Part I: The Early Ideas and Contributions

1. Introduction to the Early Ideas and Contributions 3

2. Exposition of a New Theory on the Measurement of Risk (translated by Louise Sommer) 11
   D. Bernoulli

3. A New Interpretation of Information Rate 25
   J. R. Kelly, Jr.
   *Bell System Technical Journal*, 35, 917-926 (1956)

4. Criteria for Choice among Risky Ventures 35
   H. A. Latané
   *Journal of Political Economy*, 67, 144-155 (1959)

5. Optimal Gambling Systems for Favorable Games 47
   L. Breiman
6. Optimal Gambling Systems for Favorable Games
   E. O. Thorp

7. Portfolio Choice and the Kelly Criterion
   E. O. Thorp

8. Optimal Investment and Consumption Strategies under Risk
   for a Class of Utility Functions
   N. H. Hakansson

9. On Optimal Myopic Portfolio Policies, with and without Serial Correlation of Yields
   N. H. Hakansson

10. Evidence on the “Growth-Optimum-Model”
    R. Roll

**Part II: Classic Papers and Theories**

11. Introduction to the Classic Papers and Theories
    143

12. Competitive Optimality of Logarithmic Investment
    R. M. Bell and T. M. Cover

13. A Bound on the Financial Value of Information
    A. R. Barron and T. M. Cover

P. H. Algoet and T. M. Cover

15. Universal Portfolios

T. M. Cover

16. The Cost of Achieving the Best Portfolio in Hindsight

E. Ordentlich and T. M. Cover

17. Optimal Strategies for Repeated Games

M. Finkelstein and R. Whitley

18. The Effect of Errors in Means, Variances and Co-Variances on Optimal Portfolio Choice

V. K. Chopra and W. T. Ziemba

19. Time to Wealth Goals in Capital Accumulation

L. C. MacLean, W. T. Ziemba, and Y. Li

20. Survival and evolutionary Stability of Rule the Kelly

21. Application of the Kelly Criterion to Ornstein-Uhlenbeck Processes

Y. Lv and B. K. Meister
*Lecture Notes of the Institute for Computer Sciences, 4, 1051–1062 (2009)*

**Part III: The Relationship of Kelly Optimization to Asset Allocation**

22. Introduction to the Relationship of Kelly Optimization to Asset Allocation

23. Survival and Growth with a Liability: Optimal Portfolio Strategies in Continuous Time

S. Browne

24. Growth versus Security in Dynamic Investment Analysis

L. C. MacLean, W. T. Ziemba, and G. Blazenko
*Management Science, 38(11), 1562–1585 (1992)*

25. Capital Growth with Security

L. C. MacLean, R. Sanegre, Y. Zhao, and W. T. Ziemba
*Journal of Economic Dynamics and Control, 28(4), 937–954 (2004)*

26. Risk-Constrained Dynamic Active Portfolio Management

S. Browne
*Management Science, 46(9), 1188–1199 (2000)*

27. Fractional Kelly Strategies for Benchmark Asset Management

M. Davis and S. Lleo (2010)

28. A Benchmark Approach to Investing and Pricing

E. Platen (2010)
29. Growing Wealth with Fixed-Mix Strategies
   M. A. H. Dempster, I. V. Evstigneev, and

Part IV: Critics and Assessing the Good and Bad
Properties of Kelly

30. Introduction to the Good and Bad Properties of Kelly

31. Lifetime Portfolio Selection by Dynamic Stochastic
    Programming
   P. A. Samuelson

32. Models of Optimal Capital Accumulation and Portfolio
    Selection and the Capital Growth Criterion

33. The “Fallacy” of Maximizing the Geometric Mean in Long
    Sequences of Investing or Gambling
   P. A. Samuelson
   Proceedings National Academy of Science, 68(10),
   2493–2496 (1971)

34. Why We Should Not Make Mean Log of Wealth Big Though
    Years to Act Are Long
   P. A. Samuelson

35. Investment for the Long Run: New Evidence for an Old Rule
   H. M. Markowitz

36. Understanding the Kelly Criterion
   E. O. Thorp
   Wilmott, May and September (2008)
37. Concave Utilities Are Distinguished by Their Optimal Strategies
E. O. Thorp and R. Whitley
*Colloquia Mathematica Societatis Janos Bolyai,* 813–830 (1972)

38. Medium Term Simulations of the Full Kelly and Fractional Kelly Strategies Investment
L. C. MacLean, E. O. Thorp, Y. Zhao, and W. T. Ziemba (2010)

39. Good and Bad Kelly Properties of the Kelly Criterion

Part V: Utility Foundations

40. Introduction to the Utility Foundations of Kelly

41. Capital Growth Theory

N. H. Hakansson and W. T. Ziemba

42. A Preference Foundation for Log Mean-Variance Criteria in Portfolio Choice Problems
D. G. Luenberger
*Journal of Economic Dynamics and Control,* 17, 88–906 (1993)

43. Portfolio Choice with Endogenous Utility: A Large Deviations Approach
M. Stutzer
44. On Growth-Optimality vs. Security against Underperformance 641

M. Stutzer (2010)

Part VI: Evidence of the Use of Kelly Type Strategies by the Great Investors and Others

45. Introduction to the Evidence of the Use of Kelly Type Strategies by the Great Investors and Others 657

46. Efficiency of the Market for Racetrack Betting 663

D. B. Hausch, W. T. Ziemba, and M. E. Rubinstein

47. Transactions Costs, Extent of Inefficiencies, Entries and Multiple Wagers in a Racetrack Betting Model 681

D. B. Hausch and W. T. Ziemba

48. The Dr. Z Betting System in England 695

W. T. Ziemba and D. B. Hausch

49. A Half Century of Returns on Levered and Unlevered Portfolios of Stocks, Bonds and Bills, with and without Small Stocks 703

R. R. Grauer and N. H. Hakansson

50. A Dynamic Portfolio of Investment Strategies: Applying Capital Growth with Drawdown Penalties 735

51. Intertemporal Surplus Management

M. Rudolf and W. T. Ziemba

52. The Symmetric Downside-Risk Sharpe Ratio and the Evaluation of Great Investors and Speculators

W. T. Ziemba

53. Postscript: The Renaissance Medallion Fund

R. E. S. Ziemba and W. T. Ziemba

54. The Kelly Criterion in Blackjack Sports Betting and the Stock Market

E. O. Thorp
