CONTENTS

Preface ix
1. Measuring Innovation Activities and Technical Change 1
  1.1. Introduction 1
  1.2. Defining Technical Change and the Innovation Activities 2
  1.3. Measurement and Leading Indicators of Innovation Activities 18
  1.4. Summary Conclusions 41
2. Modeling Innovation Activities 45
  2.1. Introduction 45
  2.2. Economic Theory and Technical Change 46
  2.3. The Growth-Accounting 52
  2.4. New Growth Debate 54
  2.5. A Theoretical Approach to Endogenous Theory 55
    2.5.1. New Technologies and Product Innovations 56
    2.5.2. Existing Technologies and Process Innovations 57
    2.5.3. Human Capital 58
    2.5.4. Productivity, R and D and Environment 60
    2.5.5. Education and Growth 61
  2.6. Modeling Innovation Activities and Technical Change 62
    2.6.1 Input-Output Analysis and Technological Change 63
    2.6.2. Catching up Models 65
    2.6.3 An Historical Overview of Functional Forms 68
    2.6.4. The Generalised Leontief Function 71
  2.7. Modelling Technological Progress in a Production Function 75
    2.7.1. The Meta-Production Function 82
    2.7.2. The Translog Production Function 84
  2.8. Summary Conclusions 91
3. Innovation Activities and the Productivity Puzzle 95
  3.1. Introduction 95
  3.2. Innovation Activities and the Productivity Growth 96
  3.3. Theory and Measurement of Productivity Growth 99
  3.4. Measuring the Productivity Growth 101
    3.4.1. The Index Number Approach 101
    3.4.2. The Parametric Approach 104
  3.5. Productivity and Efficiency 106
  3.6. Summary Conclusions 109
# Contents

4. Technical Change and the Diffusion Models 111
   4.1. Introduction 111
   4.2. Innovation Activities and the Diffusion Process 112
   4.3. Diffusion Models and the New Growth Theory 117
   4.4. Inter-Country and International Diffusion Models 125
      4.4.1. The International Diffusion Approach 126
      4.4.2. Epidemic Model and the Logistic Curve 130
      4.4.3. The Probit Models 132
      4.4.4. Technological Substitution Models 135
   4.5. Summary Conclusions 138

5. National and Regional Systems of Innovation 139
   5.1. Introduction 139
   5.2. Entrepreneurship, Foreign Direct Investments (FDIs) and Innovation Activities 140
   5.3. National and Regional Systems of Innovation 149
   5.4. Summary Conclusions 163

6. European Innovation Policy and Regional Convergence 169
   6.1. Introduction 169
   6.2. Innovation Policy and the Knowledge Based Economy 171
   6.3. The European Institutional Framework and the Innovation Activities
      6.3.1. Human Resources, Education and Training 175
      6.3.2. Entrepreneurship and Innovation Activities 175
      6.3.3. Innovation, Growth and Employment 176
      6.3.4. Innovation and the Convergence Process 177
      6.3.5. Innovation and the Public Action 179
   6.4. The European Technological Policy 180
   6.5. European Innovation Policy and Regional Cohesion in Europe 191
   6.6. The European Regional Systems of Innovation 198
   6.7. Summary Conclusions 217

7. Policy Perspectives 223

8. Bibliography 229

Index 297
