Enterprise Information Systems and Advancing Business Solutions:
Emerging Models

Madjid Tavana
La Salle University, USA
Table of Contents

Preface

Section 1
Emerging Enterprise Resource Planning Strategies

Chapter 1
Extending the Technology Acceptance Model to Investigate the Utilization of ERP Systems

Samar Mouakket, University of Sharjah, UAE

Chapter 2
A Proposition for Classification of Business Sectors by ERP Solutions Support

Alen Jakupovic, Polytechnic of Rijeka, Croatia
Mile Pavlic, University of Rijeka, Croatia
Neven Vrcek, University of Zagreb, Croatia

Chapter 3
An Exploratory Study of the Key Skills for Entry-Level ERP Employees

Alan R. Peslak, Penn State University, USA
Todd A. Boyle, St. Francis Xavier University, Canada

Chapter 4
E-Business and ERP: A Conceptual Framework toward the Business Transformation to an Integrated E-Supply Chain

Mahesh Srinivasan, The University of Akron, USA

Chapter 5
Critical Success Factors in Enterprise Resource Planning Implementation: A Case-Study Approach

Behrouz Zarei, University of Tehran, Iran
Mina Naeli, University of Tehran, Iran
Chapter 6
The Core Critical Success Factors in Implementation of Enterprise Resource Planning Systems ...... 86
Payam Hanqfizadeh, Allameh Tabataba'i University, Iran
Roya Gholami, Aston University, UK
Shabnam Dadbin, Allameh Tabataba'i University, Iran
Nicholas Standage, Aston University, UK

Chapter 7
Factors that Improve ERP Implementation Strategies in an Organization ........................................... 114
Chetan S. Sankar, Auburn University, USA

Section 2
Emerging Enterprise Information Technologies

Chapter 8
Future State of Outsourcing Supply Chain Information Systems: An Analysis of Survey Results.... 137
Seong-Jong Joo, Colorado State University, Pueblo, USA
Ikk Whan G. Kwon, Saint Louis University, USA
Chang Won Lee, Hanyang University, South Korea

Chapter 9
Effects of Reciprocal Investments and Relational Interaction in Deploying RFID Supply Chain Systems .................................................................................................................. 153
Rebecca Angeles, University of New Brunswick Fredericton, Canada

Chapter 10
Evaluating Information Systems: Constructing a Model Processing Framework ......................... 177
João Duarte, Technical University of Lisbon, Portugal
André Vasconcelos, Technical University of Lisbon, Portugal

Chapter 11
Message-Based Approach to Master Data Synchronization among Autonomous Information Systems .................................................................................................................................. 194
Dongjin Yu, Hangzhou Dianzi University, China

Chapter 12
Factors that Determine the Adoption of Cloud Computing: A Global Perspective ..................... 210
Bay Arinze, Drexel University, USA
Murugan Anandarajan, Drexel University, USA
Section 3
Emerging Software Development Technologies

Chapter 13
A Good Role Model for Ontologies: Collaborations ................................................................. 225
  Michael Pradel, Technische Universität Dresden, Germany
  Jakob Henriksson, Technische Universität Dresden, Germany
  Uwe Assmann, Technische Universität Dresden, Germany

Chapter 14
Linguistics-Based Modeling Methods and Ontologies in Requirements Engineering .......... 236
  Florian Lautenbacher, University of Augsburg, Germany
  Bernhard Bauer, University of Augsburg, Germany
  Tanja Sieber, University of Miskolc, Hungary
  Alejandro Cabral, Oracle Strategic Program, Argentina

Chapter 15
Semantic User Interfaces .............................................................................................................. 253
  Károly Tilly, Oracle, Hungary
  Zoltán Porkoláb, Eötvös Loránd University, Hungary

Chapter 16
Drivers of Organizational Participation in XML-Based Industry Standardization Efforts .... 268
  Rubén A. Mendoza, Saint Joseph’s University, USA
  T. Ravichandran, Rensselaer Polytechnic Institute, USA

Chapter 17
An Empirical Evaluation of the Assimilation of Industry-Specific Data Standards Using Firm-Level and Community-Level Constructs .......................................................... 287
  Rubén A. Mendoza, Saint Joseph’s University, USA
  T. Ravichandran, Rensselaer Polytechnic Institute, USA

Chapter 18
Toward UML-Compliant Semantic Web Services Development ............................................. 313
  Diana M. Sánchez, Rey Juan Carlos University, Spain
  César J. Acuña, Rey Juan Carlos University, Spain
  José María Cavero, Rey Juan Carlos University, Spain
  Esperanza Marcos, Rey Juan Carlos University, Spain

Chapter 19
Integrating Web Portals with Semantic Web Services: A Case Study .................................. 326
  César J. Acuña, Rey Juan Carlos University, Spain
  Mariano Minoli, Rey Juan Carlos University, Spain
  Esperanza Marcos, Rey Juan Carlos University, Spain
Chapter 20
Semantics for Accurate Conflict Detection in SMoVer: Specification, Detection and Presentation by Example .................................................................................................................. 337

Kerstin Altmanninger, Johannes Kepler University Linz, Austria
Wieland Schwinger, Johannes Kepler University Linz, Austria
Gabriele Kotsis, Johannes Kepler University Linz, Austria

Compilation of References .......................................................................................... 354

About the Contributors .............................................................................................. 394

Index ............................................................................................................................ 403
