Preface vii

PART I BACKGROUND

1 An overview of nature-based tourism and conservation 3
2 The growing importance of nature-based tourism: its evolution and significant policy issues 32
3 The user-pays principle and conservation in national parks: review and Australian case study 63

PART II TOURISM, PROTECTED AREAS AND NATURE CONSERVATION

4 World Heritage listing of Australian natural sites: effects on tourism, economic value and conservation 95
5 Antarctic tourism: environmental concerns and the importance of Antarctica's natural attractions for tourists 128
6 Rainforest tourists: wildlife and other features attracting visitors to Lamington National Park, Australia 177
7 Are tourists rational? Destination decisions and other results from a survey of visitors to a north Queensland natural site - Jourama Falls 215
8 A case study of an NGO's ecotourism efforts: findings based on a survey of visitors to its tropical nature reserve 255

PART III PARTICULAR WILDLIFE SPECIES OR GROUPS OF SPECIES AS TOURIST ATTRACTIONS

9 Tourism as a force for conserving sea turtles under natural conditions 287
Nature-based tourism and conservation

10 The role of open-cycle hatcheries relying on tourism in sea turtle conservation: a blessing or a threat? 310
11 Whale-watching as a tourism resource and an impetus for the conservation of whales 337
12 Little penguins and other seabirds as tourist drawcards 355
13 Yellow-eyed penguins and royal albatross as valuable tourist attractions 381
14 Glow-worms and other insects entice tourists 402
15 Tree-kangaroos, tourism and conservation: a study of a little-known species 431

PART IV THIS STUDY IN RETROSPECT

16 General conclusions 455
