Christoph Wollersheim

On the Provision of Airport Infrastructure in Germany

B 374293

Nomos
# Table of Contents

**List of Figures**  
11

**List of Tables**  
13

**List of Abbreviations**  
15

I. Introduction  
19  
A. Starting Point  
19  
B. Objectives and Structure of the Thesis  
25  
C. Delimitation  
26

II. Profitability of Airports  
30  
A. Cost Structures of Airports  
30  
B. Revenue Structures of Airports  
38  
C. Profitability of Airports  
45  
1. Theory  
45  
2. Empirical Results  
49

III. The Current State of Airport Policy  
54  
A. Fields of Airport Policy  
54  
1. Airport Ownership  
54  
1.1 Privatisations and Public Private Partnerships  
55  
1.1.1 Share Floatation  
56  
1.1.2 Trade Sale  
57  
1.1.3 Concessions with Major Capital Expenditure  
57  
1.1.4 Project Finance Privatisation  
59  
1.1.5 Management Contract  
59  
1.2 The Future Role of the State  
60  
2. Airport Planning and Approval  
62
3. Public Airport Financing
   3.1 Definition of Subsidies
   3.2 Definition of State Aid

B. German Airport Policy

C. Airport Policies in Other Countries
   1. Great Britain
   2. France
   3. Discussion of the Different Airport Policies

IV. On the Justification of Subsidies and State Aid
   A. Generally Provided Justifications for State Aid
   B. Airports as Goods of General Interest
      1. Conformity of Goods of General Interest with Market Economical Principals
      2. Rawls' Veil of Ignorance
      3. Examination of Airports as Goods of General Interest
   C. External Effects
      1. External Costs
      2. External Benefits
         2.1 Option Value
         2.2 Positive Network Externalities
         2.3 External Impulses for the Regional Economy
            2.3.1 Methodologies for Estimating Airport Related Benefits
               2.3.1.1 Input-Output Analysis
               2.3.1.2 Econometric Analysis
               2.3.1.3 Cost-Benefit Analysis
               2.3.2 Econometric Estimation for German Airports
                  2.3.2.1 Determination of Variables
                  2.3.2.2 Panel Data Analysis
                  2.3.2.3 Empirical Findings and Tests
                  2.3.2.4 Examination of Smaller Airports
                  2.3.2.5 Discussion of the Empirical Results
                  2.3.3 The Contingent Valuation (CV) Method
                     2.3.3.1 Overview on the Methodology
                     2.3.3.2 Application of the CV-Methodology for a Secondary Airport
                     2.3.3.3 Results of the CV Approach
      2.4 Conclusions Regarding External Benefits from Airports
D. Recapitulative Appraisal of Subsidies and State Aid

V. The Provision of Airport-Related External Benefits

A. The Question of How to Deal With Positive External Effects
1. The State’s Make or Buy Decision
   1.1 Transaction Costs
   1.2 Transformation Costs
   1.3 Procedure Preference Costs
   1.4 Transaction Specificities
2. Conclusions Regarding the Public Production of Airport Services
3. Alternative Ways to Gain Regional External Benefits
   3.1. Public Private Partnerships
   3.2 Subsidisation of Air Traffic
   3.3. Participation from Interregional Spillover Effects
4. Conclusions Regarding the Production of External Benefits

B. Identification of the Optimal Provision Unit
1. Advantages of Centralisation
2. Advantages of Decentralisation
   2.1 Static Advantages
   2.2 Dynamic Advantages
   2.3 Political Economic Advantages
3. On the Choice of the Optimal Level of Centralisation
   3.1.1 Distribution of External Costs
   3.1.2 Distribution of External Benefits
      3.1.2.1 Regional Dispersion of Option Value
      3.1.2.2 Network Externalities
      3.1.2.3 Positive Effects for the Regional Economy
   3.2 Organisational Costs
      3.2.1 Administration Cost
      3.2.2 Coordination Costs
      3.2.3 Signalling Costs
      3.2.4 Mobility Costs
4. Selection of the Provision Unit for Airport-Related External Benefits
   4.1 Implications from the Principle of Fiscal Equivalency
   4.2 Implications Derived from the Discussion of Organisational Costs
   4.3 Optimal Allocation of Responsibilities
VI. Conclusions 232
Bibliography 237

Appendix 1: Categorisations of Airports 263

Appendix 2: Financial Support to German Airports 265

Appendix 3: Planning and Approval Process of "Startbahn West" at Frankfurt Airport 272

Appendix 4: Ownership Structure of German Airports 275

Appendix 5: Ownership Structure of British Airports 277

Appendix 6: Ownership Structure of French Airports 279
