Contents

List of contributors vii
Preface x

1 Governance for sustainable development, evaluation and learning: an introduction
   Michal Sedlacko and André Martinuzzi 1

PART I LEARNING THROUGH EVALUATION

2 The politics of sustainability evaluation: analysis of three Austrian strategies for sustainable development
   Michael Pregernig, Karl Hogl and Ralf Nordbeck 21

3 Tools for learning-oriented environmental appraisal
   Måns Nilsson 45

PART II INSTITUTIONALISING SD CONCERNS IN EUROPEAN POLICY MAKING

4 Integrating sustainable development into impact assessment: how effective is the European Commission?
   Jennifer Franz and Colin Kirkpatrick 63

5 Monitoring the expected impacts of the 7th EU Framework Programme on sustainable development – a case study on governance by evaluation
   André Martinuzzi 87

6 From a European Court of Auditors’ Report to a learning process? The challenge to integrate the environment into the European Community’s development assistance
   Axel Johannes Olearius, Iola Leal Riesco and Sally Nicholson 109

PART III DEALING WITH MULTI-STAKEHOLDER CONTEXTS

7 Evaluation of public participation towards sustainable water management: an institutional perspective
   Gül Özerol 133
8 Dynamic decision analysis for monitoring and facilitating the Dutch Costa Due stakeholder dialogue on sustainable energy

Kirsten Hollaender and Frans Stokman

9 Participatory livelihoods system appraisal: a learning-oriented methodology for impact assessment

Martin Strele

10 Towards a process for eliciting criteria weights and enhancing capacity of stakeholders in ex ante evaluation of climate policies

Stelios Grafakos, Dimitrios Zevgolis and Vlasis Oikonomou

PART IV DEVELOPING LEARNING CAPACITY IN ORGANISATIONS

11 Assessment of outcome mapping as a tool for evaluating and monitoring support to civil society organisations

Steve Powell, Joakim Molander and Ivona Ćelebić

12 Development of a learning-oriented monitoring system for sustainable agriculture chain development in Eastern Indonesia

Steff Deprez

13 Process monitoring of impacts and its application in Structural Fund programmes

Richard Hummelbrunner

14 Participatory ex ante evaluation of long-term infrastructure plans as a policy-learning process

Eckhard Störmer and Bernhard Truffer

PART V REFLECTING EVALUATION TOOLS: PERSPECTIVES AND PITFALLS

15 The role of visualisation within sustainability evaluation processes

Harald Wilfing and Ulrike Bechtold
