## CONTENTS

Preface ix

1 Introduction to Materials Management 1

2 Production Planning System 16

Introduction 16 / Manufacturing Planning and Control System 17 / Sales and Operations Planning 20 / Manufacturing Resource Planning 22 / Enterprise Resource Planning 23 / Making the Production Plan 24 / Summary 33 / Key Terms 33 / Questions 33 / Problems 34 / Case Study: Meridian Water Pumps 39

3 Master Scheduling 41

Introduction 41 / Relationship to Production Plan 42 / Developing a Master Production Schedule 44 / Production Planning, Master Scheduling, and Sales 49 / Summary 54 / Key Terms 55 / Questions 55 / Problems 56 / Case Study: Acme Water Pumps 61

4 Material Requirements Planning 62

Introduction 62 / Bills of Material 64 / Material Requirements Planning Process 70 / Using the Material Requirements Plan 81 / Summary 84 / Key Terms 84 / Questions 84 / Problems 85 / Case Study: Apix Polybob Company 95

5 Capacity Management 98

Introduction 98 / Definition of Capacity 98 / Capacity Planning 99 / Capacity Requirements Planning 100 / Capacity Available 102 / Capacity Required (Load) 105 / Scheduling Orders 107 / Making the Plan 109 / Summary 109 / Key Terms 110 / Questions 111 / Problems 111 / Case Study: Wescott Products 114

6 Production Activity Control 117

Introduction 117 / Data Requirements 120 / Order Preparation 121 / Scheduling 122 / Load Leveling 127 / Scheduling Bottlenecks 128 / Theory of Constraints and Drum-Buffer-Rope 130 / Implementation 132 / Control 133 / Production Reporting 138 / Product Tracking 139 / Summary 139 / Key Terms 139 / Questions 140 / Problems 141 / Case Study: Johnston Products 145

7 Purchasing 147

### 8 Forecasting 167

- **Introduction** 167
- Demand Management 167
- Demand Forecasting 168
- Characteristics of Demand 168
- Principles of Forecasting 170
- Collection and Preparation of Data 171
- Forecasting Techniques 172
- Some Important Intrinsic Techniques 173
- Seasonality 176
- Tracking the Forecast 179
- Summary 185
- Key Terms 186
- Questions 186
- Problems 186
- Case Study: Northcutt Bikes: the Forecasting Problem 193

### 9 Inventory Fundamentals 196

- **Introduction** 196
- Aggregate Inventory Management 196
- Item Inventory Management 196
- Inventory and the Flow of Material 197
- Supply and Demand Patterns 198
- Functions of Inventories 198
- Objectives of Inventory Management 199
- Inventory Costs 201
- Financial Statements and Inventory 203
- ABC Inventory Control 207
- Summary 210
- Key Terms 211
- Questions 211
- Problems 212
- Case Study: Randy Smith, Inventory Control Manager 216

### 10 Order Quantities 218

- **Introduction** 218
- Economic-Order Quantity (EOQ) 219
- Variations of the EOQ Model 223
- Quantity Discounts 224
- Order Quantities for Families of Product When Costs are Not Known 225
- Period-Order Quantity (POQ) 226
- Summary 229
- Key Terms 229
- Questions 229
- Problems 230
- Case Study: Carl's Computers 234

### 11 Independent Demand Ordering Systems 237

- **Introduction** 237
- Order Point System 237
- Determining Safety Stock 239
- Determining Service Levels 245
- Different Forecast and Lead-Time Intervals 247
- Determining When the Order Point Is Reached 247
- Periodic Review System 249
- Distribution Inventory 251
- Summary 254
- Key Terms 254
- Questions 255
- Problems 255

### 12 Physical Inventory and Warehouse Management 262

- **Introduction** 262
- Warehousing Management 262
- Physical Control and Security 267
- Inventory Record Accuracy 268
- Technology Applications 273
- Summary 274
- Key Terms 274
- Questions 275
- Problems 275
- Case Study: CostMart Warehouse 278

### 13 Physical Distribution 282

- **Introduction** 282
- Physical Distribution System 285
- Interfaces 287
- Transportation 288
- Legal Types of Carriage 290
- Transportation Cost Elements 291
- Warehousing 296
- Packaging 301
- Materials Handling 302
- Multi-Warehouse Systems 303
- Summary 305
- Key Terms 306
- Questions 306
- Problems 308
- Case Study: Metal Specialties, Inc. 309

### 14 Products and Processes 310

- **Introduction** 310
- Need for New Products 310
- Product Development Principles 311
- Product Specification and Design 313
- Process Design 315
- Factors Influencing Process Design 316
- Processing Equipment 317
- Process Systems 318
- Selecting the Process 320
- Continuous Process Improvement (CPI) 322
- Key Terms 332
- Questions 333
- Problems 334
- Case Study: Cheryl Franklin, Production Manager 337

### 15 Lean Production 339

- **Introduction** 339
- Lean Production 339
- Waste 341
- The Lean Production Environment 343
- Manufacturing Planning and Control in a Lean Production Environment: JIT Production 350
- Which to Choose: MRP (ERP), Kanban, or Theory of Constraints? 359
- Summary 361
- Key Terms 361
- Questions 362
- Problems 363
- Case Study: Murphy Manufacturing 364
16 Total Quality Management  367

Readings  397

Index  401
