Acknowledgments x
About the Editors xi
Notes on Contributors xii
Chapter Abstracts xvi

Part I Markov Switching Models

1 Valuing Equity when Discounted Cash Flows are Markov 3
Jeremy Berkowitz

2 Markov Switching Mean-Variance Frontier Dynamics:
Theory and International Evidence 21
Massimo Guidolin and Federica Ria

3 A Markov Regime-Switching Model of Stock Return
Volatility: Evidence from Chinese Markets 49
Thomas C. Chiang, Zhuo Qiao and Wing-Keung Wong

Part II Persistence and Nonlinear Cointegration

4 Nonlinear Persistence and Copersistence 77
Christian Gourieroux and Joann Jasiak

5 Fractionally Integrated Models for Volatility: A Review 104
Dean Fantazzini

6 An Explanation for Persistence in Share Prices and their
Associated Returns 124
Derek Bond and Kenneth A. Dyson
7  Nonlinear Shift Contagion Modeling: Further Evidence from High Frequency Stock Data 143
Mohamed El Hedi Arouri, Fredj Jawadi, Wael Louhichi and Duc Khuong Nguyen

8  Sparse-Patterned Wavelet Neural Networks and Their Applications to Stock Market Forecasting 161
Jack Penm and R.D. Terrell

9  Nonlinear Cointegration and Nonlinear Error-Correction Models: Theory and Empirical Applications for Oil and Stock Markets 171
Mohamed El Hedi Arouri, Fredj Jawadi and Duc Khuong Nguyen
