Preface.........................................................................................................................ix
Acknowledgments .......................................................................................................xi
About the Editors .........................................................................................................xiii
List of Design for Six Sigma Project Team Members and
Contributing Authors .................................................................................................xv

1 Instructional Strategies for Using This Book.........................................................1
   Elizabeth Cudney and Sandra Furterer

2 Design for Six Sigma Identify-Define-Design-Optimize-
   Validate (IDDOV) Roadmap Overview.................................................................5
   Sandra Furterer and Elizabeth Cudney

Section I  Product Design for Six Sigma Projects

3 Design of a Walker—A Design for Six Sigma Case Study .................................51
   Anas AlGhamri, Çiğdem Sheffield, Lisette Sandoval, Elizabeth Cudney,
   and Sandra Furterer

4 Design of a Military Tool Holder—A Design for Six Sigma Case Study
   ..............................................................................................................................81
   David Moore, Antonio Ward, Bruce Lane, Thomas Fitzpatrick, Elizabeth
   Cudney, and Sandra Furterer

5 Design of a Can Crusher—A Design for Six Sigma Case Study .......... 103
   Amogh Shenoy, Austin Das, Sagnik Saha, Sumant Joshi, Elizabeth
   Cudney, and Sandra Furterer

6 Design of a Hazardous Chemical Cleanup System—A Design
   for Six Sigma Case Study ......................................................................................133
   Benjamin Dowell, James Baker, Prajakta Bhagwat, Neil Kester, Elizabeth
   Cudney, and Sandra Furterer

7 Design of Radio-Frequency Coverage for Wireless
   Communications—A Design for Six Sigma Case Study ...................................159
   Roger Ates, Elizabeth Cudney, and Sandra Furterer

8 Solar-Heated Jacket—A Design for Six Sigma Case Study .........................185
   Nick Paul, Josef Garcia, Adam Samiof, Elizabeth Cudney, and Sandra Furterer
Contents

9 Traveling Jewelry Box—A Design for Six Sigma Case Study ..........209
    Robert Jackson, Kayla Najjar, Elizabeth Cudney, and Sandra Furterer

10 Design of an Optical Mouse—A Design for Six Sigma
    Case Study ..................................................................................239
    Priya Dhuwalia, Soundararajan Chandra Moleeswaran, Swathi Priya
    Pedavalli, Vishwanath Narayanan, Elizabeth Cudney, and Sandra Furterer

11 Design of a Duffel Bag—A Design for Six Sigma Case Study .......265
    Jason Castro, Colby Krug, Patrick McCarthy, Elizabeth Cudney,
    and Sandra Furterer

Section II   Service Process Design for Six Sigma Projects

12 Design of Women's Center Service Processes—A Design for
    Six Sigma Case Study ....................................................................291
    Sandra Furterer

13 Project Charter Review Process Design— A Design for
    Six Sigma Case Study ....................................................................339
    Sandra Furterer

14 Information Technology (IT) System Changes—A Design for
    Six Sigma Case Study ....................................................................391
    Patricia Long, Jamison Kovach, David Ding, Elizabeth Cudney, and
    Sandra Furterer

15 The Future and Challenges of Design for Six Sigma ..................415
    Elizabeth Cudney and Sandra Furterer

Index .................................................................................................421
