IMPLEMENTING CONGESTION CHARGES

ROUND TABLE

147

TABLE OF CONTENTS

SUMMARY OF DISCUSSIONS	7
Critical Success Factors for Implementing Road Charging Systems, by Bernhard OEHRYS (Switzerland)	27
1. From road-user charging to congestion charging.....	31
2. An indispensable congestion management tool	32
3. What makes a charging measure a success?	33
4. Technical design issues	34
5. Scheme layout issues.....	41
6. Acceptance issues.....	46
7. Conclusions	51
The Singapore Experience: The evolution of technologies, costs and benefits, and lessons learnt, by Kian-Keong CHIN (Singapore)	53
1. Introduction	57
2. Manual road-pricing scheme	57
3. Electronic road pricing (ERP).....	59
4. Lessons learnt.....	64
5. Conclusion	65
So you're considering introducing congestion charging? Here's what you need to know, by Jonas ELIASSON (Sweden)	69
1. Introduction	73
2. Basic facts: Why and how it works	74
3. Getting large benefits: Efficient charge design	76
4. Getting low costs: Efficient procurement and technology.....	78
5. Getting public acceptance.....	80

Revisiting the Cost of the Stockholm Congestion Charging System, by Carl HAMILTON (Sweden)	87
1. Introduction	91
2. Background	93
3. Cost items.....	98
4. Conclusions	107
Road Pricing with Complications, by Mogens FOSGERAU (Denmark/Sweden) and Kurt VAN DENDER (OECD/ITF – France)	113
1. Introduction	117
2. The standard textbook analysis	119
3. Heterogeneous travellers	122
4. Travel time risk	125
5. Measuring and modelling supply	129
6. Second-best issues	131
7. Conclusion.....	135
LIST OF PARTICIPANTS	141

SUMMARY CONTENTS

1. INTRODUCTION	11
2. LESSONS FROM PRACTICE	12
2.1. Some general principles	12
2.2. Insights from Singapore and Stockholm	17
3. NEW INSIGHTS FROM TRANSPORT ECONOMICS?	20
3.1. Refining the basic argument for charges	20
3.2. Congestion charges in a broader economic context	21
4. CONCLUDING REMARKS	22
NOTES	23
