FARM INCOMES, WEALTH AND AGRICULTURAL POLICY

Filling the CAP's Core Information Gap

Berkeley Hill

Emeritus Professor of Policy Analysis
University of London
(Imperial College London)
## Contents

*List of tables* viii  
*List of figures* ix  
*Preface* Xi

### Chapter 1 Introduction

1.1 Approaches to income 2  
1.2 The income information system 4  
1.3 A conspiracy of ignorance? 5  
1.4 Appropriate indicators 8  
1.5 Wealth 8  
1.6 Information and decisions 9  
1.7 The plan of the rest of the book 13

### Chapter 2 Incomes and Agricultural Policy

2.1 Fundamental economic forces 14  
2.2 The aims of agricultural policy 17  
2.3 Official statements of policy for the EU 20  
2.3.1 The agricultural community and the family farm 27  
2.4 National agricultural policies in the EU - the cases of the UK and Germany 28  
2.5 Income objectives in non-EU industrialised countries 30  
2.6 Elucidating the income objectives of agricultural policy 33  
2.7 Income information and the general theory of data systems 35  
2.8 In conclusion 38

### Chapter 3 Conceptual Issues

3.1 Standard of living 40  
3.2 Consumption and living standards 43  
3.3 The assessment of poverty 45  
3.4 Agricultural incomes and the welfare of farmers 49  
3.4.1 Accounting systems and measures of income 50  
3.5 Aspects of personal income 52  
3.5.1 General definition of personal income 52  
3.5.2 The household unit 55  
3.5.3 Accounting for and valuing non-money income 56  
3.5.4 Capital gain and income 59  
3.5.5 The importance of time 62  
3.6 Disposable income 63  
3.7 Multiple-activity households 65  
3.7.1 Classifying households into agricultural and non-agricultural groups 68  
3.7.2 Decisions of multiple-activity agricultural households 74  
3.8 Family and non-family farms 76  
3.9 Deductions from income 77  
3.10 Wealth and economic status 80  
3.11 Summary and conclusions 82

### Chapter 4 Indicators of Income from Agricultural Production

4.1 Agriculture in the national accounts 85  
4.2 The production branch agriculture – methodology used up to 1998 86
4.3 The new system (1999 onwards) for measuring the production activities of
the agricultural industry
4.3.1 Main features of the EAA97
4.3.2 The basic unit under the revised system
4.3.3 Measuring output – replacing Final production with Total production
4.3.4 Valuation of output at basic prices
4.3.5 Consumption of fixed capital
4.3.6 Comment on the changes
4.4 Derivation of income indicators from the branch agriculture account
4.4.1 Aggregate income indicators in the EU to 1998
4.4.2 Indicators of ‘income’ from agricultural production since 1999
4.4.3 Aggregate income indicators in the UK
4.5 Official microeconomic information on the incomes from agricultural
production – farm accounts surveys
4.5.1 The United Kingdom’s Farm Business Survey
4.5.2 The EU’s Farm Accountancy Data Network (FADN or RICA)
4.6 Patterns in aggregate economic accounts for agriculture – two case studies
4.6.1 Historical development of the Farming Income indicator in the UK
4.6.2 Aggregate indicators in the United States of America
4.7 Levels and changes in levels of income from production in EU official income
indicators
4.7.1 Industry-level income indicators
4.7.2 Farm Accountancy Data Network results
4.7.3 Comparisons between patterns in aggregate and microeconomic
indicators
4.8 Relative reward in agriculture and the rest of the economy
4.8.1 The reward to farming entrepreneurship
4.8.2 Assertions by the Commission
4.9 Income stability
4.10 Summary and comment

Chapter 5 Incomes of Agricultural Households
5.1 Introduction
5.2 National accounts and the households sector
5.3 Aggregate statistics on the total income of agricultural households (IAHS
statistics) in the EU
5.3.1 Definition of net disposable income
5.3.2 Definition of a household
5.3.3 Definition of an agricultural household (‘narrow’ definition in
Eurostat’s IAHS statistics)
5.3.4 Definition of an agricultural household (‘broad’ definition in
Eurostat’s IAHS statistics)
5.4 Results from Eurostat’s IAHS statistics
5.4.1 Numbers of agricultural households
5.4.2 Composition of income of agricultural households
5.4.3 Deductions from income – taxation and other items
5.4.4 Stability of income of agricultural households
5.4.5 Comparisons of income of agricultural households with the all-
households average
5.4.6 Income situation of ‘marginal’ households
5.5 Microeconomic data and potential data sources
5.5.1 Types of data sources
5.6 Country results using microeconomic data
5.6.1 Denmark
5.6.2 Germany
