Contents

Foreword ix
Preface xi

1 Information Systems: Introduction and Concepts 1
  1.1 Information Systems 2
  1.2 Types of Information Systems 5
  1.3 The Life Cycle of an Information System 13
  1.4 System Models 24
  1.5 Roles of Models 32
  1.6 Test Yourself 35
  1.7 Summary 39
  1.8 Further Reading 40

2 Business Processes and Information Systems 41
  2.1 The Relationships between Business Processes, Information Systems, and Models 41
  2.2 On the Process Awareness of Information Systems 45
  2.3 Tool Support for the Business Process Life Cycle 49
  2.4 How about Data? 56
  2.5 Test Yourself 60
  2.6 Summary 62
  2.7 Further Reading 62

3 Basic Concepts of Petri Nets 65
  3.1 An Introduction to Petri Nets 66
  3.2 The Structure of Petri Nets 71
  3.3 The Behavior of Petri Nets 73
  3.4 Representing Petri Nets as Transition Systems 78
  3.5 Examples of Petri Net Models 79
  3.6 Test Yourself 84
  3.7 Summary 89
  3.8 Further Reading 90
4 Application of Petri Nets  91
  4.1 Two Claims about Modeling  91
  4.2 Modeling with Petri Nets  96
  4.3 Typical Network Structures  102
  4.4 Additional Model Constructs  106
  4.5 Example: Language Institute  111
  4.6 Reachability Graphs  115
  4.7 Test Yourself  119
  4.8 Summary  127

5 Extending Petri Nets by Adding Color and Time  129
  5.1 Why Petri Nets Are Not Sufficient  129
  5.2 Extending Petri Nets by Adding Color  134
  5.3 Determining Place Types  147
  5.4 Extending Petri Nets by Adding Time  150
  5.5 Petri Nets with Color and Time  156
  5.6 Test Yourself  159
  5.7 Summary  166
  5.8 Further Reading  167

6 Colored Petri Nets: The Language  169
  6.1 Types and Values  170
  6.2 Defining Color Sets  171
  6.3 Defining Markings  174
  6.4 Arc Inscriptions and Guards  175
  6.5 Time  180
  6.6 More on Functions  181
  6.7 Examples of Colored Petri Net Models  192
  6.8 Test Yourself  195
  6.9 Summary  203
  6.10 Further Reading  204

7 Hierarchical Petri Nets  205
  7.1 Hierarchical Modeling: Top-Down versus Bottom-Up Modeling  205
  7.2 Informal Introduction to the Extension with Hierarchy  208
  7.3 Hierarchical Colored Petri Net Models  213
  7.4 Example: Production System  220
  7.5 Example: Logistic Networks  227
  7.6 Test Yourself  239
  7.7 Summary  245
  7.8 Further Reading  246

8 Analyzing Petri Net Models  249
  8.1 What Do We Want to Analyze?  250
  8.2 Reachability Analysis  254
8.3 Structural Analysis 268
8.4 Simulation-Based Analysis 281
8.5 Process Mining 296
8.6 Tool Support 307
8.7 Test Yourself 310
8.8 Summary 319
8.9 Further Reading 320

9 Concluding Remarks 323
  9.1 Lessons Learned 323
  9.2 Summary 324
  9.3 Discussion 325

Appendix A: Solutions 329
  A.1 Solutions to Chapter 1 329
  A.2 Solutions to Chapter 2 334
  A.3 Solutions to Chapter 3 335
  A.4 Solutions to Chapter 4 339
  A.5 Solutions to Chapter 5 347
  A.6 Solutions to Chapter 6 351
  A.7 Solutions to Chapter 7 359
  A.8 Solutions to Chapter 8 365

Bibliography 371
Index 379
