Chapter 4.17. The Knowledge Sharing Model: Stressing the Importance of Social Ties and Capital
---------------------------------------------------------------------------------------------
Gunilla Widén-Wulff, Åbo Akademi University, Finland
Reima Suomi, Turku School of Economics, Finland

1241
Section V. Organizational and Social Implications

This section includes a wide range of research pertaining to the social and organizational impact of information resources management. Chapters included in this section analyze the influence of attitude on the acceptance and use of information systems, discuss knowledge transfer and relationship in virtual teams, consider the challenges of organizational competitiveness and transient workers, and present the impact of user involvement and participation via technology on the quality of planning projects. The inquiries and methods presented in this section offer insight into the implications of information
resources management at both a personal and organizational level, while also emphasizing potential areas of study within the discipline.

Chapter 5.1. Knowledge Strategy and Its Role in the Organization: An Exploratory Study ............. 1387
Joseph E. Kasten, Dowling College, USA

Chapter 5.2. Knowledge Management and the Links to Human Capital Management: Leadership, Management Capabilities, and Sustainability ............................................. 1403
Marianne Gloet, Abu Dhabi Women's College, UAE

Chapter 5.3. Explaining Experts' Perceptions of Knowledge Management Effectiveness .......... 1416
Mohamed Khalifa, Abu Dhabi University, United Arab Emirates
Vanessa Liu, New Jersey Institute of Technology, USA
Matthew K. O. Lee, City University of Hong Kong, Hong Kong

Chapter 5.4. Analysis of User Involvement and Participation on the Quality of IS Planning Projects: An Exploratory Study .......................................................... 1433
Varadharajan Sridhar, Management Development Institute, India
Dhruv Nath, Management Development Institute, India
Amit Malik, Management Development Institute, India

Chapter 5.5. The Effect of Level of Negotiation Support Systems and Cultural Diversity on Coalition Formation: A Content Analysis .................................................. 1452
Xiaojia Guo, National University of Singapore, Singapore
John Lim, National University of Singapore, Singapore
Fei Wang, National University of Singapore, Singapore

Chapter 5.6. Teamworking for Security: The Collaborative Approach .................................. 1466
Rainer Bye, Technische Universität Berlin, Germany
Ahmet Camtepe, Technische Universität Berlin, Germany
Sahin Albayrak, Technische Universität Berlin, Germany

Chapter 5.7. Information Technology Supported Communication - Group Cohesion, Agreeability, and Performance: The Role of Media Richness ............................... 1488
Michael B. Knight, University of Wisconsin, USA
D. Scott Hunsinger, Appalachian State University, USA
J. Michael Pearson, Southern Illinois University, USA

Chapter 5.8. The Influence of Attitude on the Acceptance and Use of Information Systems .......... 1506
Charles J. Kacmar, University of Alabama, USA
Susan S. Fiorito, Florida State University, USA
Jane M. Carey, Arizona State University, USA

Chapter 5.9. Capturing Tacit Knowledge from Transient Workers: Improving the Organizational Competitiveness .............................................................. 1535
Salah Eldin Adam Hamza, SOFCON Consulting Engineering Co., Saudi Arabia
Chapter 5.10. How Do Virtual Teams Work Efficiently: A Social Relationship View .................. 1552
Ying Chieh Liu, Chaoyang University of Technology, Taiwan
Janice M. Burn, Edith Cowan University, Western Australia

Chapter 5.11. Occurrence and Effects of Leader Delegation in Virtual Software Teams............. 1574
Suling Zhang, Kean University, USA
Marilyn Tremaine, New Jersey Institute of Technology, USA
Rich Egan, New Jersey Institute of Technology, USA
Allen Milewski, Monmouth University, USA
Patrick O'Sullivan, IBM Dublin Lab, Ireland
Jerry Fjermestad, New Jersey Institute of Technology, USA

Chapter 5.12. Interrelationships Between Professional Virtual Communities and Social Networks, and the Importance of Virtual Communities in Creating and Sharing Knowledge ................................................................. 1595
Fernando Garrigos, Universitat Jaume I, Spain

Chapter 5.13. Visualizing Knowledge Networks and Flows to Enhance Organizational Metacognition in Virtual Organizations ................................................................. 1617
Mark E. Nissen, Naval Postgraduate School, USA

Shawn D. Long, University of North Carolina at Charlotte, USA
Gaëlle Picherit-Duthler, Zayed University, UAE
Kirk W. Duthler, Petroleum Institute, UAE

Chapter 5.15. Managing the Information Technology: Knowledge Transfer in Virtual Teams..... 1643
Huei-Chen Hsu, Transworld Institute of Technology, Taiwan

Chapter 5.16. Towards Dynamic Collaborations in Virtual Organization Alliances ............... 1663
Xiaohui Zhao, Swinburne University of Technology, Australia
Chengfei Liu, Swinburne University of Technology, Australia

Chapter 5.17. Risks Evaluation and IT Audit Aspects of Business Intelligence Solutions ......... 1686
Andrea Kő, Corvinus University of Budapest, Hungary

Chapter 5.18. The Influence of National and Organizational Cultures on Technology Use: An Exploratory Study within a Multinational Organizational Setting .......................... 1710
Zixiu Guo, University of New South Wales, Australia
John D'Ambra, University of New South Wales, Australia

Chapter 5.19. Perceived Organizational Environment and Performance Reliability in the Case of Hospital Nurses ................................................................. 1732
Murako Saito, Waseda University, Japan
Section VI. Managerial Impact

This section presents contemporary coverage of the managerial implications of information resources management. Particular contributions address the impact of information technology investments on productivity, integration of knowledge resources in research and development organizations, and how to use technology to enhance leadership competencies in virtual teams. The managerial research provided in this section allows administrators, practitioners, and researchers to gain a better sense of how information resources management can inform their practices and behavior.

Chapter 6.1. IT Management in Small and Medium-Sized Enterprises ........................................ 1743
Theekshana Suraweera, University of Canterbury, New Zealand
Paul B. Cragg, University of Canterbury, New Zealand

Chapter 6.2. Aligning Six Sigma and ITIL to Improve IT Service Management .......................... 1750
Peter C. Chan, Hewlett Packard, USA
Shauntell R. Durant, Hewlett Packard, USA
Verna Mae Gall, University of Maryland - University College, USA
Mahesh S. Raisinghani, TWU School of Management, USA

Chapter 6.3. Integration of Knowledge Resources in R&D Organizations:
A Human Resource Management Perspective .................................................................................. 1766
Valentina Janev, The Mihajlo Pupin Institute, Serbia
Sanja Vraneš, The Mihailo Pupin Institute, Serbia

Chapter 6.4. Innovative Work and Citizenship Behaviors from Information
Technology Professionals: Effects of Their Psychological Contract ............................................ 1779
Sandra K. Newton, Sonoma State University, USA
J. Ellis Blanton, University of South Florida, USA
Richard Will, University of South Florida, USA

Chapter 6.5. Revisiting the Impact of Information Technology Investments
on Productivity: An Empirical Investigation Using Multivariate Adaptive Regression Splines (MARS) ................................................................. 1801
Myung Ko, The University of Texas at San Antonio, USA
Jan G. Clark, The University of Texas at San Antonio, USA
Daijin Ko, The University of Texas at San Antonio, USA
