<i>List of Figures</i>	x
<i>Preface</i>	xi
<i>List of Abbreviations</i>	xv
1 The Too Big to Fail Doctrine	1
1.1 The meaning and origin of TBTF	1
1.2 Rewarding recklessness: An anecdote	9
1.3 TBTF: A privilege of banks and other financial institutions	10
1.4 The pros and cons of financial regulation	14
1.5 TBTF as an extension of the banking safety net	17
2 The History of TBTF	19
2.1 Financial crises and regulation	19
2.2 The history of deregulation	22
2.3 Evolution of the TBTF doctrine	26
2.4 TBTF rescue during the global financial crisis	28
2.5 Has the TBTF problem become worse?	32
3 Some Notorious TBTF Cases	33
3.1 Continental Illinois	33
3.2 Long-Term Capital Management	35
3.3 The Royal Bank of Scotland	40
3.4 Northern Rock	43
3.5 American International Group	44
3.6 Citigroup	47
3.7 Lehman, Merrill and Bear	50
4 Far Too Big and Politically Connected	54
4.1 No longer humble intermediaries	54
4.2 Internalization and “King of the Mountain”	55
4.3 The quest for market power	57
4.4 Exploiting the economies of scale and scope	63
4.5 A reality check	68
4.6 The big motive: Mission TBTF	69
4.7 Growing big: A recap and evidence	71
4.8 The growing political influence of financial institutions	75
4.9 Victims or villains?	76

5	The Jewel in the Crown	81
5.1	Some facts and figures	81
5.2	Financial markets and financial engineering	86
5.3	The government's love affair with the financial sector	93
5.4	The role of deregulation	95
5.5	The role of academia	97
6	Worthy of Bailout: To be or Not to be?	109
6.1	Cherry picking?	109
6.2	Size as a determinant of systemic importance	111
6.3	Contagion as a determinant of systemic importance	114
6.4	Correlation as a determinant of systemic importance	116
6.5	Concentration as a determinant of systemic importance	118
6.6	Conditions/context as a determinant of systemic importance	118
6.7	A classification scheme	120
6.8	So, does size matter?	121
7	Why Too Big to Fail is Too Outrageous to Accept	124
7.1	Any argument for TBTF?	124
7.2	Argument 1: The difficulty of determining TBTF institutions	126
7.3	Argument 2: Diversion of resources away from more beneficial uses	126
7.4	Argument 3: Boosting rent-seeking unproductive activities	128
7.5	Argument 4: TBTF creates significant moral hazard	130
7.6	Argument 5: Financial burden on future generations or hyperinflation	132
7.7	Argument 6: Saving a minority at the expense of the majority	132
7.8	Argument 7: Rewarding recklessness and hampering market discipline	133
7.9	Argument 8: TBTF as a source of poor performance	135
7.10	Argument 9: TBTF creates distortions	136
7.11	Argument 10: TBTF makes big institutions even bigger	137
7.12	Argument 11: Boosting the financial sector even further	137
7.13	Arguments against for all tastes	138
8	Dealing with the Menace of TBTF	139
8.1	Why TBTF should be tossed in the dustbin	139
8.2	The million dollar question	140

8.3	Fighting the obesity of financial institutions	142
8.4	Appropriate and effective regulation	150
8.5	Allowing failing financial institutions to fail	161
9	Forget about Basel II	171
9.1	Basel II in the aftermath of the global financial crisis	171
9.2	The Basel Accords	172
9.3	Basel II as a form of capital-based regulation	174
9.4	Basel II: The wrong kind of regulation	174
9.5	The treatment of liquidity and leverage	176
9.6	The use of internal models	180
9.7	Risk sensitivity and procyclicality	185
9.8	Reliance on rating agencies	188
9.9	The implementation problems	189
9.10	The exclusionary and discriminatory aspects of Basel II	190
9.11	The one-size-fits-all problem	192
9.12	Basel II as a pure compliance exercise	192
9.13	Concluding remarks	193
10	TBTF: Where Do We Stand?	195
10.1	The costs and benefits of TBTF	195
10.2	Circumventing the TBTF problem: Why and how?	196
10.3	Regulation: The way forward	197
10.4	No more business as usual	198
10.5	Basic finance without TBTF	199
