### 1 Introduction to social research design – or what are you talking about?

- Introduction 1
- Defining terms 1
- Some general points about research questions 7
- Some other general guidelines 10
- Some practical examples of how questions, methods and philosophy combine 11
- What's the problem, and how are you going to research it? A logic of appropriateness 18
- Conclusion 20
- Five things to remember about this chapter 20

### 2 Reviewing what other people have said – or how can I tell if others’ research is any good?

- Introduction 22
- Nuts and bolts 23
- The hierarchy of evidence 24
- Reading efficiently and critically, and taking notes 26
- So is the study any good? 27
- Writing a review 29
- Conclusion 34
- Five things to remember about this chapter 35
- Example – ‘Qualitative research and the evidence base of policy’ 35

### 3 Surveys and questionnaires – or how can I conduct research with people at a distance?

- Introduction 38
- The use of questionnaires – the best (and worst) of quantitative (and qualitative) social research 38
- Surveys and questionnaires 38
- Perspectives on questionnaires 39
