Chapter One Introduction 1
1.1 Objective of Study 1
1.2 Literature Review 3
  1.2.1 Literature Review on Economic History of Singapore prior to Independence 3
  1.2.2 Literature Review on the Construction of Historical Statistics 9
  1.2.3 Literature Review on GDP Concepts and Approaches 15
1.3 Statistical Sources and Possible Approach for the Construction of GDP of Singapore 19
1.4 Layout of the Book 22
Chapter Two  The Construction of Historical Gross Domestic Product Estimates of Singapore, 1900–39 and 1950–60 at Current and Constant Prices

2.1 Introduction
   2.1.1 Overview on the Methodology Employed for Estimation of Each Component of GDP

2.2 Private Final Consumption Expenditure by Resident Households, 1900–39 and 1950–60
   2.2.1 Definition
   2.2.2 Sources and Methods of Estimation at Current Prices
      2.2.2.1 Direct Components
         2.2.2.1.1 Opium Consumption
         2.2.2.1.2 Education and Medical Fees
         2.2.2.1.3 Utility (Gas, Water Supply and Electricity)
      2.2.2.2 Indirect Components
         2.2.2.2.1 Estimate of Population and Consumption Standards (STEP 1)
            (I) Estimation of Mid-year Population of Singapore for 1900–39 and 1947–60
            (II) Consumption Standards
         2.2.2.2.2 Per-Capita Consumption Expenditure by Standard for Base Year (STEP 2)
            (I) Pre–World War II Period
               (a) The European Standard (1930)
               (b) The Eurasian/Asiatic Clerical Standards (1930)
               (c) The Indian Labor Standard (1933)
Contents

2.2.2.2.3 Construction of Consumer Price Indices 1900–39 and 1950–60 (1914 = 100) (STEP 3)

2.2.2.2.4 Estimating the Per-Capita Final Consumption Expenditure of Major Objects of Consumption and Standards in 1914 Prices for Selected Years (STEP 4)

2.2.2.5 The Real Wage Indices (STEP 5)

2.2.2.6 Deriving Private Final Consumption Expenditure in Constant and Current Prices, 1900–39 and 1948–60 (STEPS 6–11)

2.2.3 Private Consumption Expenditure by Resident Households

2.3 Government Final Consumption Expenditure

2.3.1 Definition

2.3.2 Source Materials and Methodology for Estimates

2.3.2.1 Colony of Singapore, 1900–39 and 1950–60
### Contents

2.3.2.2 The Municipality of Singapore, 1900–39, and the City Council of Singapore, 1950–60 79

2.3.2.3 Rural Boards 80

2.3.2.4 Education Board 81

2.3.2.5 Hospital Board 83

2.3.2.6 Total Government Output of Producers’ of Government Services, 1900–39 and 1950–60 83

2.3.3 Government Final Consumption Expenditure in Current Prices 85

2.3.4 Government Final Consumption Expenditure in 1914 Prices 85

2.4 Gross Capital Formation 87

2.4.1 Definition 87

2.4.2 Investment in Construction 90

2.4.2.1 Definition 90

2.4.2.2 Investment in Construction in Current Prices 91

2.4.2.3 Investment in Construction in 1914 Prices 95

2.4.3 Investment in Transport, Machinery, and Equipment 95

2.4.3.1 Definition 95

2.4.3.2 Investment in M&E in Current Prices 98

2.4.3.3 Investment in M&E in 1914 Prices 104

2.4.4 Cultivated Assets 104

2.4.4.1 Definition 104

2.4.4.2 Investment in Cultivated Assets in Current Prices 104

2.4.4.3 Investment in Cultivated Assets in 1914 Prices 112
2.4.5 Change in Stock
  2.4.5.1 Definition 113
  2.4.5.2 Methodology for Estimates 116
  2.4.5.3 Change in Stocks in 1914 Prices 117

2.5 Net Exports of Goods and Services 118
  2.5.1 Definition 118
  2.5.2 Merchandize Trade in Current Prices 121
    2.5.2.1 1900–27 Series 121
    2.5.2.2 1928–39 and 1950–60 Series 121
  2.5.3 Merchandize Trade and Its Adjustment 122
  2.5.4 Services Trade, 1900–39 and 1950–60 123
    2.5.4.1 Observation of Post-1960’s Official Data 123
    2.5.4.2 Exports of Bunker Coal and Petroleum to Foreign Ships 125
    2.5.4.3 Sale of Water to Foreign Ships 126
    2.5.4.4 Revenue Collection Using on Services Provided by the Singapore Harbour Board 126
    2.5.4.5 Revenue Collected by the Colony of Singapore 126
    2.5.4.6 Private Final Consumption Expenditure by Nonresidents in the Domestic Market 126
  2.5.5 External Trade of Goods and Services in 1914 Prices 127
    2.5.5.1 Construction of Import and Export Unit Value Indices, 1900–39 and 1950–60 (1914 = 100) 127
      2.5.5.1.1 1900–27 Series 129
      2.5.5.1.2 1928–39 and 1950–60 Series 130
    2.5.5.2 Deflators for Port Services 137
Chapter Three  The Result of GDP Estimates in Singapore and Overall Patterns of Growth for the Twentieth Century

3.1 Introduction 139
3.2 Results of GDP Estimates 140
3.3 Assessment of GDP Estimates 145
  3.3.1 Consistency Check 146
    3.3.1.1 Unit Root Test 148
  3.3.2 Upturns and Downturns of Each Component of GDP, 1900–39 and 1950–60
    3.3.2.1 Private Final Consumption Expenditure in Current and 1914 Prices 155
    3.3.2.2 Government Final Consumption Expenditure in Current and 1914 Prices 157
    3.3.2.3 Gross Capital Formation in Current and 1914 Prices 158
    3.3.2.4 Net Exports of Goods and Services in Current and 1914 Prices
      3.3.2.4.1 Exports of Goods and Services 161
      3.3.2.4.2 Imports of Goods and Services 165
  3.3.3 International Comparison
    3.3.3.1 Growth Rate of GDP and Its Components 166
    3.3.3.2 Share of Each Component of GDP to GDP 174
  3.4 Overall Pattern of Singapore’s GDP during the Twentieth Century
    3.4.1 Transforming the Base Year from 1914 Prices to 1990 Prices for the Period 1900–39 and 1950–60 177
    3.4.2 Overall Patterns of Growth for the Twentieth Century 180
3.4.2.1 Growth Rate of GDP and Its Component in the Twentieth Century 182
3.4.2.2 Share of Each Component of GDP 184

Chapter Four Economic Instability and Economic Growth in Singapore in the Twentieth Century 191

4.1 Introduction 191
4.2 Literature Review 193
4.2.1 Declining Degree of Real GDP Volatility 193
4.2.2 The Source of Real GDP Volatilities 199
4.2.3 The Effect of Economic Instability to Economic Growth
   4.2.3.1 Export Instability 201
   4.2.3.2 Annual Growth Rate of Exports as a Proportion of GDP 203
   4.2.3.3 Terms-of-Trade Volatility 203
   4.2.3.4 Share of Investment to GDP 203
   4.2.3.5 Annual Growth Rate of Government Final Consumption Expenditure as a Proportion of GDP 204
   4.2.3.6 Population Growth 204
   4.2.3.7 Gross Domestic Product Per Capita with Time Lag 205
4.2.4 Studies on Singapore Relating to This Issue 205
4.3 The Extent of Economic Instability in Singapore 212
   4.3.1 Definition and Measurement of Output Volatilities 212
   4.3.2 Economic Instability of GDP and Its Components 213
4.4 Econometric Tests 223
   4.4.1 Explanation of Real GDP Volatilities 223
      4.4.1.1 Explanatory Variables 223
      4.4.1.2 Regression Results 225
4.4.2 The Effect of Economic Instability on Economic Growth
   4.4.2.1 Explanatory Variables  228
   4.4.2.2 Regression Results  229

4.5. International Comparison  233

4.6 Concluding Remarks  235

Chapter Five  Government Fiscal Behavior and Economic Growth in Singapore in the Twentieth Century  237

5.1 Introduction  237

5.2 Literature Review  239
   5.2.1 Features of Colonial Government's Finance Behavior
      5.2.1.1 Small Size of the Government  239
      5.2.1.2 Creation of Balanced Budget Structure  242
      5.2.1.3 Weakness of the Colonial Government Macroeconomic Management  248
      5.2.1.4 Summary  248
   5.2.2 Previous Econometric Test on Government Expenditure and Economic Growth  248

5.3 Historical Transitions of the Government's Finance Behavior of Singapore in the Twentieth Century  257

   5.3.1 Government Revenue  257
      5.3.1.1 Growth of Government Revenue  257
      5.3.1.2 Changes in Revenue Structure  259
      5.3.1.3 British Colonial Period (1900–39 and 1950–59)  260
      5.3.1.4 Self-Government Period (1959–2000)  263
   5.3.2 Government Expenditure  265
      5.3.2.1 Growth of Government Expenditure  265
      5.3.2.2 Changes in the Composition of Government Expenditure  267
5.3.3 Budget Surplus/Deficit and Financial Assets 271
5.3.4 Summary 274
5.4 Econometric Test 277
5.4.1 Testing Methodology 277
5.4.2 Data 283
5.5 Empirical Results 285
5.5.1 Unit Root Test 285
5.5.2 Cointegration Tests 286
5.5.3 Granger Causality Tests 288
5.6 Concluding Remarks 294

Chapter Six Conclusion 297

6.1 Significance of the Construction of Historical GDP Estimates of Singapore 297
6.2 Major Findings 299
6.2.1 Overall Patterns of Singapore's GDP for the Twentieth Century 299
6.2.2 Economic Instability and Economic Growth in Singapore in the Twentieth Century 300
6.2.3 Government Fiscal Behavior and Economic Growth in Singapore in the Twentieth Century 301
6.3 Limitations of this Study and Future Research Area 303

Appendices 307

Appendix 1 Singapore: Cost-of-Living Indices by Major Object of Consumption and Consumption Standard, 1899–1914 309
1 Food Price Indices 309
2 Tobacco/Tobacco and Beverages Price Indices 310
3 Clothing Price Indices 310
4 Rent Price Indices 311
5 Servant Price Indices 312
6 Club Price Indices 312
