1 Introduction and structure of the book 1
   Introduction 1
   Motivation for this collection of case studies 1
   Structure of the book 2

PART I
Introduction to environmental management accounting 5

2 Environmental management accounting 7
   Introduction to environmental and conventional accounting 7
   Environmental management accounting: framework and tools 15
   Usefulness of EMA information in the South-East Asian context 30

3 Comparative case study on EMA in South-East Asia 40
   Purpose and research questions for the EMA research study 40
   The case study approach 44
   Comparative case study on EMA in South-East Asia 46
   Overview of the EMA case study 49
PART II
Case studies on EMA in South-East Asia

4 EMA for eco-efficiency in a towel production firm: Indah Jaya, Indonesia
   Introduction 59
   Decision setting 59
   Company's motivation for using EMA 63
   EMA application 63
   Discussion and conclusions 72

5 Managing HSE in a mechanical engineering firm: Bisma Jaya, Indonesia
   Introduction 76
   Decision setting 77
   Motivation for and application of HSE accounting approaches 80
   Concluding discussion 95

6 Material flow cost accounting in a snack producer: JBC Food, the Philippines
   Introduction 98
   Decision setting 98
   Company's motivation for using EMA 103
   EMA application 104
   Discussion and conclusions 114

7 EMA for cleaner rice processing: Oliver Enterprises I, the Philippines
   Introduction 117
   Decision setting 118
   Company's motivation for using EMA 122
   EMA application 122
   Discussion 126
   Conclusions 128

8 EMA for reducing greenhouse gas emissions in rice processing: Oliver Enterprises II, the Philippines
   Introduction 131
   Decision setting 133
   Company's motivation for using EMA 136
   EMA application 137
   Discussion 142
   Conclusions 143
9 Environmental impact assessment, compliance monitoring and reporting in electroplating: Well-Ever, the Philippines

Introduction 148
Decision setting 149
Company's motivation for using EMA 153
EMA application 154
Discussion 168
Conclusions 169

10 Relevant environmental costing and decision-making in a saw paper manufacturer: Classic Crafts, Thailand

Introduction 173
Decision setting 174
Company's motivation for using EMA 178
EMA application 179
Discussion 185
Conclusions 187

11 Environmental risk assessment at a pulp and paper company: Thai Cane Paper, Thailand

Introduction 191
Decision setting 192
Company's motivation for using EMA 197
EMA application 198
Discussion 210
Conclusion 217

12 Decoupling economic growth from pollution: Tan Loc Food, Vietnam

Introduction 220
Decision setting 220
Company's motivation for using EMA 223
EMA application 225
Conclusion 232

13 Supply chain information and EMA in coffee exporting: Neumann Vietnam, Vietnam

Introduction 234
Decision setting 235
Company's motivation for using EMA 238
EMA application 239
Conclusion 248
14 Environmental and quality improvements as justification for higher capital expenditure and land use in shrimp farming: Chau Thanh Tam Shrimp Farm, Vietnam 251
   Introduction 251
   Decision setting 251
   Company's motivation for using EMA 256
   EMA application 256
   Discussion and conclusion 266

15 Material and energy flow accounting in beer production: Sai Gon Beer, Vietnam 268
   Introduction 268
   Decision setting 268
   Decision situation and company's motivation for using EMA 272
   EMA application 272
   Conclusion and outlook 282

PART III
Findings, discussion, and conclusion 285

16 Rationale behind and reasons for applying EMA in corporate practice 287

17 Revealing patterns of EMA application 294
   Analysing the relationship between tools 294
   Simple relationships between EMA tools 296
   More complex relationships between EMA tools 301
   Synthesis of EMA patterns 305

18 Conclusions and outlook 308
   Management consequences 308
   Policy consequences 309
   Concluding comments and outlook 311
