New Paradigms in Financial Economics
How would Keynes reconstruct economics?

Kazem Falahati
Contents

List of figures xiv
List of tables xv
Preface xvi
List of abbreviations and acronyms xix

1 Introduction 1

2 Irrational foundations of ‘rational’ behaviour in the standard paradigm 6
   2.1 Foundation of ‘rational’ individuals’ behaviour 9
   2.2 Foundation of ‘rational’ pricing theory 20
   2.3 Use and abuse of mathematics in economics and finance 35

3 Contradictions of the Marxian paradigm 37

4 The new paradigm 39
   4.1 Common ground with existing literature 40
   4.2 Our assumptions on economic behaviour, friction and liquidity 44
   4.3 Fundamental assumption of the new paradigm and its implications 50
   4.4 Role of money, reason for its existence and its time-value 60
   4.5 Multi-pricing in efficient, frictionless and competitive markets 62

5 Resolution of puzzles in microeconomics 66
   5.1 Puzzles of theory 66
   5.2 Puzzles from experience and experiments 69
Contents

6 Resolution of puzzles in finance 76
   6.1 Capital structure and debt-capacity 79
   6.2 Dividend policy and excess volatility of share prices 87
   6.3 Corporate control premium, discount to full net asset value and winner's curse 90
   6.4 Alternatives to Markowitz’s portfolio theory 93
   6.5 Foundations of the accounting ‘identity’ 95

7 Resolution of puzzles in macroeconomics 98
   7.1 The new macroeconomic model of the economy 99
   7.2 Reasons for the emergence of endogenous imbalances 100
   7.3 Banks in the new model 102
   7.4 Reasons for the emergence of endogenous macroeconomic swings 110
   7.5 Pricing of risk during imbalances 112
   7.6 Consequences of Central Bank decisions 122
   7.7 Uneven economic development within the same economy 126

8 Economic role of the State 130

9 The recent global financial crisis 143
   9.1 Excessive loan growth scenario and its aftermath 143
   9.2 International dimensions of the recent global financial crisis 146
   9.3 Authorities’ handling of the early signs of the crisis 150
   9.4 Authorities’ handling of the crisis and its aftermath 152
   9.5 Minimizing further damage from the crisis in the Euro-zone 157

10 Conclusion, policy and research recommendations 161
   10.1 Conclusion 161
   10.2 Policy recommendations 165
   10.3 Future research 166

Appendix 1 A review of some of the academically more popular paradigms 168

Appendix 2 A review of some of the academically less popular paradigms 173

Appendix 3 Existing literature on resolution of puzzles in corporate finance 179
