Table of contents

Acronyms .......................................................... 15

Executive summary .................................................. 21

Chapter 1. Introduction .............................................. 27
  Kyrgyz Republic: the general context .......................... 28
  A historical note .................................................. 28
  The political framework ......................................... 29
  Landscape and demography ...................................... 30
  Economic features ............................................... 31
  Kyrgyzstan: the educational context ........................... 32
  Scope and structure of the review .............................. 38
  Process of the review ........................................... 42
  Notes ........................................................................ 44
  References ............................................................ 45

Chapter 2. Patterns of educational expenditure with comparative perspectives ............................................. 47
  Total educational expenditure .................................... 48
  Expenditure by educational level ................................ 53
  Aggregate indicators explaining overall expenditure pressure ......................................................... 58
  Expenditure by region .............................................. 61
  Education and resources by income quintile ................. 65
  Conclusions ......................................................... 68
  Notes ........................................................................ 70
  References ............................................................ 71
**Chapter 3. Governance and management of the system** ........................................... 73

- The education system ................................................................. 74
- Strategic planning and capacity for reform .................................. 78
- Budget and governance – present weaknesses and strengths .......... 87
- School and pre-school system governance and financing ................. 95
- Recommendations ........................................................................ 104
- Monitoring and evaluation ......................................................... 107
- Notes ......................................................................................... 108
- References ................................................................................. 109

**Chapter 4. Early childhood care and pre-school education** ........................................ 111

- Terminology ................................................................................ 112
- An international overview ........................................................... 112
- Education for All and the Millennium Development Goals: early childhood .................................................. 113
- Early childhood education and care in Kyrgyzstan ......................... 113
- Pre-school provision: an international comparison ......................... 117
- Pre-school provision and enrolment in the Kyrgyz Republic ........... 120
- Teachers and professional staff in pre-school institutions ............... 123
- Pre-service (initial) training of pre-school teachers ......................... 124
- In-service professional development of pre-school teachers ............ 124
- Curriculum for pre-schools .......................................................... 125
- UNICEF, Aga Khan, Asian Development Bank and Save the Children .......................................................... 128
- Issues in early childhood education and care in Kyrgyzstan ............ 129
- Key recommendations for ECEC .................................................... 132
- Notes ......................................................................................... 133
- References ................................................................................. 135

**Chapter 5. Curriculum, textbooks and learning materials** ....................................... 139

- The curriculum ........................................................................... 140
- The curriculum process ............................................................... 141
- Strategic changes in relation to State Educational Standards (SES) .. 144
- No horizontal co-ordination among subjects ................................ 150
- Recommendations related to curriculum ...................................... 153
- Textbooks and learning materials ................................................ 154
- Learning materials development, publishing and distribution ......... 159
- Textbook development and approval procedures ......................... 160
- Textbook ordering and distribution .............................................. 161
- Issues in textbooks and materials ............................................... 161
- Recommendations related to textbooks and learning materials ....... 163
- Notes ......................................................................................... 165
- References ................................................................................. 166
**Chapter 6. Assessment and examinations** .............................................. 169

Current status ................................................................. 170
Continuous assessment ...................................................... 170
National end-of-cycle examinations ....................................... 171
Promotion exams ......................................................... 171
Assessment for school leaving certificates ("Attestation") at end of grades 9 and 11 ................................................................. 172
Alternative National Testing Centre tests ................................ 173
National sample-based assessments ....................................... 174
University entrance ....................................................... 175
Olympiads ........................................................................ 176
International comparative sample-based surveys ....................... 176
Issues in learning and assessment of student achievement ............ 185
Students’ attitude to learning .............................................. 186
Examination practices ....................................................... 187
International and European indicators and benchmarks .......... 188
Recommendations related to assessment and examinations ........... 191
Implementation level ....................................................... 192
Notes .............................................................................. 193
References ....................................................................... 194

**Chapter 7. Access and equity, including provision for children with special education needs** ......................................................... 197

Access and equity in primary and secondary education ............... 198
The urban/rural divide ...................................................... 199
The language issue .......................................................... 200
Books and materials ........................................................ 200
Learner achievement ........................................................ 201
Transition rates and "survival" in education ................................. 203
Non-attendance and drop-out ............................................. 204
Access to the labour market and VET ..................................... 205
Children at risk and those with special educational needs or disabilities ......................................................... 207
Diagnosis and placement of SEN/CWD students ....................... 218
Recommendations ........................................................... 228
Notes .............................................................................. 230
References ....................................................................... 232

**Chapter 8. Vocational education and training and adult education** ......................................................... 235

Overview ........................................................................... 236
Vocational education and training within the framework of the education system ......................................................... 236
Secondary Vocational Education and Training (VET II) ............... 252
Chapter 9. The teaching career and teacher education 291

Introduction 292
Teacher status and remuneration 293
Legal framework 294
Role of the teachers’ union 295
Donor involvement and pilot projects 295
Pupil:Teacher Ratio (P:TR) 297
Teacher recruitment 297
Teacher retention 298
The teaching force: current status 299
Teacher education: pre-service (initial) teacher education (training pedagogical cadres with higher and secondary professional education) 300
Curriculum 301
Attestation 302
Teaching practice 304
Teacher education: In-service teacher education (continuing professional development) 304
In-service provision and participation 305
Recommendations 307
References 310

Chapter 10. Higher education and research 311

The higher education system 312
Graduation rates 317
Staff in HEIs 318
Governance 319
Issues 321
Recommendations 321
Financing 322
Resource allocation 323
Scholarship allocation mechanism 325
Issues 326
Recommendations 327
Access and equity 327
The current admission system 329
Issues 330
# TABLE OF CONTENTS

- Recommendations .................................................. 332
- Quality of teaching and learning .............................. 332
- Quality assurance .................................................. 334
- Issues ............................................................... 335
- Recommendations .................................................. 336
- Relevance ........................................................... 336
- Recommendations .................................................. 338
- Internationalisation ............................................... 339
