Information Resources Management: Concepts, Methodologies, Tools, and Applications

Information Resources Management Association
USA

Volume II
Chapter 3.8. Integrating Software Engineering and Costing Aspects within Project Management Tools

Roy Gelbard, Bar-Ilan University, Israel
Jeffrey Kantor, Bar-Ilan University, Israel & University of Windsor, Canada
Liran Edelist, Bar-Ilan University, Israel
Chapter 3.9. A Survey of Open Source Tools for Business Intelligence .......................................................... 624
Christian Thomsen, Aalborg University, Denmark
Torben Bach Pedersen, Aalborg University, Denmark

Chapter 3.10. Environments for Virtual Enterprise Integration ................................................................. 645
Maria Manuela Cruz-Cunha, Polytechnic Institute of Cávado and Ave, Portugal
Goran D. Putnik, University of Minho, Portugal

Chapter 3.11. View Management Techniques and Their Application to Data Stream Management ......................... 663
Christoph Quix, RWTH Aachen University, Germany
Xiang Li, RWTH Aachen University, Germany
David Kensche, RWTH Aachen University, Germany
Sandra Geisler, RWTH Aachen University, Germany

Chapter 3.12. Ensuring Correctness, Completeness, and Freshness for Outsourced Tree-Indexed Data .................. 693
Tran Khanh Dang, National University of Ho Chi Minh City, Vietnam

Chapter 3.13. Examining the Effects of TAM Constructs on Organizational Software Acquisition Decision ............ 711
Faith-Michael E. Uzoka, University of Botswana, Botswana

Marija Jankovic, Ecole Centrale Paris, France
Pascale Zarate, Toulouse University, France
Jean-Claude Bocquet, Ecole Centrale Paris, France
Julie Le Cardinal, Ecole Centrale Paris, France

Chapter 3.15. ‘Stream of Training’ Approach in Project Management Training .................................................. 742
David G. Vequist IV, University of the Incarnate Word, USA
Mark S. Teachout, University of the Incarnate Word, USA

Chapter 3.16. Trust-Based Usage Control in Collaborative Environment ....................................................... 751
Li Yang, University of Tennessee at Chattanooga, USA
Chang Phuong, University of Tennessee at Chattanooga, USA
Andy Novobilski, University of Tennessee at Chattanooga, USA
Raimund K. Ege, North Illinois University, USA

Chapter 3.17. Enabling the Virtual Organization with Agent Technology ....................................................... 766
Tor Guimaraes, Tennessee Tech University, USA

Chapter 3.18. Technologies in Support of Knowledge Management Systems .................................................. 784
Murray E. Jennex, San Diego State University, USA
Chapter 3.19. Intelligent Business Process Execution using Particle Swarm Optimization .......................... 797
Markus Kress, University of Karlsruhe, Germany
Sanaz Mostaghim, University of Karlsruhe, Germany
Detlef Seese, University of Karlsruhe, Germany

Chapter 3.20. Enterprise Information Systems: Aligning and Integrating Strategy, Technology, Organization and People......................................................... 816
Paul T. Kidd, Cheshire Henbury, UK

Chapter 3.21. A Complex Adaptive Systems-Based Enterprise Knowledge Sharing Model .................. 831
Cynthia T. Small, The MITRE Corporation, USA
Andrew P. Sage, George Mason University, USA

Chapter 3.22. Always-On Enterprise Information Systems with Service Oriented Architecture and Load Balancing.............................................................. 850
Serdal Bayram, Siemens, Turkey
Melih Kirildoğ, Marmara University, Turkey
Özalp Vayvay, Marmara University, Turkey

Chapter 3.23. Extending Sociotechnical Design to Project Conception: Knowledge Communication Processes for Situating Technology......................................... 868
Constance Kampf, University of Aarhus, Denmark

Sumita Dave, Shri Shankaracharya Institute of Management & Technology, India
Monica Shrivastava, Shri Shankaracharya Institute of Management & Technology, India

Chapter 3.25. Directed Basic Research in Enterprise Resource Planning (ERP)................................. 896
S. Parthasarathy, Thiagarajar College of Engineering, India

Chapter 3.26. A Transactions Pattern for Structuring Unstructured Corporate Information in Enterprise Applications ................................................................. 910
Simon Polovina, Sheffield Hallam University, UK
Richard Hill, Sheffield Hallam University, UK

Section IV. Utilization and Application

This section introduces and discusses the utilization and application of information resources management systems around the world. These particular selections highlight, among other topics, information resources development in countries including Qatar, India and China; knowledge management system implementation, maturity and lifecycles; and success factors of enterprise resource planning implementations. Contributions included in this section provide excellent coverage of the impact of information resources management on the fabric of our present-day global village.
Chapter 4.1. An Empirical Assessment of Technology Adoption as a Choice between Alternatives ................................................................. 923
  Ernst Bekkering, Northeastern State University, USA
  Allen C. Johnston, University of Alabama Birmingham, USA
  Merrill Warkentin, Mississippi State University, USA
  Mark B. Schmidt, St. Cloud State University, USA

Chapter 4.2. Enterprise Information Systems Change, Adaptation and Adoption: A Qualitative Study and Conceptualization Framework ......................................................... 945
  Boris Jukic, Clarkson University, USA
  Nenad Jukic, Loyola University Chicago, USA
  Miguel Velasco, Loyola University Chicago, USA

Chapter 4.3. The Implementation of Knowledge Management in Service Businesses ................. 970
  Pei-Di Shen, Ming Chuan University, Taiwan
  Tsang-Hsiung Lee, National Chengchi University, Taiwan
  Chia-Wen Tsai, Yuanpei University, Taiwan
  Yi-Fen Chen, Yuan Christian University, Taiwan

Chapter 4.4. Implementation of ERP in Human Resource Management ...................................... 987
  Zhang Li, Harbin Institute of Technology, China
  Wang Dan, Harbin Institute of Technology, China
  Chang Lei, Harbin Institute of Technology, China

Chapter 4.5. Enterprise Architecture as Context and Method for Designing and Implementing Information Security and Data Privacy Controls in Government Agencies .............. 996
  Scott Bernard, Carnegie Mellon University, USA
  Shuyuan Mary Ho, Syracuse University, USA

Chapter 4.6. Improving Virtual Teams through Swift Structure .............................................. 1027
  Daphna Shwartz-Asher, Tel Aviv University, Israel
  Niv Ahituv, Tel Aviv University, Israel
  Dalia Etzion, Tel Aviv University, Israel

Chapter 4.7. Information and Knowledge Perspectives in Systems Engineering and Management for Innovation and Productivity through Enterprise Resource Planning ... 1036
  Stephen V. Stephenson, Dell Computer Corporation, USA
  Andrew P. Sage, George Mason University, USA

Chapter 4.8. Network Selection Strategies and Resource Management Schemes in Integrated Heterogeneous Wireless and Mobile Networks ........................................ 1066
  Wei Shen, University of Cincinnati, USA
  Qing-An Zeng, University of Cincinnati, USA
Chapter 4.9. Operational Process Management in the Financial Services Industry

Diana Heckl, Frankfurt School of Finance and Management, Germany
Juergen Moormann, Frankfurt School of Finance and Management, Germany

Chapter 4.10. Knowledge Flow Networks and Communities of Practice in Business Process Management

Rajiv Khosla, La Trobe University, Australia
Mei-Tai Chu, La Trobe University, Australia
Shinichi Doi, NEC Corporation, Japan
Keiji Yamada, NEC Corporation, Japan
Toyoaki Nishida, Kyoto University, Japan

Chapter 4.11. Knowledge Management for E-Government Applications and Services

Penelope Markellou, University of Patras, Greece
Konstantinos Markellos, University of Patras, Greece
Eirini Stergianeli, University of Patras, Greece
Eleni Zampou, University of Patras, Greece

Chapter 4.12. Semantic Business Process Management: A Case Study

Sebastian Stein, IDS Scheer AG Altenkesseler, Germany
Christian Stamber, IDS Scheer AG Altenkesseler, Germany
Marwane El Kharbili, IDS Scheer AG Altenkesseler, Germany
Pawel Rubach, Telekomunikacja Polska S.A., Poland

Chapter 4.13. Measuring the Benefits of Enterprise Architecture: Knowledge Management Maturity

Alan Dyer, EWA, Australia

Chapter 4.14. Project Management for Project-Based Learning: A Case Study of Course Projects with Small Virtual Instructional Design Teams

Shahron Williams van Rooij, George Mason University, USA

Chapter 4.15. Crisis Compliance: Using Information Technology to Predict, Prevent and Prevail over Disasters

Laura Lally, Hofstra University, USA
