<i>List of Figures</i>	<i>page</i> viii
<i>Preface</i>	ix
1. Preferences, Comparative Evaluations, and Reasons	1
1.1. What are preferences?	1
1.2. Overall and total comparative evaluations	3
1.3. Preferences, reasons, and folk psychology	4
1.4. Misconceptions concerning preferences	7
1.5. Conclusions	8
PART I: PREFERENCES IN POSITIVE ECONOMICS	
2. Preference Axioms and Their Implications	13
2.1. The axioms of ordinal utility theory	13
2.2. Implications of the axioms for the understanding of preferences	17
2.3. Rationality and preferences	19
2.4. Preferences and self-interest	20
3. Revealed-Preference Theory	23
3.1. Actual revealed preferences and the revelation theorem	25
3.2. Critique of actual revealed-preference theory	27
3.3. Why not redefine preferences in terms of choice?	28
3.4. Hypothetical revealed preferences	31
3.5. Belief-dependent revealed preferences	33
3.6. Conclusions	33
4. Preferences, Decision Theory, and Consequentialism	34
4.1. Total subjective comparative evaluations	34
4.2. Using preferences to predict and explain choices: The standard model	36
4.3. Expected-utility theory	37

4.4. What does expected-utility theory accomplish?	40
4.5. Consequentialism and standard choice theory	42
4.6. Attributes and preferences	45
4.7. Conclusions	47
5. Game Theory and Consequentialism	49
5.1. Games and outcomes	49
5.2. Consequentialism in game theory	52
5.3. The default principle	52
5.4. Conclusions: The consequences of consequentialism	55
6. Constraints and Counterpreferential Choice	57
6.1. Sympathy and commitment	57
6.2. Commitment and counterpreferential choice	59
6.3. Constraints and counterpreferential choice	60
6.4. Many concepts of preference or just one?	62
6.5. Game theory and counterpreferential choice	65
6.6. Commitments and intentions	71
6.7. Conclusions	72
PART II: PREFERENCES, WELFARE, AND NORMATIVE ECONOMICS	75
7. Preference Satisfaction and Welfare	77
7.1. Welfare and preferences	78
7.2. Why welfare is not preference satisfaction	81
7.3. Welfare and laundered preferences: The approximation rationale	83
7.4. Why the approximation view fails	84
7.5. Conclusions	87
8. Preferences in Welfare Economics	88
8.1. Preferences and welfare: An evidential view	88
8.2. The evidential view and the scope of cost-benefit analysis	93
8.3. Preference distortions and paternalism	100
8.4. Conclusions	102
PART III: PSYCHOLOGY, RATIONAL EVALUATION, AND PREFERENCE FORMATION	105
9. The Psychology of Choice	107
9.1. Loss aversion, framing, and the endowment effect	108
9.2. Reversals, variance, and adaptation	110
9.3. Belief-desire psychology	112
9.4. Explaining and predicting preferences and choices	114
10. Constructing Preferences	117
10.1. How people evaluate alternatives	118
10.2. How people ought to evaluate alternatives	120
10.3. An example: Health-state values	120

10.4. Emotions and rational evaluation	124
10.5. Hume's challenge	126
10.6. Coherence	129
10.7. Conclusion: Theories of preference formation	130
11. Conclusions	133
<i>References</i>	139
<i>Index</i>	149
