DERIVATIVES AND RISK MANAGEMENT

RAJIV SRIVASTAVA
Professor
Indian Institute of Foreign Trade
New Delhi

OXFORD UNIVERSITY PRESS
# Contents

**Foreword** vi

**Preface** vii

## 1. Derivatives—An Introduction 1
- Introduction—Risk Management 1
- Managing Risk 2
- Types of Business Risks 3
- Derivatives 4
- Derivative Products 6
- Classification of Derivatives 6
- Participants in Derivative Markets 9
- Evolution of Derivatives 11
- Functions of Derivative Markets 16
- Misuses, Criticism of Derivatives 18

## 2. Forwards and Futures 22
- Introduction 22
- Forward Contract 23
- Settlement of Forward Contracts 25
- Futures Contract 27
- Specification of a Futures Contract 29
- Open Interest 32
- Differences Between Forward and Futures Contracts 33
- Pricing a Forward/Futures Contract 37
- The Arbitrage Argument 39
- Value of a Forward Contract 43
- Convergence 45
- Relationship of Futures Price and Expected Spot Price ($S_t$) 47
- Types of Futures 49

## 3. Commodity Futures 57
- Introduction 57
- Benefits of Commodity Futures 58

## 4. Stock and Index Futures 91
- Introduction 91
- Index Futures 92
- Forward Contracts on Stocks 93
- Futures Contract on Indices and Individual Stocks 95
- Features and Specifications of Stock or Index Futures 97
- Pricing Stock and Index Futures 99
- Applications of Index Futures 102
- Hedging Through Index Futures 102
- Speculation with Stock Index Futures 114
- Arbitrage with Stock Index Futures 115
- Other Applications of Index Futures 120

## 5. Currency Forwards and Futures 130
- Introduction 130
- **Foreign Exchange Preliminaries** 131
- Foreign Exchange Risk 131
- Foreign Exchange Markets 132
- Foreign Exchange Rates 132
Currency Forwards 135
Foreign Exchange Transactions 135
Arbitrage and Foreign Exchange Rates 141
Hedging Through Forward Contracts 143
Speculation with Forward Contracts 148
Arbitrage with Forward Contract 150
Non-deliverable Forward (NDF) Contract 152
Features of NDFs 153
How NDF Works 154
NDF and Interest Rate Parity 154
Are NDFs Desirable 156
Currency Futures 156
Contract Specifications 157
Pricing Currency Futures/Forwards 160
Hedging Through Currency Futures 163
Speculation With Currency Futures 166
Arbitrage With Currency Futures 166

6. Interest Rate Forwards and Futures 176
Introduction 176
Forward Rate Agreements (FRAs) 177
FRA—The Product 177
Hedging with FRA 184
Speculation with FRAs 187
Arbitrage with FRAs 187
Interest Rate Futures on T-bills 188
Futures Contracts on T-bills 188
Hedging with T-bill Futures 192
Speculation with T-bill Futures 197
Arbitrage with T-bill Futures 198
Eurodollar Futures 202
Eurodollars 202
Futures Contracts on Eurodollars 203
Pricing of and Hedging with Eurodollar Futures 204
Treasury Bond Futures 206
Pricing T-bonds 207
Futures Contract on T-bonds 208
Pricing of T-bond Futures 209
Hedging Principle 214
Duration and Modified Duration 215
Interest Rate Futures in India 219

7. Interest Rate and Currency Swaps 231
Introduction 231
Interest Rate Swaps 232
Features of Swap 233
Need of Swap Intermediary—The Swap Dealer/Bank 235
Applications of Swaps 237
Rationale for Swap—The Comparative Advantage 242
Types of Interest Rate Swaps 244
Currency Swaps 245
Valuation of Swaps 252
Valuing Interest Rate Swap 253
Swap Quotes and Initial Pricing 258
Counterparty Risk and Swaps 261
Valuing Currency Swaps 263
Other Swaps 268
Commodity Swaps 268
Equity Swaps 268

8. Options—Basics 277
Introduction 277
Terminology of Options 278
Call Option 279
Put Option 280
Moneyness of Options 283
Types of Options 284
Understanding Options Quotations 286
Trading and Settlement 288
Margins in Options 290
Adjustment For Corporate Actions on Stock Options 290
Options Other Than Stocks/Indices 292
Differences Between Options and Forwards/Futures 293

9. Option Pricing-I 300
Introduction 300
Intrinsic Value and Time Value 301
Boundary Conditions for Option Pricing 303
Arbitrage-based Relationship of Option Pricing 310
Put Call Parity 313

10. Option Pricing-II 326
Introduction 326

Binomial Option Pricing Model 327
Risk Neutral Valuation 331
Equivalent Portfolio Approach for Option Valuation 334
Binomial Model for Put Pricing 336
Multi-Period Binomial Model 337
Valuing American Options 340
Binomial Model for Currency Options 348
Binomial Model for Index Options 349
Applying Binomial Model:
Constructing Binomial Tree 350
Factors Affecting the Option Price 351

Black–Scholes Option Pricing Model 355
Assumptions of the Black–Scholes Model 364
Interpreting the Black–Scholes Model 365
Put Pricing Using the BSM 366
Volatility 371
Measuring Historical Volatility 372
Implied Volatility 375

11. Options—Sensitivities 387
Introduction 387
Delta and Delta Hedging 388
Theta 400
Gamma and Gamma Neutrality 404
Other Greeks 410

12. Options—Applications 421
Introduction 421
Hedging Strategies with Options 422
Hedging with Stock Options 424
Hedging with Index Options 429
Hedging with Currency Options 433
Income Generation with Options 439
Option Trading Strategies—Combination of Options 443
Straddle—Long and Short 444
Strangle—Long and Short 446
Straps and Strips 449
Bull Spread 450
Bear Spread 452
Butterfly Spread 454
Condor Spread 456
Calendar Spreads 458
Diagonal Spreads 459
Box Spread 460
Factors Affecting the Spreads 462
Synthesizing Instruments and Positions 463
Synthetic Long Position in Stock 463
Synthetic Short Position in Stock 464
Other Synthetic Positions 466

13. Exotic Options 480
Introduction 480
Forward Start Option 481
14. Credit Derivatives 507

Introduction 507
Credit derivative 508
Types of Credit Risks 509
Assessing Credit Risk: the Probability of Default 511
Credit Default Swaps 511
Total Return Swap 515
Credit Linked Notes 517
Collateralized Debt Obligations 519

15. Other Derivatives 524

Introduction 524
Futures Options 524
Payoff of Options on Futures 525
Binomial Model For Futures Options 527

16. Accounting for Derivatives 565

Introduction 565
Accounting Definition of Derivatives 566
Types of Financial Instruments 567
Fair Value 569
Hedge Accounting 571
Accounting for Derivatives 577
In Conclusion 583

Area under the Standard Normal Distribution, N(d), for Values of d ≤ 486
