The Risk Control of Accounts Receivable for SMEs

WANG Lixin, XIE Jiao ............................................................................................................................... 382

Study on Financing Channels Construction of Agro-related SMEs in China

LI Ruifen, YUAN Xiaowei .......................................................................................................................... 392
Chapter Five

Manufacturing Cluster and Integration
The Research on the Dynamic Factors of the Mature Stage of SME Cluster—Take Gaoyang Textile Cluster for Example

YU Shujiang, LIU Jingxia ........................................................................................................... 459

XIA Xunjia, LIAO Xin ............................................................................................................... 464

Coupling Development Analysis Between Small and Medium Sized Enterprises Cluster and Supply Chain Alliance

LIAN Yuanqiang ................................................................................................................... 471

Information, Risk and Vertical Integration Choice An Empirical Study Based on Chinese Automobile Industry

XU Zhihong, XU Bin ............................................................................................................... 476

American Southwest Airlines Winning in Markets Competition is the Typical Case Analysis and Enlightenment

JIANG Wenqin, LI Songqing ................................................................................................. 483

Research on the Developing Circular Economy of YNCC

LIN Xiuqun, TANG Xiangyang .............................................................................................. 488

Research on How the Small and Medium-sized Real Estate Companies Cope with the Macro-control of Real Estate Industry

ZHANG Zhang, ZHOU Xinwang ............................................................................................ 493

Study on Upgrading Mode and Path Choice of Small-Medium Enterprise Clusters Based on Supply Chain Management

LIU Zhenbin, MA Yihua ......................................................................................................... 499

The Study of Enhancing the Logistics Coordination Operational Capability of the SMEs

LI Taoran .................................................................................................................................. 505

Research on Small and Medium-sized Enterprise Clusters in Wuhan Optical Valley

XU Niya .................................................................................................................................... 510

Research on the Driving Logics of Alliances Forming and Circulation
Management — From Value Creating Perspective

SONG Lili .................................................................................................................. 515

Discussion on the Development Strategies of Small and Medium Construction Enterprises

XU Yuanyuan ........................................................................................................... 520

Ways to Develop Industrial Cluster of Sports Product Manufacturing Enterprises in Hebei Province

WANG Yukuo, PEI Yanli ........................................................................................ 525

Study on SMEs Cluster Model Based on the Third-party EC Platform

DENG Zhao, HU Yuanlin ......................................................................................... 530

Chapter Six

Innovation and Competitive Advantage

Predicament and Countermeasure of Leveraging the Innovation Capability of SMEs in Fujian Province — A Study Based on the Theory of Total Innovation Management

FANG Jincheng, ZHU Bin ..................................................................................... 537

Study on Science and Technology Enterprise Incubators Boosting SMEs’ Development

LI Lei, WANG Xindong .......................................................................................... 542

The Technological Innovation Research Based on Knowledge Management

LIAO Xin, XIA Xunjia .............................................................................................. 549

Restudy on the Relation Between Enterprise Size and R&D Input and Output: Case Study of High-tech Enterprises in Shandong Province

YANG Huixin, WANG Song, JIN Jiayu .................................................................. 557

High-Technique Enterprise Growth Mechanism Based on Open Innovation

SUN Shaofu ................................................................................................................ 564
A Research on Technological Innovation of Small and Medium Enterprises in Pingdingshan City

SUN Yahuı ................................................................. 569

Analysis on Performance Appraisal Management System of Small Architectural Design Firm

CAI Hong, JIANG Xilong .................................................. 574

Study on the Core Competitiveness of Small and Medium-Sized Enterprises

SI Jiangwei .................................................................. 585

Study of Alliance Service Model for SMEs Management Innovation Based on Government-enterprise Cooperation

ZHANG Litao, HAN Dali ..................................................... 590

Construct the Evaluation Index System of Technology Innovation Capability of SMEs

CHEN Lin, LIU Hongbo, LIU Cheng ..................................... 595

Enhance SME's Competitiveness Using BSC

LIU Nan, JIANG Taiyuan ................................................... 603

Study on the Technology Innovation Issues in Small-and-medium Enterprises in China

BAI Aizheng .................................................................. 608

Empirical Study of Tacit Knowledge Management on Innovation

HE Xujun, ZHANG Yong'an ............................................... 616

The System Innovation for SMEs in Northern Part of Jiangsu Province

CHEN Jiali .................................................................... 620

Comprehensive Evaluation on the Technological Innovation Capability of the Small-and-Medium Enterprises Based on DEA

ZHAO Hongmei ................................................................. 624

The Researches on the Evaluation Method of Service Enterprises’ Competitiveness Based on the Binary Semantic

PANG Mi, CHEN Lijun .......................................................... 628
Protection of Intellectual Property Strategy for SMEs in China

LIU Yuhui ........................................................................................................... 635

Legal Environment Construction and Protection of Intellectual Property Rights for SMEs

DU Aixia ............................................................................................................. 639

Small and Medium-sized Enterprise Management Innovation to Strengthen the Necessity and Conditions

HU Yansong ...................................................................................................... 646
