The Seventh Wuhan International Conference on
E-Business:

Unlocking the Full Potential
of Global Technology

Lake View Garden Hotel
Wuhan, P. R. China

May 31-June 1, 2008
Derivation Method on Upper Limit of Logistics Cost Paid to Logistics Supplier in Enterprise
Logistics Outsourcing
You-heng Huang, Ying-juan Lin ................................................................. 2139

A Conceptual Model of Multichannel Choice Behavior: Measuring Customer Experience and
Customer Value Perceptions
Kan Jiang, Wei Tian, Zi-gang Zhang ............................................................... 2145

Integrated Product Design and Running of Netcafes Based on Market Segmentation
Wen Jiang, Xiaojiao Ban, Jun Wan ................................................................. 2153

Research on Urban Logistics Infrastructure in China: An Empirical Study
Changbing Jiang, Daqiang Chen ................................................................. 2159

Inter-Organizational Knowledge Sourcing of Overseas Subsidiaries: From Universities or
From other Firms?
Guohua Jiang, Feng Zhang ................................................................. 2166

Applications of Hierarchical Cluster Based on Preference for Expert Weight in GAHP
Jiang Bing, Geng Jiang Bo, Yang Lu ............................................................. 2177

Study on Performance Evaluation of Nonprofit Organizations Based on AHP
Jiang Zuobin, Yang Changming ................................................................. 2184

Research on Product Collaborative Design System Based on User Experience Management
Yin Jin, Yanhe Zhang ................................................................. 2191

Human Resource Management upon the Pressure of Business Costs and Quality: Case Study
Le Kang ........................................................................................................... 2197

The dynamic cycle of sustainable competitive advantage in innovation economy
Sedigheh khoshid, assistant of professor of management .................. 2205

The Novel Tactics for Interdisciplinary Experts Scheme in Asynchronous Cooperation over
Internet
Kong Qingru ................................................................................................... 2214

Business Model Reconstruction & Business Ecological Environment Analysis – Taking Shanghai
CA as an Example
Guoling Lao, Wei Wei, Lina Huang .............................................................. 2219

Measure of R&D Success and Market Value of a Firm
Sangjoon Lee ................................................................................................ 2225

Open the Black Box: Analyzing Inter-Firm Knowledge Management Collaboration in
Manufacturing Supply Chains
Yulong Li ........................................................................................................2230

Evaluation and Selection of Clusters Partners Based on Rough Sets Theory
Yuhua Li, Tienan Zhang, Xuncheng Sun ..................................................................2237

Empirical Research on the Relationship between Organizational Learning and Enterprise SCA
Yunhe Li, Zepei Yuan ..........................................................................................2243

The study on the Determinants of Fit in Strategic Human Resource Management
Huanrong Li, Jiantao Zhou ..................................................................................2250

Dynamics of Governance of Family Businesses in China
Xiaoguang Li, Shubin Jiao, Jinyue Xu ....................................................................2257

Competitive Advantage in the Rents and Power Perspective
Wenchuan Li, Changxing Cao ............................................................................2263

Research on Technology Spillover and Innovation in International Joint Venture
Cuijuan Li, Bo Xu ..............................................................................................2270

Design of Logistic Distribution Project Based on Association Rules
Yunyan Li, Ting Wang ..........................................................................................2274

Analysis on the Influencing Factors of Industrial Innovation
Li Chun Yan, Li Hui, Li Chun Juan .........................................................................2279

The Application of Product Data Management System in Cost Accounting Control
Zhe Li, Chengchang Wang ....................................................................................2286

Representative Method of Knowledge Task Process
Jinkun Li, Yongjian Li ..........................................................................................2292

Analysis on the Sustainable Competitive Advantages of the Medium-Sized and Small-Sized Enterprises Based on the Strategy of the Knowledge Management
Zhihong Li, Liang Dong ......................................................................................2298

Satisfaction of Urban Dwellers on Recreation around Metropolis: an Internet Survey in Wuhan China
Jiangmin Li, Liming Ding, Zhifei Li ......................................................................2305

On merger and acquisition of foreign capital and brand protection
Li Guilin, Zhang Yu ..............................................................................................2311

An Empirical Research on Leisure Behavior at Recreational Waterfront in China: Based on the Website Survey
Yuelin Liang, Jie Zhang

Study on the Relationship between Advanced Manufacturing Technology (AMT) and Organizational Structure (OS) and Human Resource Management (HRM)
Zhandong Liang, Yezhuang Tian

Knowledge Management Strategy and Organization Learning: A Simulation Model
Liao Liefa, Wang KanLiang

The Operation of Intellectual Capital and the Interior Network Structure in a Knowledge Based Company
Liping Lin

Innovation Management: Evaluating International Competitiveness of Chinese Navigator Based on Fuzzy Theory
Li Lin, Xiaoyuan Sun, Pengfei Zhou

Research on Knowledge Transfer Based on Social Network Analysis
Yunfeng Liu, Feijian Gao

The Method of Risk Evaluation in Knowledge Management development
Wei Liu

Human Resource Management Based on the Value Chain Analysis
Jie Liu, Jiahua Liang, Wei Wang

Research of RFID Application in the Logistics System
Hong Liu, Wenxuan Luo

Empirical Research on Financial Indexes System of Listed Company Value Discovery
Shengying Liu

A Study of Web-Use Experience, Website Image and Users’ Satisfaction
Yunfeng Liu, Jianming Zhou

Inventory Management Based on the Risk Analysis
Jun'e Liu, Hua Feng

Fuzzy Appraisal of Sports Human Resource Performance
Wei Liu

The Research of User Behavior about Email Advertising in China
Yunfeng Liu, Jianming Zhou

How to Improve Software Development? A Perspective from Customers’ Perceived Quality
Maohong Liu, Tingting Xie, Minxue Huang
The Micro Analysis on Distribution of Power
Ruiyu Liu, Linglin, Du.................................................................2404

Research on Financial Support for Entrepreneurship in Wuhan
Yuqing Liu, Danxia Song..............................................................2408

Dynamic Analysis on Technological Innovation Capability of MLEs in Henan Province
Fangyuan Lu, Keyan Jiao...............................................................2414

E-business Investment Entry and Exit Decision with Jump Demand under Uncertainty
Juchun Lu, Han Qin ........................................................................2420

A Study on Partnership in Supply Chain
Ke Lu, Liying Wei, Changxing Cao, Xi Zeng ..................................2426

Integrated Optimization of Forward and Reverse Logistics Network
Yanchao Lu, Xiaoyan Li, Litao Liang ..............................................2434

The Transportation Mode Choice Based on Particle Swarm Optimization and Comprehensive Influence Factor
Yanchao Lu, Xiaoyan Li, Litao Liang ..............................................2441

Supply Chain Guru Based Research on Operating Mechanism and Capability of Logistics Services Supply Chain
Yin Lu, Shouping Gui, Zhiyong Zhang ...........................................2447

Modeling Firms-relation in Modular Production Scheme Considering the Profit-sharing and Reaction Options and its Applications
Jianjun Lu, Shozo tokinaga .............................................................2454

Strategic Choices for Hubei in “Central China’s Rising”
Lan Lu .........................................................................................2459

Application Research of PM3 in Construction Project Management
Yi Lu, Bitao Lei ..............................................................................2464

Reinforcing Human Resource Management to Attain the Unified Development of Manpower and Automobile Industry
Zhiqiang Luan, Zhanglu Tan, Qian Li, Miku Ogawa .......................2471

Empirical Research on the Relationship between Women Entrepreneurs’ Personal Traits and Venture Growth
Dongxia Luo, Peilan Guan, Huibing Xiong, Fue Zeng .....................2478

Empirical Analysis of High Technology Companies’ Innovation Performance in Central China:
A Social Capital Perspective
Gangqiang Luo, Tao Zhao .......................................................... 2484

Analysis and Design of Optimal Reward Programs Elements
Junping Ma, Chunqing Li .......................................................... 2490

Principal Component Analysis of Regional Innovation Ability Under the View Angle of
Industrial Cluster
Li Ma, Lihua Song, Yanyan Wang .................................................. 2498

Grey Markov Model and Its Application in Forecasting Electricity Demand
Ming Meng ................................................................................. 2505

The Model of Appraising & Optimizing of the Self-innovation Competence for Enterprises
Ming Ni ..................................................................................... 2511

Cyber ‘Lemon’ Problem and E-Consumer’s Behavior Model
Yong Pan .................................................................................... 2519

Research on Revenue-Sharing Contract with Stockout-Averse Members
Pang Qinghua .......................................................................... 2525

Evaluation Indicators of Independent Innovation of Manufacturing Enterprise
Benhong Peng, Haiyan Wu .......................................................... 2532

A Study of the Relationship between Organizational Justice and Chinese Organizational
Retaliatory Behavior
Yonghua Pi ................................................................................. 2537

The Research of Automobile Parts Industry Development Approach for Medium and Small
Enterprises in China
Zhen-fa Qi, Lei Liu, Meng-qi Li .................................................... 2543

Research on Technological Innovation Capability Based on Maintenance Time of Patent
Yongzhong Qiao ........................................................................ 2549

Conceptualizing Service Outsourcing: The Global Value Chain Framework
Yi Qin .......................................................................................... 2556

A Study on the Relation between “Dual Satisfaction” and Corporate Performance on the Service
Profit Chain in Mobile Communications Industry
Yuanjian Qin, Xiaojing Cao .......................................................... 2561

Intellectual Capital and Corporate Performance: An Empirical Analysis from Chinese Listed
Companies
Qiuhong Ran, Wenyao Li, Yan Luo .............................................. 2566
Cross-Impact Analysis: An Effective Technological Foresight Method
Haiying Ren, Qi Yang .......................................................... 2572

Mode of Industry clusters development in the cities surrounding the Central Economic Regions
Guangzhen Ruan, Yulin Zhao ............................................ 2578

The Customer Equity Measurement of McDonald’s in China Based on the Four-dimension Driving Model
Jingbo Shao, Wendong Lv, Gui Tang ...................................... 2582

Developmental Trend Evaluation on Logistics Industry of Different District in China Shao Juping,
Ma Tianyun, Wang Dong, Wu Lihua, Dong Shaohua .................... 2590

How does Business Network Influence Relationship between Trust and Opportunism?
Shou Zhi-gang, Su Chen-ting ............................................. 2596

Assessing Regional Disparity of Independent Innovation Capability of Regional High-tech Manufacturing in China
Fan Song, Jin Huang .......................................................... 2602

Building the CRBT Customer Churn Prediction Model: A Data Mining Approach
Qian Su, Peiji Shao, Tao Zou ............................................... 2611

The Influence of Reverse Logistics in Supply Chain
Jianhong Sun, Junheng Liao, Jiewei Lin .................................. 2617

HRM’s New Path: Innovation-oriented
Bo Sun ................................................................................. 2623

Research on the competency model of Human Resources in Informationized Entrepreneurship
Sun Delin, Wu Chuansun, Zhang Jian, Lv Xiu, Sun Yacen .............. 2630

Study on Supply Chain Coordination of Two Competing Retailers with Demand Stimulating Innovation
Wei Tian .............................................................................. 2636

An Environmental Assessment of Food Supply Chains: A Case Study on Chinese Inner Mongolia
Meng Niu Dairy
Zuhai Tian, Weixuan Hu .................................................... 2643

Evaluation of the Resource-based Enterprises’ Sustainable Development Ability Based on “AHP”
Tian Jia-hua, Zhang Bo, Gao Jie ........................................... 2649

The mediating role of Procedural Justice between Participation in Decision-Making and Organizational Citizenship Behavior: an empirical study about skeleton government civilian in china
Jiahua Tian, Guangjin Zhang, Wei Zeng
A Novel Fuzzy MADM method: Fuzzy LMS Neural Network Model
Ting Wang, Zhiwu Hua, Xiao Liu
Research on the Effect Mechanism of Customer Participation on New Product Development Based on Transaction Cost Theory: A Knowledge Sharing Perspective
Bo Wang, Rui Guo, Lan Tao
Case Study: an Improved Approach of the Recognition & Measurement of Convertible Bonds
Jinghua Wang
Empirical Analysis on Economic Efficiency of Conglomerate Operation in Urban Commercial Sectors
Fayuan Wang, Chuenhua Chang, Aiming Wang
The Bewilderment of Software Industry Cluster and the Explanation in Theory
Yang Wang, Mohan Yi
The Reconstruction of Multi-dimensional Structure of Adsorptive capacity
Xiaojie Wang
Ping Wang, Zhen Wang, Qiuzhen Wang
Consumer Ethics: An Empirical Study of Ethical Decision Making in Chinese Marketing Situation
Jingyi Wang, Hongping Sun
Internal Social Capital and Firm Performance: is Knowledge Integration a Missing Link?
Cheng Wang, Hailin Lan, Hongming Xie
Study on Relationships among Learning Orientation, Knowledge creation and organizational Performance
Wang Yanfei, Zhu Yu
Organizational learning in the Process of Knowledge Sharing to Organizational innovation
Wang Yanfei, Zhu Yu
Study of Long-Term Power Load Forecasting Based on particle swarm optimization
Ting Wang, Zhiwu Hua, Xiao Liu
Dynamic Game Analysis on Knowledge Sharing in Competitive Alliances
Mingxian Wang, Xiaozhong Song
An Approach to Multiple Attribute Decision Making Based on the Min-Max Operator in Uncertain Linguistic Setting
Xiaorong Wang, Guiwu Wei .................................................................2741

A Dynamic Evaluation Way of Leaders’ Behavior Performance in Local Government
Wei Wang, Zhihao Wang, Tao Wang ......................................................2747

The study on Investigation of Entrepreneurial Environment in Wuhan
Wang Baixuan, Sarkar Asit .................................................................2753

Study on Optimal Capacity Reservation with a Downside-risk-averse Supplier
Wei Tian ..................................................................................................2758

Absorbing the Imported Technology: An Evolutionary Game Approach
Jiubo Wei, Zhongchun Mi, Kai Wu .........................................................2764

Optimal Contract for Multiple Agents with Inequity Aversion
Guangxing Wei, Yanhong Qin ..............................................................2770

UPLWGA Operator and Its Application to Decision Making under Uncertain Pure Linguistic Setting
Guiwu Wei, Tianpei Chen .................................................................2778

Employee Psychological Contract and Innovation of Human Resource Management
Xin Wei, Xiaoyan Liu, Shulan Xiao ........................................................2784

Intellectual Property and Efficient Assignment from Creation
Xin Zhang, Nanlin Wu ........................................................................2788

Centralized Decision Making in Supply Chain with Demand and Production Cost Disruptions
——For Nonlinear Functions
Xiaozhi Wu, Hong Chen, Zhihui Yang, Shu Liu ......................................2794

A Research About The Influence Factors of Outsourcing Supplier Upgrading
BeWui, Minghui Sun, Yingna Chen, LinhuaMeng ..................................2800

A Framework of Business Model Innovation Design: A Case of Dell
Xingjun Wu, Di Xu ..............................................................................2806

Supplementary Fit and Job Satisfaction: The Mediating Role of Emotional Exhaustion
Huanwei Wu, Fang Liu ........................................................................2812

A Review of the Effect of Classified Boards on Firm Value
Jun Xie, Luan Jiang ..............................................................................2817

An Empirical Research on the Relationship between Organization structure and innovation Capability in a Dynamic Environment
Weihong Xie, Caitao Shu, Dan Ye

Parent-IJV Tie Strength, Learning Culture and Performance in International Joint Ventures (IJV): An Empirical Research in South China
XIE Hongming, WU Su, WANG Xianbiao

Study on the Application of Point Method in Job Evaluation
Lixian Xing, Yanhong Li, Ling Ma

The Model of Grey Relation Projection and Its Application to the Evaluation of Regional Logistics Capability Fitness
Weiwen Xiong, Liang Chen, Shouping Gui

Impact of Enterprise’s Orientation on Technological Innovation and Organizational Flexibility in China
Rui Xu, Xiaoli Li, Xiaomin Song, Guoxin Liu

Examine the relationship between organizational commitment and job performance: An empirical research
Jian-ping Xu

Coordination Model of E-waste Recycling Supply Chain by Revenue Sharing
Zhiduan Xu

System Dynamic Mechanism of Integration Forms in Supply Chain Management
Bo Xu, Junmin Yang

Application of Six-Sigma Approach to the Performance Evaluation of Supply Chain
Jingyue Xu, Shubin Jiao, Xiaoguang Li

The Research on Technological Innovation Service System in Specialized Town: the Case of Guangdong Province
Jie Xue

The Knowledge Base, Framework and Interaction in Regional Innovation Network: a Case Study of the Electronic and Information Cluster of Shilong
Jie Xue, Zhengang Zhang

Research on Human Resource Hierarchical Structure Management: a Method to Enhance Human Resource Efficiency
Liu Xun, Zepei Yuan

Towards the Growth of IT Business Based on the Evolutionary Perspective
Ming Yan, Yingfei Zhao
The Research on Measurement of Enterprise Virtualization Degree
Xiaofei Yan, Xiufang Du ............................................................................................................................ 2904

Study on the Third Party Logistics Service (3PLs) Provider Selection based on Fuzzy Petri Net (FPN)
Xiu Xia Yan, Hu Yu, Xiaohui Hua ................................................................................................................. 2912

Research on Planning Model of Reverse Logistics Network for Electronic Waste in Supply Chain Environment
Bo Yan, Haiyan Fu, Guanxiang Zhang ........................................................................................................... 2917

The project of the Apparel Supplier Synthetical Evaluation Index System
Yuxiu Yan, Dimeng Zhang, Jueliang Hu, Liling Cai, Xiaofen Ji ....................................................................... 2923

Research on the Complexity of Industrial Supply Chain Logistics Network and its Characteristics
Fei Yan, Qianli Dong ........................................................................................................................................ 2928

Research on CMI Supplier Evaluation and Selection Based on Analytic Network Process Method
Yan Shen, Qing Nie, Xiaoyan Yang, Qingda Yuan ......................................................................................... 2937

Model of Core Competence Evaluation Base on Rough Set-Unascertained Measure
Jinting Yang, Menglei Wang, Hanyue Guo ....................................................................................................... 2943

Empirical Research on Influencing Factors of Technological Innovation: Based on Zhejiang Enterprises
Jing Yang, Meilian Zheng .................................................................................................................................. 2949

Exploring the Causal Relationship between Freight Transport and Economic Activities in China
Jiaqi Yang, Ying Zhou ........................................................................................................................................ 2955

A Study on Customer Equity Management and its Application
Xue Yang, Jiangbo Huangfu, Jun Yang ............................................................................................................. 2963

An Empirical Study on the Relationships among Inter-firm Cooperation, Knowledge Creation and Organizational Innovation
Jingjing Yang, Sanmu Wang, Longzeng Wu, Hailin Lan .................................................................................... 2969

The Operational Mechanism of Chinese Across Banking Settlement System for Online Payment
Qifeng Yang, Zhengwei Cheng, Ping Song ....................................................................................................... 2978

The Research on the Appraisal of Market Opportunity Based on AHP
Donghong Yang, Yujie Tan Yanbin Sun ........................................................................................................... 2985

Model for Assessment and Selection of Franchise Stores of Supermarket
Yanbo Yang, Zhong Qiao, Yuexian Guo ........................................................................................................... 2989
The Reverse Logistics Inventory Control Based on EPQ Model
Yang Donghong, Duan Wenyan, Sun Yanbin ................................................................. 2994

Effect of Guanxi Orientation on Employee’s Satisfaction: An Empirical Research in China
Fei Yao ......................................................................................................................... 2999

Measuring the Impact of Entrepreneurial Competencies on Development: A Study of Private Manufacturing Businesses in Changsha
Yi Chaohui, Xia Qinghua ............................................................................................ 3005

Research and Empirical Analysis of Social Responsibility Evaluation for MIEs
Dajin Yu ....................................................................................................................... 3012

Studying on the Key Factors of Enterprise Informatization Success in Hangzhou and Zhejiang
Jian Yu, Xiaoying Pan, Fan Chen ................................................................................ 3021

The Analysis of Venture Capital Effects on High Technology Industry’s Innovation
Yu Bin, Shen Yijun ....................................................................................................... 3028

Influence Factors of Purchase Decision Based on Consumers’ Perception: a Study of Top-grade Cosmetic
Yu Junying, Liu Pei ....................................................................................................... 3034

An Optimal Approach for supplier selection with Customer Satisfaction and Components Consideration
Shouhua Yuan, Yiliu Tu, and Deyi Xue ........................................................................ 3040

Yue Qi, Lan Hailin ....................................................................................................... 3046

Managerial Ownership Motivation and Corporate Performance in Chinese Business Groups: An Empirical Research Based on Chinese Public Companies
Yue Qi, Jiang Luan, Lan Hailin .................................................................................. 3055

Value Innovation Circulation of China Construction Industry
Jing-xiao Zhang, Wei-xing Jin, Hui Li ........................................................................... 3065

An empirical research on the relationship between trust and collaboration effects of PPP in high-tech biological pharmaceutical industry
Zhe Zhang, Difang Wan, Ming Jia ................................................................................ 3071

Dynamic Game Analysis on Developers and Customers in the Real Estate Market

36
Hongqing Zhang, Xiaoyin Fan
Apply Process-oriented Knowledge Map to the Construction of EKP

Huiping Zhang
The framework of knowledge management implementation in software Enterprise

Xin Zhang, Zubing Hou
Benchmarking in Supply Chain Management: A Case Study

Cunlu Zhang
Research into Equity Arrangement-Based Overseas Operation Strategy of Transnational Corporations

Qin Zhang
Research on Network Externalities of Btobtog-Based Logistics Information Service Platform

Zhang Zhi-yong, Wu Dong-ling, Gui Shou-ping
Response of Regional Tourist Flow to Informational Space Example of Jiuzhaigou Valley

Jie Zhang, Yuelin Liang, Chunyun Shi3, Jing Zhong
Research on the Derivation of Industrial Cluster in Northeast China from the Perspective of Network

Ling Zhang, Hui Li
The Empirical Study on Influence of Intellectual Property Risk to Innovation Performance

Ke-ying Zhang, Wei Guo, Zhu Jiang
Research on Competitiveness Assessment Model for the Small and Medium-sized Financial Enterprises

Zhang Hao
Perceived Convenience, Perceived Playfulness and Attitude towards Internet Adoption

Guangling Zhang, Jing Chen
Strategy Choosing for Solving Cross-culture Conflict for Multinational Service Company

Lili Zhang, Yanping Liu, Kuangwen Sun
Research on the Marketing Risk Evaluation of Supply Chain

Liwei Zhang, Yan Chen, Fei Chen
Research of Hiring Knowledge Workers Basing on a Proposed Taxonomy of Performance for Knowledge-Based Competition

Shujuan Zhang, Gongqian Liang, Dong Chen
An Empirical Study of Total Quality Management in Chinese Firms
Wei Zhao .......................................................................................................................... 3166

The Application of Scenario Analysis in Logistics Demand Forecast of Beijing XinFadi Farm-produce Trade Market
Rui Zhao, Keming Zhang, Jing Zang .................................................................................. 3173

Performance Evaluation on the Technological Innovation of the Industry in Hubei Province Based on DEA
Yulin Zhao, Xin Lu ........................................................................................................... 3178

Study on Management strategy of employment relationship based on Psychological contract
Chenhui Zhao .................................................................................................................... 3184

An Empirical Study on the Relationship Between Knowledge Sharing and Affective Commitment of Professional Staff
Meilian Zheng, Jing Yang, Gongmin Bao .......................................................................... 3191

Logistics Capability-based Strategy Research on Highway Package Express
Zheng Sufeng, Guishoupeng, Zhang Zhiyong .................................................................. 3199

A Model of Knowledge Flow Network within Enterprises
Qi Zhong, Keyi Wang ........................................................................................................ 3205

The Research of Optimization of Logistics Distribution System based on B2C E-commerce
Yefu Zhou, Zaiyue Li ........................................................................................................ 3211

The Strategic Reframing Management in View of a Business Improvement
Lixia Zhou ........................................................................................................................ 3216

Reconfigurability of the Supply Chain and Evaluation Model
Ye Zhou, Ming Luo, Ben-hong Peng ................................................................................ 3222

Pricing Decision Model of Logistics Service Based on ABC
Lingyun Zhou, Dong Mu, Wenke Wang, Youheng Wang .................................................. 3226

The construction of the ecological logistics park based on Enterprises symbiotic relationship model
Jiawei Zuo, Honglu Liu, Zhenji Zhang, Runtong Zhang .................................................. 3232
