INTRODUCTION: THE EVOLVING ROLE OF ASIA IN GLOBAL FINANCE xxi

PART I: REAL AND FINANCIAL INTERACTIONS

CHAPTER 1 BUSINESS CYCLES, CONSUMPTION, AND RISK SHARING: HOW DIFFERENT IS CHINA? 3
   Chadwick C. Curtis and Nelson C. Mark

1 Introduction 3
2 Does the business cycle framework work for China? 6
   2.1 Calibration and simulation 7
3 Informal examination of China’s provincial data 11
4 A test of the perfect risk-sharing hypothesis 18
5 Conclusion 21
   Statistical Appendix 21
   References 21

CHAPTER 2 LINKAGES BETWEEN STOCK MARKET FLUCTUATIONS AND BUSINESS CYCLES IN ASIA 23
   Bertrand Candelon and Norbert Metiu

1 Introduction 23
2 Preliminary analysis 25
   2.1 The data 25
   2.2 The cyclical filter 28
3 Short-run cyclical linkages 29

Hans Genberg, Cho-Hoi Hui, Alfred Wong and Tsz-Kin Chung

1 Introduction 83
2 Covered interest parity in financial turmoil 84
3 Effects of counterparty risks on deviations from covered interest parity 86
4 Deviations from covered interest parity and currency strength 91
5 Conclusion 93
Acknowledgments 94
References 94

PART II: REGIONAL MONETARY COOPERATION

CHAPTER 5 THE IMPLICATIONS OF RENMINBI BASKET MANAGEMENT FOR ASIAN CURRENCY STABILITY

Guonan Ma and Robert N McCauley

1 Introduction 97
2 The renminbi and the dollar since July 2005 99
3 The evolving RMB management since July 2005 101
   3.1 Singapore-style basket management between mid-2006 and mid-2008 101
   3.2 Break-out from the crawling band after July 2008 107
   3.3 Preliminary econometric evidence 107
4 Implications for intra-Asian exchange rate stability 110
5 Conclusions 116
Acknowledgment 117
References 117

CHAPTER 6 ON THE CHOICE OF EXCHANGE RATE REGIMES FOR EAST ASIAN COUNTRIES

Ulrich Volz

1 Introduction 123
2 Considerations regarding the choice of exchange rate regimes 125
3 Trade considerations 128
4 International assets and liabilities 141
5 From the East Asia dollar standard to the East Asian basket standard 147
CHAPTER 7 STABILITY OF EAST ASIAN CURRENCIES DURING THE GLOBAL FINANCIAL CRISIS
Junko Shimizu and Eiji Ogawa

1 Introduction 158
2 What is an appropriate currency regime for East Asia? 159
3 Exchange rate fluctuations under the global financial crisis 161
4 The NEERs of East Asian currencies 164
5 The relationship among effective exchange rates, the AMU, and the AMU deviation indicators 172
6 Coordinated exchange rate policies with the AMU and AMU deviation indicators 173
7 Conclusion 176
Acknowledgments 177
Appendix. The AMU and AMU deviation indicators 177
A.1 Calculating the AMU 177
A.2 Calculating the AMU deviation indicators 179
References 179

CHAPTER 8 ON EMERGING ASIAN EQUILIBRIUM EXCHANGE RATES
Antonia López-Villavicencio and Valérie Mignon

1 Introduction 181
2 Estimation of currency misalignments 184
2.1 The BEER equation and data 184
2.2 Estimation results 186
2.3 Exchange rate misalignments 189
3 Convergence to equilibrium: how long are the disequilibria? 194
3.1 Methodology 195
3.2 Estimation results 196
3.3 Explaining the asymmetric adjustment of emerging Asian currencies: the case of China 200
4 Conclusion 204
Acknowledgment 205
Appendix 205
References 207
PART III: DECOUPLING

CHAPTER 9 GLOBAL CONTAGION AND THE DECOUPLING DEBATE
Thomas D. Willett, Priscilla Liang and Nan Zhang

1 Introduction 215
2 A brief history of the decoupling debates 217
3 An interpretation of the swings in opinion 219
4 Concepts of decoupling 220
5 Analysis of the instability of growth and financial market correlations
   5.1 Growth rate correlations 224
   5.2 Stock market correlations 228
6 Did the BRICs insulate their economies successfully from the great recession? 228
7 Concluding remarks 231
References 232

CHAPTER 10 THE DECOUPLING OF ASIA-PACIFIC?
James Yetman

1 Introduction 235
2 Existing evidence 236
3 Empirical evidence 239
   3.1 Correlation coefficients 239
   3.2 Sensitivity to crises and recessions 242
   3.3 Other critiques of correlations 243
   3.4 An alternative measure of comovement 245
   3.5 Explaining comovement 248
4 Conclusion 250
Acknowledgments 251
References 251

CHAPTER 11 HAS EMERGING ASIA DECOUPLED?
AN ANALYSIS OF PRODUCTION AND TRADE LINKAGES USING THE ASIAN INTERNATIONAL INPUT–OUTPUT TABLE
Gabor Pula and Tuomas A. Peltonen

1 Introduction 255
2 Brief review of the literature 258
3 Emerging Asia's external dependence based on trade data 260
4 Methodology 263
3 Do state-owned firms have easier access to external financing? 319
4 How do private firms finance themselves? 326
   4.1 Survey responses 326
   4.2 Financing Mechanisms for Chinese Private Firms 331
5 Conclusion 336
   Acknowledgments 337
   References 337

CHAPTER 14 FOREIGN DIRECT INVESTMENT
IN CHINA: PERFORMANCE, CHARACTERISTICS, AND PROSPECTS 341

Chunlai Chen

1 Introduction 341
2 The growth of FDI inflows into China 342
   2.1 Has China attracted excessive FDI inflows from the world? 344
   2.2 Has China crowded out FDI inflows into other countries? 346
3 Characteristics of FDI inflows into China 348
   3.1 Developing economies are the dominant source of FDI into China 348
   3.2 Unbalanced regional distribution of FDI inflows 351
   3.3 Sectoral distribution of FDI inflows 353
4 Contributions of FDI to China’s economy 356
   4.1 Capital formation 356
   4.2 Employment opportunities 358
   4.3 Export promotion 359
5 Prospects for FDI inflows into China 360
6 Conclusion 364
   References 365

CHAPTER 15 DEVIATIONS FROM COVERED INTEREST PARITY: THE CASE OF CHINA 369

Yin-Wong Cheung and Xing Wang Qian

1 Introduction 369
2 Determinants of cover interest differential 371
3 The basic empirical specification and data 373
4 Empirical results 374
   4.1 Basic estimation results 374
   4.2 Components of covered interest differential 377
   4.3 Onshore forward data 378
5 Concluding remarks 381
   Acknowledgments 382
   Appendix 382
   A.1 Data: definition and sources 382
   A.2 Constructing the monthly capital flight and GDP data 383
   References 384
