Economic Fundamentals of Power Plant Performance

Almas Heshmati
Contents

List of figures xvi
List of tables xxiii
Preface xxvii
List of abbreviations xxix

1 Introduction

1.1 Background to the Korean electricity industry 1
1.2 Background to the world electricity industry 4
1.3 Background to previous research on the electricity industry 5
1.4 Objective of this study 5
1.5 Generator-level database 7
1.6 Methodology 7
1.7 Application and expected results 8
1.8 Organization and structure of the book 9

2 The Korean electricity industry 11

2.1 Introduction 11
2.2 Energy sources, self-sufficiency, security, and vulnerability 12
2.3 Supply side and its development 17
2.4 Demand side and its development 29
2.5 Management, competition, finances, and performance 35
2.6 Summary 39

3 Market structure of the electricity industry 41

3.1 Introduction 41
3.2 Different power plants in the Korean electricity industry 43
3.3 Other residual power plants and features of the electricity market 54
3.4 Structural organization of the electricity industry 62
3.5 R&D investment, public intervention, concentration, and performance 69
3.6 Summary 75

4 Global trends in the electricity industry and energy consumption 78
4.1 Introduction 78
4.2 The literature on the electricity market 79
4.3 Global trends in energy production and energy use 83
4.4 Global trends in development of the electricity industry 85
4.5 Determinants of supply and demand for electricity 95
4.6 Literature on measurement and analysis of performance 98
4.7 Structural reorganization and changes in ownership 99
4.8 Literature on reorganization of the market 103
4.9 Evidence on reorganization of the electricity market 106
4.10 Summary and conclusions 108

5 Overview of performance methodologies 111
5.1 Introduction 111
5.2 Factor productivity 112
5.3 Parametric approaches to performance analysis 124
5.4 Comparison of the different measurement methods 128
5.5 Summary of methods of performance analysis 132

6 Previous efficiency analysis of electricity generation 134
6.1 Introduction 134
6.2 Earlier studies analyzing effects of restructuring 135
6.3 Management performance studies 135
6.4 Comparison of the performance of Korea and other countries 137
6.5 Recent performance analysis of Korean electricity market 141
6.6 Efficiency measurement and determinants of efficiency 144
6.7 Summary of the previous research and lessons learned 146

7 Generator-level data 148
7.1 Introduction 148
7.2 Factor inputs 154
7.3 Generation output 168
7.4 Characteristics of output 172
7.5 Characteristics of producers 174
7.6 Characteristics of intervention: public support 177
