## Contents

### Chapter

1 Introduction 1

2 Intellectual Property Rights, Technology Transfer and Export in Developing Countries 4

2.1 Introduction 4

2.2 Related Literature 6

2.2.1 Intellectual Property Rights and International Technology Transfer 6

2.2.2 Technology and Export Performance 8

2.3 The Model 9

2.3.1 Consumption 9

2.3.2 Decision on Mode of Supply 10

2.3.3 Production 11

2.3.4 The Decision Structure 13

2.3.5 Equilibrium Analysis 14

2.4 The Impacts of IPR 16

2.4.1 IPR and the Extent of Know-how Transferred 16

2.4.2 IPR and Southern Exports 17

2.4.3 IPR and the N Firm’s Export or Licensing Decision 18

2.5 Welfare 20
### 2.5.1 Welfare of the Southern Country

2.5.2 Welfare of the Northern Country

2.5.3 Welfare of the World

2.6 Summary and Conclusions

3 Intellectual Property Rights, Factor Proportions and the Pattern of Trade in Developing Countries

3.1 Introduction

3.2 Related Literature

3.3 The Model

3.3.1 Consumption

3.3.2 Decision on Mode of Supply

3.3.3 Production

3.3.4 The Decision Structure

3.3.5 Equilibrium Analysis

3.3.6 The Impacts of IPR

3.4 Estimation Strategy

3.5 The Data

3.5.1 Constructing Measures of Patent Intensity

3.5.2 Other Data

3.6 Basic Results

3.7 Econometric Issues

3.7.1 Endogeneity

3.7.2 Controlling for Additional Determinants of Trade

3.7.3 Robustness analysis

3.8 Conclusions
