RISK AND BANK EXPANSION INTO NONBANKING BUSINESSES

EEK-JUNE CHUNG

GARLAND PUBLISHING, INC.
NEW YORK & LONDON / 1995
Contents

I. Introduction 3

II. A Review of Literature 5

III. Weaknesses of Current Literature 11

IV. An Outline of Our Approach 15

V. Model Specification 19

VI. Data and Estimation Procedure 23

1. Data 23
   1.1. Sample Period 23
   1.2. Sample Size 23

2. Empirical Procedure 24
   2.1. Estimation of the Implied Volatilities, σ_A 24
   2.2. Estimation of Correlation 27
   2.3. Estimation of the Expected Returns, M_A 27
   2.4. Estimation of Z Values 28

VII. Empirical Results 31

1. Volatilities of Rates of Return on Assets, σ_A 31
   1.1. Unmerged Industries 31
   1.2. Hypothetically Merged BHC Industries 44

2. Profitability in Terms of M_A 57
2.1. Unmerged Industries 57
2.2. Hypothetically Merged BHC Industries 63

3. Z values 65
3.1. Unmerged Industries 65
3.2. Hypothetically Merged Industries 71

4. Results from Partial Mergers (5%, 20%, and 50%) 84
4.1. Volatilities of Asset Returns, $\sigma_A$ 84
4.2. Z values 84
4.3. Summary of Partial Mergers 85

VIII. Conclusions 89

Appendix 1 - 12: Quarterly $\sigma_A$ of the Sample Firms 91
Appendix 13 - 16: Quarterly $\sigma_A$ of Partial Mergers 119
Appendix 17 - 20: Quarterly Z Values of Partial Mergers 127
