

CLAIMS AND DEDUCTIBLES FOR HOMEOWNER'S INSURANCE

Michael Braun

A DISSERTATION

in

Operations and Information Management

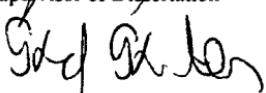

For the Graduate Group in
Managerial Science and Applied Economics

Presented to the Faculties of the
University of Pennsylvania
in Partial Fulfillment of the Requirements for the
Degree of Doctor of Philosophy

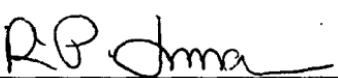

2006

Supervisor of Dissertation

Supervisor of Dissertation

Graduate Group Chair

List of Tables	1
List of Figures	2
1 Introduction	3
1.1 Deductible choice and asymmetric information	4
1.2 The “Pseudodeductible”	6
1.3 Data	8
1.4 Implications	8
2 The Effect of Cues on Asymmetric Information in Homeowner’s Insurance Markets	10
2.1 Introduction	10
2.2 Literature Review	15
2.2.1 Deductible Choice	15
2.2.2 Asymmetric information	18

2.3	The Model	21
2.3.1	Model Description	21
2.3.2	Data	26
2.3.3	Estimation	30
2.4	Results	31
2.4.1	Effect on switching and claims	32
2.4.2	Asymmetric information	35
2.4.3	Model assessment	39
2.4.4	Unobserved heterogeneity	43
2.5	Policy implications and future research	44
3	Modeling the “Pseudodeductible” in Insurance Claims Decisions	48
3.1	Introduction	48
3.2	The Model	53
3.2.1	Notation	53
3.2.2	Deriving the Likelihood	57
3.2.3	Heterogeneity Across Households	62
3.3	Estimation	63
3.3.1	The Data	64
3.3.2	Estimation Method	65
3.3.3	Alternative Approaches	66
3.4	Results	67
3.4.1	Log Likelihood Comparison	67
3.4.2	Estimated Severity Distributions	68
3.4.3	Timing and Pseudodeductible Estimates	69
3.4.4	Posterior Prediction	72

3.5 Inference	74
3.5.1 Posterior Classification Probabilities	74
3.5.2 Deductible “Upgrades”	77
3.6 Incorporating Nonstationarity	78
3.7 Discussion	83
4 Conclusion	86
Bibliography	91
