### Overview  
1  
The Relevance of Technology Absorption to  
Southern Africa ............................................................................. 2  
Channels of and Constraints to Technology  
Absorption .......................................................................................... 4  
Policy Options for Greater Technology Absorption  
.................................................................................. 6  
Note  ............................................................................................ 18  
References ..................................................................................... 18  

### Chapter 1  
19  
**Technology Absorption and Its Determinants**  
_Smita Kuriakose, Chunlin Zhang, and Itzhak Goldberg_  
  
Technology Absorption and Catch-up  
Growth  ..................................................................................... 21
The Relevance of Technology Absorption to Southern Africa 22
The Determinants of Technology Absorption: A Conceptual Framework 29
The Empirical Methodology of This Book 39
Annex 43
Notes 58
References 59

Chapter 2 Channels of and Constraints to Technology Absorption 65
Smita Kuriakose, David Kaplan, and Krista Tuomi

South Africa: Auto Component Sector 66
South Africa: Capital Goods Sector 72
South Africa: Chemical Sector 79
South Africa: Software and Information and Communication Technology Sector 84
South Africa: National Innovation Survey and Enterprise Survey 88
Namibia: Agroprocessing Sector 93
Mauritius: Manufacturing Industries 100
Lesotho: Textile Sector 110
Conclusion 115
Annex 2A: Data Supporting the Case Study Analyses 119
Annex 2B: Survey Instrument 124
Annex 2C: Empirical Analysis Using the NIS and the ES Data 137
Notes 153
References 155

Chapter 3 Policy Options for Greater Technology Absorption 159
Chunlin Zhang, Itzhak Goldberg, David Kaplan, and Smita Kuriakose

Getting the Basics Right 162
Increasing Skill Supply 164
Supporting Learning through Trade 175
1A.10 Namibia’s Exports of Low-, Medium-, and High-Technology Goods, Dollar Value, 2001-08 51
1A.11 Namibia’s Imports of Low-, Medium-, and High-Technology Goods, 2001-08 52
1A.12 Namibia’s Imports of Low-, Medium-, and High-Technology Goods, Dollar Value, 2001-08 52
1A.13 Lesotho’s Exports of Low-, Medium-, and High-Technology Goods, 2001-08 53
1A.14 Lesotho’s Exports of Low-, Medium-, and High-Technology Goods, Dollar Value, 2001-08 53
1A.15 Lesotho’s Imports of Low-, Medium-, and High-Technology Goods, 2001-08 54
1A.16 Lesotho’s Imports of Low-, Medium-, and High-Technology Goods, Dollar Value, 2001-08 55
2.1 Top Constraints: Foreign-Owned versus Domestic Firms, South African Auto Component Sector 70
2.2 Top Constraints: Exporters versus Nonexporters, South African Auto Component Sector 71
2.3 Preferred Method of Technology Acquisition, Mauritius 104
2.4 Clothing Manufacturers’ Reasons for Investing in Lesotho 111
2.5 Training Investment by Lesotho Clothing Manufacturers 114
3.1 Capacity and Output of the Postsecondary Public Education System, South Africa, 1999–2009 166

0.1 Direct Instruments for Supporting Business R&D 17
1.1 Composition of Global Manufacturing Value Added, 2005 23
1.2 Firm Characteristics 42
1A.1 Technological Classification of Merchandise Trade 44
1A.2 FDI Comparative Overview of Four Countries 55
1A.3 Stock and Flow Contrast with Comparator Countries, 2009 58
2.1 South African ICT Exports 85
2A.1 South Africa’s Top 10 Automotive Component Export Destinations, by Country, 2004–08 119
2A.2 South Africa’s Automotive Component Export Destinations, by Region, 2004–08 119
Contents ix

2A.3 South Africa’s Top 10 Automotive Component Exports, by Component Category, 2004–08 120
2A.4 South Africa’s Top 10 Export Destinations for Capital Goods, January–June 2009 120
2A.5 South Africa’s Mining Equipment Export Destinations, 2005–09 121
2A.6 South Africa’s Mining Equipment Exports to Sub-Saharan Africa, 2005–09 121
2A.7 South Africa’s Principal Chemical Exports, 2005–09 122
2A.8 Top 16 Export Destinations for South African Chemicals 123
2A.9 Percentage Composition of Manufactured Products, Namibia 124
2C.1 Introduction of a New Product and New Process in the Full Sample 139
2C.2 Introduction of a New Product and New Process, Innovators-Only Subsample 140
2C.3 Marketing Changes: Full Sample Probability Weights 141
2C.4 Organizational Changes: Full-Sample Probability Weights 142
2C.5 Marketing Innovation: Innovator-Only Subsample Probability Weights 143
2C.6 Organizational Innovation: Innovator-Only Subsample Probability Weights 144
2C.7 New to Market versus New to Firm 145
2C.8 Determinants of Research and Development 146
2C.9 Factors Hampering Innovation Activities, 2002–04 147
2C.10 Determinants of Technology Absorption: South Africa, ES 2003 Data 148
2C.11 Determinants of Technology Absorption: South Africa, ES 2007 Data 150
2C.12 Probability of Introducing a New Product in the Past Three Years, Mauritius, ES 2008 Data 152
2C.13 Probability of Introducing a New Technology in the Past Three Years, Mauritius, ES 2008 Data 152
3.1 Bangladesh’s Garments: Growth Rates of Dollar Exports, 1985–2006 182
3.2 Direct Instruments for Supporting Business R&D 191
3A.1 Incentives for Manufacturers and Exporters in Namibia 197
