Innovating Mass-customized Service

Application of a service perspective lifecycle innovation management (SLIM) model in an ICT-intensive firm in a fast-changing environment

Robert O. Reitsma

Eburon Delft
2011
## Contents

**Preface** vii

1. **Introduction** 1
   1.1 Background 1
   1.2 Research question 2
   1.3 Purpose and relevance of the study 6
   1.4 The challenge areas – research sub-questions 10
   1.5 Research design and approach 12
   Case – Introduction I 16
   1.6 Outline of the thesis 19

2. **ICT-intensive service perspective mass-customized firms** 21
   2.1 Introduction 21
   2.2 The telecommunications industry and the need for mass customization 22
   2.3 The Telco case 26
   Case – Introduction II 30
   2.4 Service and service perspective 31
   2.5 ICT-intensive service 36
   2.6 Service perspective innovation and operations 39
   2.7 Mass customization and related concepts 43
   Case 2-1 – Portfolio Rationalization Business Market 56
   Case 2-2 – Modular Portfolio Business Market 58
   2.8 Summary 59

3. **Product, process, and business model** 61
   3.1 Introduction 61
   3.2 The product/process innovation dichotomy 62
   3.3 Positioning product and process innovation from a service perspective 67
   3.4 Service perspective definitions of product and process (innovation) 72
   Case 3-1 – 1-Model 73
   3.5 Product-Process-Business model innovation framework 85
   Case 3-2 – IT Reference Architecture 93
   Case 3-3 – IP-based Networking & Services 96
   3.6 Summary 99

4. **A web of business components** 101
   4.1 Introduction 101
   4.2 Componentization at the business level 102
   Case 4-1 – Technical Infrastructure Platform 107
   4.3 Structuring a web of business components 109
   Case 4-2 – Product Structure 111
   4.4 Telco and the Web of Business Components 128
   Case 4-3 – TMF NGOSS eTOM framework 128
5. **Continuous innovation management**  
5.1 Introduction  
5.2 Service perspective innovation management  
Case 5-1 — New Service Development process  
5.3 Modeling innovation as a continuous innovation management process  
Case 5-2 — Release Management on Processes  
5.4 Continuous innovation management roles and organization  
Case 5-3 — Development Manager role  
5.5 Summary  

6. **Service perspective Lifecycle Innovation Management**  
6.1 Introduction  
6.2 Transition of Telco toward an ISM firm  
Case — Integration of ISM-supporting concepts  
6.3 Integration: final conceptual framework  
6.4 SLIM-based Product Lifecycle Management  
6.5 Summary  

7. **Conclusion**  
7.1 Discussion and conclusions  
7.2 Limitations  
7.3 Further research opportunities  
7.4 Managerial contributions and recommendations: final remarks

Appendices  
*Appendix A — Abbreviations*  
*Appendix B — Research approach: Structured Case and Systematic Combining*  
*Appendix C — Overview of semi-structured interviews*  
*Appendix D — Mapping of innovation types in the literature on PPB product and process*  
*Appendix E — Business componentization ‘candidate concepts’ in the literature*
