List of Figures

0.1. The location of the first academic research institute in Soviet Studies in the world (*Instytut Naukowo-Badawczy Europy Wschodniej, 1930–1939*) 12

3.1. Economic development and overall index of coordination 110

3.2. State capture index in 1999 123

3.3. Post-communist capitalism typology 124

4.1. Dimensions of lawhood 194

5.1. GDP of Estonia in 1989–2010 211

5.2. GDP of Lithuania in 1989–2010 212

5.3. Initial conditions of the post-communist economic modernization 215

5.4. GDP of Latvia in 1989–2010 221

6.1. GDP of Slovenia in 1989–2010 243

6.2. Stock market capitalization to GDP ratio in 2004–2009 254

6.3. Shares traded by GDP in 2004–2009 255

6.5. Domestic credit to private sector by GDP 257

6.6. Contribution of total factor productivity (TFP), employment, and capital increases to average GDP growth, 1995–2001 259

6.7. Shifts of EU-27 countries in the factor space of the added value sector structure in 2000–2005 264

6.8. European regional innovation performance groups in EU states 292

7.1. The changes in the overall satisfaction with democracy in Lithuania 1991–2007 326
List of Tables

1.1. Logical development possibilities for communist regime 45
1.2. The classification of the pathways of post-communist transformation during first decade 57
3.1. Ideal types of technologically advanced 4th and 5th Kondratieff waves rational entrepreneurial capitalism 103
3.2. Central European dependent market economies (DME) in comparison with coordinated market economy (CME) and liberal market economy (LME) 116
3.3. Real GDP annual growth rate averages by country groups in the first post-communist decade 126
3.4. Real GDP annual growth rate averages by country groups in the second post-communist decade 130
4.1. Multi-value QCA data table for pathways of post-communist transformations 142
4.2. The table of configurations for the analysis of the liberal democratic capitalism emergence pathways 145
4.3. Unobserved cases in the assumed scripts of the preliminary pattern for successful rapid transition to liberal democratic capitalism 152
4.4. Unobserved cases in the assumed scripts of the alternative preliminary pattern for successful rapid transition to liberal democratic capitalism 153
4.5. Unobserved cases in the assumed scripts of the preliminary pattern for the failures of the rapid transition to liberal democratic capitalism 155
4.6. Unobserved cases in the assumed scripts of the alternative preliminary pattern for the failures of the rapid transition to liberal democratic capitalism 156
4.7. Unobserved cases in the assumed scripts of the preliminary pattern for successful rapid transition to rational entrepreneurial capitalism 176
4.8. Unobserved cases in the assumed scripts of the preliminary pattern for unsuccessful rapid transition to rational entrepreneurial capitalism 177
4.9. Residual unobserved cases not considered in the search for minimal patterns in pathways to liberal democratic capitalism and rational entrepreneurial capitalism

4.10. Final pattern for the rapid success of the building of liberal democratic capitalism (full version)

4.11. Final pattern for the failure in the rapid building of liberal democratic capitalism (full version)

4.12. Final pattern for the rapid success of the building of rational entrepreneurial capitalism (full version)

4.13. Final pattern for the failure in the rapid building of rational entrepreneurial capitalism (full version)

4.14. Final pattern for the emergence of political oligarchic capitalism (full version)

4.15. Final pattern for the non-emergence of political oligarchic capitalism (full version)

4.16. Final pattern for the emergence of state capitalism (full version)

4.17. Final pattern for the non-emergence of state capitalism (full version)

4.18. Final pattern for the rapid success of liberal democracy (full version)

4.19. Final pattern for the failure of liberal democracy during the first decade of post-communist transformation (full version)

5.1. The growth in real GDP in Central and Eastern Europe, Baltic States and Commonwealth of Independent States (CIS) during the first decade of post-communist transition

5.2. The differences in basic value orientations between Lithuanians, Estonians, and Latvians in 1990

6.1. Collective bargaining coverage and trade union membership in 2009
