List of abbreviations xii

1 What is to come? 1

2 Thinking about the im-possible risk in the financial industry 13
   Perhaps – and other ingredients of risk 13
   From taking risk to calculation 30
   Future – the attempt to order future; or, risk turns out to be order 35

3 Risk – the sovereign exception 46
   The included excluded: a parable of risk management which went fatally wrong 47
   The sovereign exception 48
   Prince Prospero and the state of exception 51
   Securitization (of debt) 52
   Financial markets and the state of exception 55

4 The displaced world of risk: risk management as alienated risk (perception?) 59
   Locusts as a metaphor for evil behaviour 59
   Risk: globalized calculations of return 61
   After globalization – living in the globalized world 63
   Postsocial relationships: acting in a projected environment 66
   Are the locusts back? Or, are investors locusts at all? 68

5 From ‘risk and responsibility’ to the risk of responsibility 69
   Responsibility 71
   The bearer of responsibility 73
