Proceedings of The Third International Symposium on Regional Management Science and Engineering

*Editors: Joseph Kam Hung, ZHANG Wei, ZHAO Huanchun*

Conference Sponsors:
- University of Jinan
- M&D Forum (Australia)

Conference Organizers:
- Urban Development Research Institute, University of Jinan
- Beijing Zhongjing Lanshan Academic-Exchange Co., Ltd

Conference Co-Organizers:
- Beijing Zhongjing Shiji Investment Co., Ltd
- Australia Blue Mountains Group

C 266502

ST. PLUM-BLOSSOM PRESS PTY LTD
Melbourne – Australia
MAY 2011
## Contents

### Chapter One

**Innovation and Research of Regional Economic Theory**

Chapter Two

Regional Economic Science and Environmental Resource Engineering Management

Complexity Study of Technical Innovation in Circular Agriculture

LONG Tianwei, YAO Wanjun .................................................. 81

Research of Small and Medium-sized Innovation to Promote the Regional Economic of Liaoning

LU Li, WANG Xian ................................................................. 89

Research on Evaluation and Optimization of Regional Agricultural Technology Innovation Resources Allocation

SUN Jingcui, YUE Shangzhi .................................................. 94

Economics Research of Environmental Pollution and Its Treatment in Rural Villages Based on Game Theory

CUI Tongke ................................................................. 103

Try to Discuss Deficiencies and Improvement Measures of the Construction Cost Consulting Agencies in Personnel Management

WU Weidong, HU Xiaomin .................................................. 110

Study of the Old Suited Residential Environment Design Based on Behavior Analysis

ZHAO Feng, FU Jia ............................................................... 115

The Status Analysis and Countermeasures of Hebei Rural Infrastructure Construction

ZHOU Jin, ZHAO Banghong .................................................. 121

Study on Marketing Strategies of Regional Grey Tourist

ZHANG Qi, FU Baoxin .............................................................. 127

The Influences of Urbanization on Agricultural Water Resource: A Case Study of Shandong Province

WU Peilin, TAN Minghong .................................................. 132

The Strategy of Private Agricultural Technological Innovation Based on the Competitions from the Potential Enterprise

WANG Xiaoying, TIAN Yuli .................................................. 138

Discussion on Path of Ecological Image Construction in the Regional Image Management

SUI Pengfei ................................................................. 144
Chapter Three

Regional Economic Science and Industrial Structure Engineering Management

Manufacturing Development and Analysis of Regional Economic Differences in Shandong
ZHANG Zhixin, XUE Qiao ................................................................. 151

Study on Optimization of Trade Structure in Our Country—— Based on Industrial Organization Perspective
GENG Naiguo, ZHAO Lingfei ........................................................... 156

The Development and Prospect of China’s Rural Residential Construction
CHENG Jianrun, XU Jinli ................................................................. 162

The Competitiveness of Chinese Circulation Industry—— Perspective on the Industrial Structure
LI Hui ......................................................................................... 167

The Researches on Developing Science and Technology Service Industry in Hangzhou
WANG Yan ................................................................. 172

Empirical Analysis of the Structure of Industrial Investment of Hebei Province
XU Ye, WANG Li ................................................................. 179

Boom Regional Economy & Develop Catering Industry in Small Towns
YUAN Jinming ................................................................. 184

Study on the Correlation Between the Changes of Industrial Structure and Energy Consumption in Hebei Province
LI Yaowei, HUANG Hongmei .................................................. 190

Research on Zhengzhou’s Logistics Industry Development Based on Deepening Labor Division
GUO Sen ........................................................................ 195

The Positive Analysis of the Regional Trade of China and Russian Federation According to the International Trade Theory
TIANYuli ........................................................................... 201

Study on Management Model of Guangzhou Science and Technology Services
LIU Xi, ZHANG Yuzhi ................................................................. 209

A Research on the Structure of Identity-based Organizational Identification
YAN Yan ........................................................................... 214
Chapter Four

Regional Economic Science and Industrial Clustering Management

Logistics Finance: New Approach to Resolve Financing Difficulty Position of Medium-sized and Small Enterprises in Heilongjiang Province
ZHAO Yingxia .......................................................... 225

The Dilemma and Transcendence on the West Regional Investment Law
HE Fang, ZOU Chunlin .................................................. 231

Studying the Effect of Industry-Education-Academy Cooperation on Regional Industrial Cluster
NING Yuxin .............................................................. 236

Location-Form of the Basic Services in Metropolis: A Case Study of Beijing
CHEN Mingsheng, JIN Xiaojing ........................................ 242

The Opportunity and Challenge of Undertake Textile Industry Shift in Henan Province
LIU Yuejun, BI Haiyang ................................................ 247

Research on Competitiveness and Strategy of Software Outsourcing in Wuhan
KE Zongjun ............................................................... 252

Research on the Relationship Between Financial Structure and Regional Economic Growth in Open Economy
SUN Ke ................................................................. 258

The Researches on Countermeasures for Dalian Fishery Economy Development
SUN Jianfu, ZHANG Yan ............................................... 262

Studies on Tactics of Development of Tourism Industry Cluster in Coastal Economic Zone of Liaoning
JI Yan, LIU Hong ........................................................ 267

Comparative Studies on Cultural Creative Industries Cluster Areas in Beijing and New York
WANG Hui .............................................................. 273

Influence of Agglomeration of Technological Elements on Economy Development of Different Districts in China
HUANG Hui, JIN Fengjun ............................................. 278

The Research on the Regional Economic Development of Hebei Which Based on the Industrial Cluster Group
WANG Xueli, LIU Qiuping ............................................. 283

Empirical Analysis on Urban Retail Business Spatial Distribution Influence Factors
ZHOU Chunhua, CHEN Jiandong ..................................... 292

The Research About Banking Industry and Region Economy Development in our Country
LI Yan ........................................................................ 297

Think About Sichuan-Chongqing Economy Communal Development Based on the Industry Agglomeration
YANG Jianping, LI Xiaoli .............................................. 302
Chapter Five

Research and Implementation of Control System Management

An Analysis of Project Management of Intellectualized Construction System
   GAO Wei, SUN Xucai ................................................................. 315
The Design and Evaluation of Performance Indexes of Project Managers in
   Software Enterprises
   ZHAO Jixin, WANG Tao ............................................................. 322
Research on Sustainable Development Capability Evaluation System of
   Large-Scale Infrastructure
   SUN Hailing, HU Yunpeng ........................................................ 329
Regional Ecological Security Assessment Based on Improved Method of
   Ecological Footprint—the Case of Shandong Changdao County
   LI Yunling, LI Lihong ................................................................. 336
Improving the Housing Investment in Western China
   XU Lei .......................................................................................... 343
Study on Purchasing Process Optimization of Overseas EPC Projects
   WANG Chao, ZHANG Lingling ..................................................... 348
Academic Research and Practical Exploration on Total Quality Management
   LI Xiaoyan, ZHOU Maodong ......................................................... 352
Research on Interests Conflict and Coordination in Cooperation of Regional
   Tourism —— Take the Yangtze River Delta as an Example
   XU Wenyan .................................................................................. 359
A Research of the Small and Medium-sized Enterprise Accounting System
   —— In Shandong Province as an Example
   YANG Yanyun, ZHAO Lin, WANG Dongsheng ............................. 364
Financial Management in Private Small and Medium-sized Enterprises in
   Hunan Province
   ZHANG Weimei .......................................................................... 370
The Consideration About Chongqing How to Make Use of the Strategy of Building
   an International Passageway in Yunnan
   GAO Dangui, ZHANG Zhiqiang ................................................. 374
An Empirical Study on the Effect of FDI Inflows on China’s Environmental Quality
   TIAN Jinjin, XIN Qing ................................................................. 378
Building of Vegetables Brand Value Evaluating Index System
   ZHANG Kecheng, DAI Lihua ......................................................... 383
Job Analysis Errors and Countermeasures in Manufacturing Enterprises
LIANG Meili ........................................................................................................... 391

Industrialization Science and Technology Achievements Evaluation
Index and Application
WANG Jia, CAO Daiyong ....................................................................................... 396

Chapter Six

Regional Economic Science and Support Policy of Engineering Management

Function Mechanism Analysis on Promoting Regional Social Economy by University
SUN Shaofu, CHEN Nan ...................................................................................... 403
A Study on Influence of Harmonious Culture of Shandong Province on
Its International Trade
LIU Baiyu ............................................................................................................ 409
The Contractual Arrangement for RTC of Yangtze Delta
ZOU Guangyong .................................................................................................. 414
Strategy Study on Local Government Promote SMEs to Innovate
——Based on Game Analysis of Local Industrial Policy
ZOU Rui, LI Shuang ............................................................................................ 419
Online Supply Chain Finance: Profound Changes in Financing of SMEs
WANG Yunqi ....................................................................................................... 424
The Present Condition and Suggestion of Innovative Capability for SMEs
Innovation in Shandong Province
LIU Guohua, LI Shuang ....................................................................................... 429
The Future Development Trend of Rural House Construction Technology of China
WANG Wenzhao, WU Wenbing, CHEN Chuang.................................................. 435
The Regional Economic New Territory: the Features and the Engine of
Economic Development in Inner Mongolia
ZHAO Xiuli, GUO Xueli ..................................................................................... 441
The Research of Chinese Investment-led Growth Pattern
LI Xin, NING Yawei .............................................................................................. 446
The Connotation of Informal Institutions and Their Practice in Rural Areas
KONG Yangyong .................................................................................................. 451
The Comparison and Innovation of Insurance Regulatory System Between
China and Foreign Countries
LI Yubao, LIU Bin ................................................................................................ 456
Financing Models Study of Small and Medium-sized Textile and Garment
Enterprises Based on SCF
Chapter Seven

Implementation Strategy and Other Related Issues

The Financing and Corporate Governance Effect of Issuing Corporate Bonds by Listed Companies
Zhang Jingmin ................................................................. 483

The Study on Tourism Income and RMB Deposits of Urban and Rural Residents
Zhao Jing ................................................................. 488

Reference of Zhu Xi's "Righteousness Outweighing Benefit" Reshape Enterprise Moral Norms of Ethics
Li Yufei ................................................................. 491

The Empirical Research on the Agency Costs and the Corporate Governess Mechanisms in Chinese Listed Companies
Hu Jie ................................................................. 496

Financing of SMEs Governance—Choice Based Security System
Han Xiaojie, Du An Hongbo ................................................. 502

Research on Enterprise Technology Innovation Ability Under Knowledge Management Environment
Zhao Weishuang, Li Changsong ............................................. 506

Research on the Construction of Enterprise Ethics Culture in Shandong Province Under the Perspective of Qilu Culture
Liu Xiaqing ................................................................. 511

Way to Resolve the Labor Shortage of SMEs in Economic Recovery Period
Liu Ke, Li Yahui ................................................................. 516

Economic Cooperation of Lu, Ji and Jin Based on Regional Economic Theory
Wang Yongquan, Zhao Lei ................................................ 521

Regional Economy on the Socialization of Military Logistical Support Influence
HAN Ying, LIU Xiangrong
Empirical Analysis on Impact of Energy Consumption on Economic Growth in Inner Mongolia

WANG Lijuan, XU Ye
Supporting Polices of Employee Assistance System for Rural Disabled
—— Based on Research into Employee Assistance for Rural Disabled in Linyi

SHAO Zhufeng, WANG Qian
A Study on Regional Health Promotion of Sports from the Perspective of Sustainable Development: Evidence from Jinan City

LEI Li
The In-depth Analysis of Objective Encouragement for Professional Managers in Family Enterprises

WANG Lei
Art Design Management of Regional Economic and Cultural Environment

NIU Jiurong
Contribution Analysis of Shandong Higher Education to Regional Economic Growth

ZHOU Qingmei, SUN Youhao
The Mechanism of Enterprise External Network Affecting Its Performance: From the Perspective of Absorptive Capacity

LIU Lu
Consumer’s Using Behavior and Innovative Product Design

DENG Xiaoshu
