Introduction  3

1 Agricultural Policy: Agriculture and Agribusiness Environments  9
1.1 Agricultural Policy and Budgetary Outlay  9
1.2 Agriculture and Its Changing Nature  13
1.3 Instability and Uncertainty in Agriculture  19
1.4 Boom-Bust Cycles: The Importance of Wealth  21
1.5 Agribusiness and Contract Farming  23
1.6 Lack of Countervailing Power  25
1.7 Farm Policy, Government Support Levels, and Effective Lobbying  26
1.8 Targeting Farm Subsidies  27
1.9 Rural Communities  28
1.10 Commissioned Reports  29
1.11 Summary and Conclusions  30

2 Agricultural Policy: Institutions and Rent-Seeking Behaviour  31
2.1 Agricultural Policy  31
2.2 Political Institutions  37
## Contents

2.3 Consequences of the Political Process 40  
2.4 Rationale for Government Intervention in a Market 41  
2.5 Government Failure and Policy Uncertainty 43  
2.6 The Theory of Public Choice and Agricultural Policy 44  
2.7 Rent-Seeking Behaviour 45  
2.8 Coalitions and Logrolling 50  
2.9 Farm Organizations 52  
2.10 Summary and Conclusions 54  

3 Theoretical Considerations 56  
3.1 Economic Efficiency and Income Distribution 56  
3.2 Income Transfers 61  
3.3 The Harberger Tax and Monopoly Power 64  
3.4 Efficiency of Income Transfers 66  
3.5 The Economics of Information 70  
3.6 The Theory of Regulation 72  
3.7 The Search for Stability 73  
3.8 Summary and Conclusions 78  
Appendix 3A: Graphical Description of the Conditions for a Pareto Optimum 79  
Appendix 3B: Consumer Surplus 83  
Appendix 3C: Producer Surplus and Economic Rent 87  
Appendix 3D: Starting from Second Best 88  

4 Agricultural Trade and Macroeconomic Policies 89  
4.1 Agricultural Trade 89  
4.2 International Trade Theory 90  
4.3 Trade Policy Instruments 95  
4.4 Trade Distortions Caused by Market Power 101  
4.5 Macroeconomics, Trade, and Exchange Rates 105  
4.6 Summary and Conclusions 109  
Appendix 4A: Negative Gains from Trade 110  
Appendix 4B: Macroeconomics and Agricultural Policy 113  

5 U.S. Agricultural Policy 122  
5.1 U.S. Stabilization: Policies and Direct Farm Subsidies 122  
5.2 U.S. Aggregate Farm Bill Expenditures 123  
5.3 Early U.S. Farm Bills 124  
5.4 The 1970 U.S. Farm Bill: Target Prices, Loan Rates, and Deficiency Payments 126
8.2 History of Crop Insurance 223
8.3 Evolution of Crop Insurance in Canada 224
8.4 Evolution of Crop Insurance in the United States 225
8.5 Theory of Crop Insurance 227
8.6 Information Costs Associated with Crop Insurance Programs 239
8.7 Dealing with Adverse Selection and Moral Hazard 243
8.8 Crop Insurance Coverage Falls as Prices Fall 244
8.9 Summary and Conclusions 248
Appendix 8A: Value of Insurance under Risk Aversion 250
Appendix 8B: The Mechanics of GRIP 251
Appendix 8C: An Adjustment Option (Jackson Offset) 252

9 Policy Decoupling, GATT, and the WTO 254
9.1 Policy and Decoupled Production 254
9.2 Policy Categories and Decoupling 255
9.3 Economics of Input and Output Subsidies 257
9.4 U.S. Cotton Subsidies: Drawing a Fine Line on the Degree of Decoupling 262
9.5 Summary and Conclusions 270

10 Farmland Markets: Politics, Policy, and Urbanization 272
10.1 Farm Payments and Land Values 272
10.2 U.S. Land Values 274
10.3 The Theory of Land Markets 274
10.4 Empirical Background 278
10.5 Canadian and U.S. Land Values 280
10.6 Boom-Bust Cycles and Farmer Wealth 286
10.7 Urban Growth and U.S. Farmland Values 287
10.8 Land Values and the Solvency of the Farm Sector 289
10.9 Land Values, Urban Development, and Trade 291
10.10 Productivity and Farmland Values 295
10.11 Multinationals: Capital Movements and Product Trade 295
10.12 Summary and Conclusions 297
Appendix 10A: U.S. Land Values and Decoupled Farm Programs 298
Appendix 10B: Land Rents – Price Supports and Technological Change 301

11 Agricultural Productivity and R&D Policy 302
11.1 Investing in Agricultural Research 302
11.2 Measuring Productivity and Productivity Growth 303
Appendix 14C: Farm Equipment Markets 397
Appendix 14D: Interaction between the Input and Credit Markets 399

15 Genetically Modified Organisms 404
15.1 Different Plant Species 404
15.2 Regulatory Framework 406
15.3 Consumer Confidence and Producer Profitability 409
15.4 Economic Framework 411
15.5 Case Studies 413
15.6 StarLink™ Corn 421
15.7 Summary and Conclusions 424
Appendix 15A: Non-adopters of GMOs 424
Appendix 15B: Modelling Market Segregation for Corn 425
Appendix 15C: Product Quality 427

16 Food Quality and Safety 428
16.1 Food Quality and Safety 428
16.2 Government Involvement in Domestic Food Safety 430
16.3 Inspection and Grading 434
16.4 Greater Role for the Private Sector 438
16.5 Regulation of Genetically Modified Foods 438
16.6 International Institutions for Food Regulation 441
16.7 Country of Origin Labelling: Producers and Consumers 444
16.8 Regulations and Information 447
16.9 Reputation Effect 450
16.10 Costs and Benefits of Regulation 450
16.11 A Positive View of Biotechnology 454
16.12 Nutrition, Obesity, and Agricultural Policy 455
16.13 Animal Rights and Humane Slaughter 459
16.14 Summary and Conclusions 462
Appendix 16A: The Household Production Model and Food Demand 463

17 Conclusions and Future Directions 468
17.1 Public Choice and Rent-Seeking Behaviour 468
17.2 Vertical Markets and Agribusiness 469
17.3 Goals and Objectives of Policy 469
17.4 Lament for Dying Communities 470
17.5 Targeting Support 470
17.6 Costs and Benefits of Agricultural Programs 471
