solving for the Real Rate of Interest 37

Did You Get It? Solving for the Real Rate of Interest 38

The Term Structure of Interest Rates 39

Observing the Historical Term Structures of Interest Rates 39

Can You Do It? Solving for the Nominal Rate of Interest 39

Did You Get It? Solving for the Nominal Rate of Interest 40

What Explains the Shape of the Term Structure? 40

Finance and the Multinational Firm: Efficient Financial Markets and Intercountry Risk 42

Summary 43 • Key Terms 44 • Review Questions 44 • Study Problems 45
• Mini Case 45

3 Understanding Financial Statements and Cash Flows 46

The Income Statement 47

Finance at Work The Lessons of Adversity 49

Can You Do It? Preparing an Income Statement 51

Did You Get It? Preparing an Income Statement 53

The Balance Sheet 53

Types of Assets 54

Finance at Work Goldman Sachs Announces First Quarter 2009 Earnings 56

Types of Financing 56

Working Capital 58

Debt Ratio 59

Can You Do It? Preparing a Balance Sheet 59

Did You Get It? Preparing a Balance Sheet 60

Measuring Cash Flows 61

Can You Do It? How Much Can You Trust a Brother-In-Law? 66

Did You Get It? How Much Can You Trust a Brother-In-Law? 68

Can You Do It? Measuring Cash Flows 68

Did You Get It? Measuring Cash Flows 69

Income Taxes and Finance 69

Computing Taxable Income 69

Computing the Taxes Owed 70

Can You Do It? Computing a Corporation's Income Taxes 71

Did You Get It? Computing a Corporation's Income Taxes 71

Summary 72 • Key Terms 72 • Review Questions 73 • Self-Test Problems 73
• Study Problems 74 • Mini Case 79 • Self-Test Solution 82

4 Evaluating a Firm's Financial Performance 84

The Purpose of Financial Analysis 86

Measuring Key Financial Relationships 88

Question 1: How Liquid Is the Firm—Can It Pay Its Bills? 89

Cautionary Tale Forgetting Principle 3: Risk Requires a Reward 90

Can You Do It? Evaluating Disney's Liquidity	92
Question 2: Are the Firm's Managers Generating Adequate Operating Profits on the Company's Assets?	92
Did You Get It? Evaluating Disney's Liquidity	93
Finance at Work Managing by the Numbers	95
Can You Do It? Evaluating Disney's Operating Return on Assets	96
Ethics in Financial Management Fraud's Red Flags	97
Question 3: How Is the Firm Financing Its Assets?	97
Did You Get It? Evaluating Disney's Operating Return on Assets	98
Can You Do It? Evaluating Disney's Financing Decisions	99
Question 4: Are the Firm's Managers Providing a Good Return on the Capital Provided by the Company's Shareholders?	99
Did You Get It? Evaluating Disney's Financing Decisions	100
Can You Do It? Evaluating Disney's Return on Equity	102
Did You Get It? Evaluating Disney's Return on Equity	103
Question 5: Are the Firm's Managers Creating Shareholder Value?	103
Can You Do It? Computing Disney's Price/Earnings Ratio and Price/Book Ratio	104
Did You Get It? Computing Disney's Price/Earnings Ratio and Price/Book Ratio	105
Can You Do It? Calculating Disney's Economic Value Added	107
The Limitations of Financial Ratio Analysis	107
Did You Get it? Calculating Disney's Economic Value Added	108
<i>Summary</i>	108
• <i>Key Terms</i>	109
• <i>Review Questions</i>	109
• <i>Self-Test Problems</i>	110
• <i>Study Problems</i>	111
• <i>Mini Case</i>	116
• <i>Self-Test Solutions</i>	116

PART 2 The Valuation of Financial Assets 118

5	The Time Value of Money	118
	Compound Interest and Future Value	119
	Using Timelines to Visualize Cash Flows	119
	Techniques for Moving Money Through Time	123
	Two Additional Types of Time Value of Money Problems	127
	Applying Compounding to Things Other Than Money	128
	Present Value	129
	Cautionary Tale Forgetting Principle 4: Market Prices Are Generally Right	131
	Can You Do It? Solving for the Present Value with Two Flows in Different Years	131
	Annuities	132
	Compound Annuities	132
	Did You Get It? Solving for the Present Value with Two Flows in Different Years	133
	The Present Value of an Annuity	134
	Annuities Due	136
	Amortized Loans	138
	Making Interest Rates Comparable	140
	Finding Present and Future Values with Nonannual Periods	141
	Can You Do It? How Much Can You Afford to Spend on a House? An Amortized Loan with Monthly Payments	142
	Did You Get It? How Much Can You Afford to Spend on a House? An Amortized Loan with Monthly Payments	143

The Present Value of an Uneven Stream 144

Perpetuities 145

The Multinational Firm: The Time Value of Money 145

*Summary 147 • Key Terms 147 • Review Questions 148 • Self-Test Problems 148
• Study Problems 148 • Mini Case 154 • Self-Test Solutions 155*

6 The Meaning and Measurement of Risk and Return 156

Expected Return Defined and Measured 157

Can You Do It? Computing Expected Cash Flow and Expected Return 159

Risk Defined and Measured 159

Did You Get It? Computing Expected Cash Flow and Expected Return 160

Can You Do It? Computing the Standard Deviation 163

Finance at Work A Different Perspective of Risk 163

Ethics in Financial Management "I Should Have Said No" 164

Did You Get It? Computing the Standard Deviation 165

Rates of Return: The Investor's Experience 165

Finance at Work Hard Lessons 166

Risk and Diversification 167

Diversifying Away the Risk 167

Measuring Market Risk 168

Can You Do It? Estimating Beta 172

Measuring a Portfolio's Beta 173

Did You Get It? Estimating Beta 174

Risk and Diversification Demonstrated 174

The Investor's Required Rate of Return 175

The Required Rate of Return Concept 176

Measuring the Required Rate of Return 176

Finance at Work Does Beta Always Work? 177

Can You Do It? Computing a Required Rate of Return 178

Did You Get It? Computing a Required Rate of Return 179

*Summary 179 • Key Terms 179 • Review Questions 180 • Self-Test Problems 180
• Study Problems 181 • Mini Case 184 • Self-Test Solutions 186*

7 The Valuation and Characteristics of Bonds 188

Types of Bonds 189

Debentures 189

Subordinated Debentures 190

Mortgage Bonds 190

Eurobonds 190

Convertible Bonds 190

Finance at Work Alcoa: How to Raise \$1.5 Billion Ahead of Weak Earnings 191

Terminology and Characteristics of Bonds 191

Claims on Assets and Income 192

Par Value 192

Coupon Interest Rate 192

Maturity 192

Call Provision 192

Indenture 193

Bond Ratings 193

Finance at Work Clear Channel Rating Is Cut 194

Defining Value 194

What Determines Value? 195

	Valuation: The Basic Process	196
	Can You Do It? Computing an Asset's Value	197
	Valuing Bonds	197
	Did You Get It? Computing an Asset's Value	199
	Can You Do It? Computing a Bond's Value	200
	Did You Get It? Computing a Bond's Value	201
	Bond Yields	201
	Yield to Maturity	201
	Current Yield	202
	Bond Valuation: Three Important Relationships	202
	Can You Do It? Computing the Yield to Maturity and Current Yield	203
	Did You Get It? Computing the Yield to Maturity and Current Yield	204
	<i>Summary</i>	206
	• <i>Key Terms</i>	207
	• <i>Review Questions</i>	207
	• <i>Self-Test Problems</i>	208
	• <i>Study Problems</i>	208
	• <i>Mini Case</i>	210
