Towards an Ethical-ecological Assessment of Companies in Nigeria

An Empirical Inquiry into the Relevance or Otherwise of the Frankfurt-Hohenheim Guidelines for the Ethical Assessment of Companies in the Nigerian Context

A Case of the Nigerian Microfinance Banking Sector
# Table of Contents

Abbreviations .................................................................................. 17

Abstract ........................................................................................... 19

Part I: Preliminaries .......................................................................... 23

1. Introduction .................................................................................. 25
  1.1 Background ............................................................................. 25
    1.1.1 The Issues from a Global Perspective ......................... 25
    1.1.2 The Quest for Sustainable Development .................. 27
    1.1.3 Companies as Platforms of Ethical-ecological Sustainability .. 30
    1.1.4 Nigeria in ethical-ecological perspectives ............... 31
  1.2 Statement of Problem and Research Objectives ................. 40
  1.3 Hypothesis ............................................................................. 44
  1.4 Methodology ......................................................................... 44
  1.5 Delimitation of Scope ............................................................ 47
  1.6 Structure of Work .................................................................. 48

2. The Context of our Study .............................................................. 51
  2.1 Nigeria .................................................................................. 51
    2.1.1 A Brief Introduction of the Country ...................... 51
    2.1.2 Geopolitical and Socio-economic Context ............... 52
      2.1.2.1 Introduction ....................................................... 52
      2.1.2.2 Brief But Salient Facts About Nigeria ............. 53
      2.1.2.3 Poverty in Nigeria .......................................... 55
    2.1.3 The Context in which Businesses Operate in Nigeria .... 57
    2.1.4 A Brief History of Evolution and Development of Companies in Nigeria ........................................ 59
  2.2 Microfinance as a New Sustainable Investment Vehicle for Poverty Alleviation ......................................................... 63
    2.2.1 Introduction ................................................................. 63
    2.2.2 The Concept of Microfinance .................................... 65
    2.2.3 The Historical Evolution and Development of Microfinance .... 67
2.2.4 Microfinance, Sustainable Development and Socially Responsible Businesses ............................................. 68
2.2.5 Microfinance and Microfinance Banking in Nigeria .......................................... 70
2.2.6 Conclusion ................................................................................................................. 72

Part II Theoretical Framework ................................................................................................. 75

3. History and Stand of the Discourse and Praxis of Ethical Investment and Ethical-Ecological Assessment of Companies .......................................................... 77
3.1 General Introduction ........................................................................................................ 77
3.2 Ethics and Business: A Brief History of a Controversial Relationship .... 80

5.3.3.3 Virtues 1: (Cardinal Virtues): The Following items are desirable virtues in their own right: ................................................................. 177

5.3.3.3.1 Truth telling ........................................................................ 177

5.3.3.3.2 Justice ........................................................................... 178

5.3.3.3.3 Prudence ....................................................................... 179

5.3.3.3.4 Courage in the sense of steadfastness ......................... 180

5.3.3.3.5 Peacefulness .................................................................. 181

5.3.3.3.6 Sense of proportion and restraint .................................. 182

5.3.3.4 Virtues 2 (Secondary Virtues): The following items are desirable virtues to the extent that they are practised in the service of higher moral principles. To the extent they are placed in service of low moral principles they stop being virtues! ................................................................. 183

5.3.3.4.1 Diligence ...................................................................... 183

5.3.3.4.2 Punctuality .................................................................. 184

5.3.3.4.3 Cleanliness ................................................................... 185

5.3.3.4.4 Orderliness ................................................................... 186

5.3.3.4.5 Obedience .................................................................... 187

5.3.3.4.6 Flexibility .................................................................... 188

5.3.3.4.7 Mobility ....................................................................... 189

5.3.3.4.8 Empathy ....................................................................... 190

5.4 Summary and Conclusion ................................................................. 191

5.4.1 Responses to The 10 General Moral Principles (%) ....................... 191

5.4.2 Responses to Questions Flowing from the General Moral Principles (%) ......................................................................................... 193

5.4.3 Responses to the Anthropologically Given Motivational Factors (%) ......................................................................................... 195

5.4.4 Virtues and Orientations ................................................................. 196
5.4.4.1 Responses to the Orientations ........................................ 196
5.4.4.2 Response to the Cardinal Virtues .................................. 197
5.4.4.3 Response to the Secondary Virtues ................................. 198
5.5 Test of Relevance .................................................................. 199
5.5.1 Comparative Summation of the Two Givens ....................... 200

6. Examining the Relevance of the Social Compatibility Criteria in the Nigeria Context .................................................................. 203
6.1 Social Compatibility / Sustainability Survey .......................... 203
6.2 Hypothesis ............................................................................. 203
6.3 Questionnaire Evaluation and Results ..................................... 203
  6.3.1 Question 1: Commitment to Corporate Social Ethics .......... 203
  6.3.2 Question 2: The Relevance of Units dealing with Socio-ethical Issues ................................................................................. 206
  6.3.3 Question 3: The Location of Social/Ethical Affairs in the Management Hierarchy .......................................................... 208
  6.3.4 Question 4: Confidential Possibilities of Reporting Grievances related to Working conditions ........................................... 209
  6.3.5 Question 5: Audit and Surveys in Employee Satisfaction, health and Safety, Non Discrimination, etc. ................................. 211

6.9.1 Question 8: Restrictions on Voting Rights ..................................... 245
6.9.2 Question 9: Shareholding Size as Precondition for Submitting Resolution at the AGM .................................................. 246
6.9.3 Question 10: Facilitating Shareholder Participation .............. 247
6.9.4 Question 11: Disclosure of Compensation Scheme for Executive Board members .................................................. 248
6.10 Community Involvement .............................................. 249
6.10.1 Question 12: Responsibility for Community projects .......... 249
6.10.2 Question 13: On Making Political Contributions ................ 251
6.11 Society ..................................................................... 252
6.11.1 Question 14: Respect for Human Rights ....................... 252
6.11.2 Question 15: Fair treatment of peoples affected by Companies’ activities .......................................................... 253
6.12 Fair Business Practices .............................................. 254
6.12.1 Question 16: Code of Conduct regarding corruption and economic fraud ......................................................... 254
6.12.2 Question 17: Measures to ensure fair business practices .... 255
6.13 Summary and Conclusion ........................................... 257
6.13.1 Total Average of the Responses to the Social/Cultural Management (A.1) ............................................................ 257
6.13.2 Text of Relevance for A.1 ........................................... 258
6.13.3 Total Average of the Responses to Staff Relations (A.2) ...... 259
6.13.4 Text of Relevance for A.2 ........................................... 260
6.13.5 Total Average of the Responses to Relations with External Stakeholders (A. 3) ...................................................... 261
6.13.6 Test of Relevance for A.3 ........................................... 262

7. Recapitulation and Synopsis ............................................ 265
7.1 Major Moments of the Work .......................................... 265
7.1.1 Theoretical Basis of the Investigation ............................ 265
7.1.2 Ethical Rating in Nigeria ............................................ 267
7.1.3 The Frankfurt-Hohenheim Guidelines as the Framework of the Study .............................................................. 271
7.1.4 Methodological Issues ............................................. 272
7.1.5 Summary of Findings .............................................. 273
7.1.5.1 Cultural Sustainability/Compatibility Criteria ............. 273
7.1.5.2 Social Sustainability/Compatibility Criteria .............. 275
7.2 Reflection on the Findings ............................................ 275
7.2.1 The FHG as an Innovative Instrument in Ethical-ecological Rating .................................................. 276
7.2.2 The Transferability of the FHG Social and Cultural Criteria .......... 279
7.2.3 The Necessity of Ethical-ecological Criteria for Rating Companies in Nigeria ........................................... 280
7.2.4 The Potentials of FHG in the Nigerian Context ......................... 282
7.2. The FHG with modifications can be downloaded in the Nigerian context .................................................................................................................. 282

8. Closing Submissions ........................................................................ 285
Annex 1 ................................................................................................. 287
Annex 2 ................................................................................................. 311
Bibliography ......................................................................................... 329
