K.G.Pillai
CHITTAGONG HILL TRACTS (CHT): Growth Potential in High Value Agriculture

Content
List of tables vii
Acronyms ix

CHAPTER I
CHT: THE REGION, NATURAL RESOURCES AND ECONOMY
Introduction 11
The economy of the region 14
Physiography and land use 17

CHAPTER II
HISTORICAL PERSPECTIVE OF AGRICULTURAL DEVELOPMENT, FOOD SECURITY AND POVERTY
Special features of tribal areas 20
Major constraints in tribal areas 21
Strategy for agricultural development in tribal areas 23
Income security 30
Nutrition security 31
Poverty 33
Historical perspective of food security 36
Current status of food security 38
Means of food security 40
Governmental initiatives in settlement programme 43

CHAPTER III
CONSTRAINTS IN HILL AGRICULTURE AND RURAL ECONOMY
Introduction 46
Limited agricultural land resources 47
Soil fertility and irrigation constraints 49
Environmentally unstable conditions 50
Land tenure system and improper land use planning 51
Marketing problems and inadequate R&D 52
The imperatives of hilly and mountain conditions 53

CHAPTER IV
JHUM CULTIVATION
Evolution and present status 57
Jhum practices and sustainability issues 58
CHAPTER V
CROP AGRICULTURE AND CROP DIVERSIFICATION
Field crops 62
Horticultural crops 65
Fruit crops: Commercialization approach 68
Production technology of important fruit crops 73
Advanced technology of focused crops (mandarin orange, cashew nut, litchi, jackfruit) 79
Medicinal and aromatic plants and improved production 101
technologies (amluki, ashok, beal, kokum, long pepper, Bahera, arjun, dhaiphui, neem, sarpagandha, shatomul and safed musli) 117
Global trend in use of essential oils 117
Opportunities for Bangladesh in aromatic plant sector 118
Spice crops 123
Small holder tea plantation 129
Organic farming 134

CHAPTER VI
AGRICULTURAL PRODUCTION SYSTEMS
Present status and alternate approach 144
A hypothetical model farm for the Hill Tracts 145
Sedentarisation and intensification of hill farming 147
Sustainable improvement of crop production in flat lands and foot-slopes 151
Appropriate production systems for the different land capability zones 152
Potential crops for different land capability zones 153
Potential crops needing R&D support 155

CHAPTER VII
SOURCES OF POTENTIAL GROWTH
Crop agriculture 159
Development of fisheries resources 160
Development of livestock resources 162
Ecotourism opportunities 164
Cultivation of Jatropha plant as bio-fuel source 165
Mushroom production 177
- Button mushroom 178
- Oyster mushroom 180
- Milky mushroom 181
- Reishi mushroom 183
- Shiitake mushroom 184
CHAPTER VIII
PROMOTIONAL PROGRAMMES IN AGRICULTURE
Introduction 187
Farm as the basic agricultural production unit 188
Agriculture and horticulture development programmes 189
Support to marketing systems 191
Settlement programmes 193

CHAPTER IX
AGRICULTURAL MARKETING AND AGRIBUSINESS
Marketing of fruits and vegetables 194
Current marketing practices of fruits and vegetables 198
Marketing channels of major fruits and vegetables 205
Women in marketing 209
Market centers 210
Post-harvest management, value addition and processing 223
Export opportunities and export protocols 234
French bean 235
Bitter gourd 237
Green hot chilli 238
Okra Baby 239

CHAPTER X
THE PATH AHEAD: DEVELOPMENTAL APPROACH and REQUIRED INTERVENTIONS

Literature consulted 254
