PART 1: BASIC CONCEPTS AND THEORY

Chapter 1 The nature and scope of monetary economics 3

1.1	Introduction	3
1.2	What is monetary economics?	3
1.3	Why is it important to study monetary economics?	5
1.4	The meaning of money	6
1.4.1	Money as a medium of exchange	6
1.4.2	Money as a store of value	8
1.4.3	Money as a unit of account	9
1.4.4	An empirical definition of money	10
1.4.5	Divisia monetary aggregates	11
1.4.6	Definitions of money in practice	11
1.5	The financial system	12
1.5.1	Financial instruments	12
1.5.2	Financial markets	14
1.5.3	Financial intermediaries	15
1.6	Monetary policy	17
1.7	Inflation	18
	Summary	24
	Questions	25
	References	25

Chapter 2 The evolution of money 27

2.1	Introduction	27
2.2	Commodity money	28
2.3	The development of coins	31
2.4	The issuing of banknotes and fractional-reserve banking	33
2.5	The issuing of banknotes by central banks	35
2.6	Fiat money	36
2.7	E-money	37
2.8	Money in South Africa	38
2.8.1	The Cape Colony	39
2.8.2	Natal	40
2.8.3	The Orange Free State	42
2.8.4	The Zuid-Afrikaansche Republiek	42
2.8.5	The Union of South Africa	43
2.8.6	Decimalisation and the Republic of South Africa	44
2.9	E-money in South Africa	44
	Summary	45

Questions	46
References	46

Chapter 3 The money-supply process 48

3.1	Introduction	48
3.2	The definition of money in South Africa	49
3.3	The money-supply-multiplier approach	51
3.3.1	The deposit multiplier	51
3.3.2	The monetary-base model	52
3.3.3	Factors affecting the monetary base	54
3.3.4	Factors affecting the public's cash ratio	55
3.3.5	Factors affecting the reserve ratio	56
3.3.6	The disadvantages of the money-supply-multiplier approach	59
3.4	The flow-of-funds approach	60
3.5	The monetary analysis of the South African Reserve Bank	61
3.6	Endogenous or exogenous money supply	64
	Summary	66
	Questions	67
	References	68

Chapter 4 The demand for money 69

4.1	Introduction	69
4.2	The classical theory of the demand for money	69
4.3	The Cambridge cash-balance approach	71
4.4	The liquidity-preference theory of Keynes	72
4.5	The inventory-theoretic approach	76
4.6	The portfolio model of the demand for money	77
4.7	Monetarism and the demand for money	80
4.8	McCallum's microeconomic transactions model	83
4.9	Buffer-stock models	84
4.10	Empirical research on the demand for money in foreign countries	85

4.11 Empirical research on the demand for money in South Africa 87

Summary 90

Questions 91

References 91

Chapter 5 Interest rates in the economy ... 93

5.1 Introduction 93

5.2 The definition of the term ‘interest rate’ 93

5.3 Measuring interest rates 94

5.3.1 Simple and compound interest 94

5.3.2 The current yield and the yield to maturity 95

5.3.3 The discount rate 96

5.4 Inflation and interest rates 96

5.4.1 The Fischer effect and real interest rates 96

5.4.2 The natural rate of interest 97

5.5 The determination of interest rates 98

5.5.1 Monetary policy 98

5.5.2 A summary of interest-rate theory 99

5.5.3 The supply of loanable funds 100

5.5.4 The demand for loanable funds 101

5.5.5 Market equilibrium 102

5.6 The risk and term structure of interest rates 103

5.6.1 The risk structure of interest rates 103

5.6.2 The term structure of interest rates 104

5.7 Characteristics of interest rates in South Africa 109

5.7.1 The link between the repo rate and other interest rates 109

5.7.2 Some important interest rates in South Africa 110

5.7.3 Real interest rates in South Africa 111

5.7.4 Term spread in South Africa 112

Summary 113

Questions 114

References 115

Chapter 6 Exchange rates in the economy. 116

6.1 Introduction 116

6.2 Foreign-exchange concepts 116

6.2.1 The foreign-exchange market ... 117

6.2.2 The exchange rate 117

6.2.3 Nominal versus real exchange rates 118

6.2.4 Effective exchange rates 119

6.3 Functions of the foreign-exchange market 121

6.3.1 International clearing 121

6.3.2 Provision of credit 122

6.3.3 Hedging, arbitrage and speculation 122

6.4 The demand for and supply of foreign exchange 123

6.5 Theories on the determination of the exchange rate 124

6.5.1 Purchasing-power-parity theories 125

6.5.2 The elasticity approach 127

6.5.3 The absorption approach 129

6.5.4 The monetary approach 131

6.5.5 The portfolio approach 133

6.6 The management of the foreign-exchange market 134

6.7 The South African foreign-exchange market 138

6.7.1 Intervention in the South African foreign-exchange market 140

6.7.2 Exchange controls in South Africa 142

Summary 144

Questions 145

References 145

Chapter 7 Traditional monetary theories... 147

7.1 Introduction 147

7.2 The classical economists 148

7.3 Keynesian theory 153

7.4 The neo-classical synthesis 158

7.5 Monetarism 162

Summary 167

Questions 169

References 169

Appendix to Chapter 7 171

7A.1 Introduction 171

7A.2 The IS-LM model 171

7A.2.1 The IS curve 171

7A.2.2 The LM curve 173

7A.2.3 Equilibrium in the IS-LM model 174

7A.2.4	Limitations of the IS-LM model	174
7A.3	The AD-AS model	175
7A.3.1	The AD curve	175
7A.3.2	The AS curve	177
7A.3.3	Equilibrium in the AD-AS model	178
7A.3.4	Limitations of the AD-AS model	179
References	179

Chapter 8 Modern monetary theory 180

8.1	Introduction	180
8.2	The new classical school	181
8.2.1	The Phillips curve	181
8.2.2	Rational expectations	184
8.2.3	Continuous market clearing	186
8.2.4	The new classical AD-AS model	187
8.2.5	The transmission mechanism of the new classical school	188
8.2.6	Policy implications of the new classical approach	189
8.2.7	Criticisms of the new classical approach	190
8.3	The new Keynesian school	191
8.3.1	Wage and price rigidities	193
8.3.2	The new Keynesian AD-AS model	194
8.3.3	The transmission mechanism of the new Keynesian school	195
8.3.4	Policy implications of the new Keynesian approach	195
8.3.5	Criticisms of the new Keynesian approach	196
Summary	196
Questions	198
References	198

Chapter 9 The monetary-policy transmission mechanism 200

9.1	Introduction	200
9.2	The difficulties in identifying the monetary-policy transmission mechanism	200
9.3	An overview of the monetary-policy transmission mechanism	202
9.4	The short-term interest-rate channel	203
9.5	The long-term interest-rate channel	206
9.6	The domestic asset-price channel	208

9.7	The exchange-rate channel	210
9.8	The role of the money supply	213
9.9	Summary	214
Questions	215

PART 2 MONETARY POLICY

Chapter 10 A framework for monetary

policy	219	
10.1	Introduction	219
10.2	The ultimate objective of monetary policy	221
10.3	Market-oriented measures versus direct controls	224
10.4	Rules versus discretion	225
10.5	Monetary-policy instruments	228
10.6	Monetary-policy regimes	229
10.6.1	Exchange-rate targeting	230
10.6.2	Monetary targeting	232
10.6.3	Nominal-income targeting	233
10.6.4	Inflation targeting	235
10.7	Indicators and instrument rules	241
10.7.1	The monetary-conditions index	242
10.7.2	The financial-conditions index	243
10.7.3	The Taylor rule	243
10.7.4	The McCallum rule	244
10.7.5	Forecast targeting	245
10.8	Monetary-policy operational procedures	247
10.8.1	Cash-reserve requirements	249
10.8.2	Open-market transactions	251
10.8.3	Transferring official deposits between the central bank and other banks	253
10.8.4	The discount window	253
10.8.5	Moral suasion	254
10.8.6	Direct controls	254
10.9	The institutional arrangements	256
10.9.1	Independence	256
10.9.2	Accountability	258
10.9.3	Transparency	259
Summary	261
Questions	262

Chapter 11 Exchange-rate regimes and monetary policy 265

11.1 Introduction 265

11.2 International monetary systems 266

 11.2.1 The gold standard 266

 11.2.2 The gold-exchange standard... 268

 11.2.3 The Bretton Woods system 269

 11.2.4 The present system of managed floating exchange rates 271

 11.2.5 The way forward 273

11.3 The Mundell-Fleming model 274

11.4 The effect of monetary policy with fixed and floating exchange rates 278

11.5 The new open-economy macroeconomics 280

Summary 283

Questions 283

References 284

Appendix to Chapter 11 286

11.A.1 Introduction 286

11.A.2 Currency boards 286

 11.A.2.1 The historical development of currency-board arrangements 287

 11.A.2.2 Features of currency-board arrangements 287

 11.A.2.3 Monetary and fiscal policy in a currency-board arrangement 287

 11.A.2.4 The transmission mechanism in a currency-board arrangement 289

 11.A.2.5 The advantages of currency-board arrangements 290

 11.A.2.6 The disadvantages of currency-board arrangements 290

 11.A.2.7 Currency boards versus central banks 291

11.A.3 Dollarisation 291

 11.A.3.1 Types of dollarisation 291

 11.A.3.2 How dollarisation works 292

 11.A.3.3 The benefits and costs of dollarisation 293

References 294

Chapter 12 Monetary policy in South Africa from 1921 to 2000 295

12.1 Introduction 295

12.2 The period of the reinstatement of the gold standard, 1920 to 1931 296

12.3 The period of the demise of the gold standard and stimulatory monetary policy, 1932 to 1945 298

12.4 The period of the revival of monetary policy, 1946 to 1960 301

12.5 The period of direct monetary controls, 1961 to 1979 303

12.6 The period of market-oriented monetary policy and monetary targeting, 1980 to 1989 306

12.7 The period of informal inflation targeting, 1990 to 2000 310

Summary 314

Questions 315

References 315

Chapter 13 Inflation targeting in South Africa 317

13.1 Introduction 317

13.2 The objective of monetary policy in South Africa 318

13.3 Broad monetary-policy philosophy ... 321

13.4 The operational variable in South Africa 322

13.5 The implementation of inflation targeting 325

 13.5.1 The definition of the target variable 325

 13.5.2 The specification of the target level 326

 13.5.3 The decision-making process . 327

13.6 The institutional arrangements 330

 13.6.1 The independence of the South African Reserve Bank .. 330

 13.6.2 The accountability of the South African Reserve Bank 331

 13.6.3 The transparency of monetary policy 332

13.7 Inflation targeting and the exchange rate 333

13.8 Inflation targeting and asset prices 335

13.9 The effectiveness of inflation targeting 335
