Preface .................................................. xxii
Acknowledgements ..................................... xxiii

INTRODUCTION AND ORGANIZATION ......................... 1
  Why Fiscal Impact Analysis?
  Definition and Concepts
  Fiscal Impact Analysis and Other Evaluative Strategies
  Calculating Costs
  Calculating Revenues
  General Applicability
  Why the Handbook?
  Organization of the Handbook
  Analyst’s Guide

PART 1. CALCULATING COSTS: METHODS OF PROJECTING MUNICIPAL
AND SCHOOL DISTRICT COSTS ................................. 11
  CHAPTER 1. RELATING METHODS TO TASKS AND CONTEXTS
  OF FISCAL IMPACT ANALYSIS .............................. 15
  INTRODUCTION
  What Methods are Used, Where, When?
    Per Capita Multiplier Method
    Case Study Method
    Service Standard Method
    Comparable City Method
    Proportional Valuation Method
    Employment Anticipation Method
  Method Choice/Employment and the Interpretation of Results
  The Use of Multiple Methods in Pursuit of a Single Fiscal Impact Solution
  The Settings for the Demonstrated Cost Calculations
  CHAPTER 2. PER CAPITA MULTIPLIER FISCAL IMPACT
  METHOD .................................................. 25
  Background
  Application
Basic Assumptions
Procedures
Step 1 Obtain Information on Budgets, Current Population and Assessments
Step 2 Categorize Local Expenditures into Five Municipal Service Categories Plus the School District Function.
Step 3 Obtain Total Annual Municipal (by service category) and School District Expenses (including operating and debt service costs)
Step 4 Assign a Share of Annual Per Capita and Per Pupil Expenditures
Step 5 Calculate Net Annual Per Capita and Per Pupil Expenditures
Step 6 Calculate Anticipated Total Resident and School Population by Housing Type
Step 7 Calculate Residentially-Induced Total Annual Municipal and School District Total Expenses
Step 8 Calculate Municipal Costs for Inclusive Nonresidential Uses
Step 9 Determine Total Annual Public Costs and Distribute Costs Both by Municipal Service and by Municipal and School District Operating Versus Debt Service Expenditures
Step 10 Project Total Annual Revenues
Step 11 Calculate the Cost-Revenue Surplus or Deficit
Data Requirements
Sophistication of User
Advantages and Disadvantages
   Advantages
      Simplicity/Low Cost
      Operational Utility
      Acceptability
   Disadvantages
      Richness of Detail
Interpreting Results

CHAPTER 3. CASE STUDY FISCAL IMPACT METHOD ............. 45
Background
Application
Basic Assumptions
Procedures
   Step 1 Contact Local Officials
   Step 2 Categorize Public Service Functions and Delineate Responsibilities
   Step 3 Determine Excess and Deficient Service Capacity
   Step 4 Project Population Increases and Population Induced Demand
   Step 5 Determine Anticipated Local Service Response
   Step 6 Project Total Annual Public Costs
   Step 7 Project Total Annual Public Revenue
   Step 8 Calculate the Cost Revenue Impact
Data Requirements
Sophistication of User
Advantages and Disadvantages
   Advantages
      Richness of Detail
      Operational Utility
      Acceptability
   Disadvantages
      The Accuracy of Public Projections
Interpreting Results
CHAPTER 4. SERVICE STANDARD FISCAL IMPACT METHOD. . . 67
Background
Application
Basic Assumptions
Procedures
  Step 1 Determine Population and Student Increase Resulting from Growth
  Step 2 Project Number of Public Employees Resulting from Growth
  Step 3 Calculate Average Operating Costs
  Step 4 Project Total Annual Operating Costs
  Step 5 Project Total Annual Capital Costs
  Step 6 Project Total Annual Public Costs
  Step 7 Project Total Annual Public Revenues
  Step 8 Calculate the Cost-Revenue Surplus or Deficit
Data Requirements
Sophistication of User
Advantages and Disadvantages
  Advantages
    Richness of Detail
    Operational Utility
    Acceptance
    Simplicity/Low Cost
  Disadvantages
Interpreting Results

CHAPTER 5. COMPARABLE CITY FISCAL IMPACT METHOD. . . 97
Background
Application
Basic Assumptions
Procedures
  Step 1 Determine Population/Student Growth
  Step 2 Obtain Appropriate Expenditure Multipliers and Calculate the Rate of Change in the Multipliers
  Step 3 Calculate Current Average Operating and Capital Expenditures Per Capita
  Step 4 Calculate Future Average Operating and Capital Expenditures Per Capita
  Step 5 Determine Net Costs Attributable to Growth
  Step 6 Project Total Annual Public Revenues
  Step 7 Calculate the Cost-Revenue Impact
Data Requirements
Sophistication of User
Advantages and Disadvantages
  Advantages
    Time and Cost
    Availability of Required Data
  Disadvantages
    Validity of the Expenditure Multipliers
    Detail
    Acceptance
Interpreting Results

CHAPTER 6. PROPORTIONAL VALUATION FISCAL IMPACT METHOD . . . 119
Background
Application
Basic Assumptions

Procedures
Step 1 Assemble and Prepare Base Data
Step 2 Assign a Share of Existing Municipal Expenditures to Total Local Non-residential Uses
Step 3 Project the Future Total Municipal Operating Costs Induced by the Future Non-residential Use
Step 4 Assign Total Annual Non-residential Facility Costs to Component Service Categories
Step 5 Project Total Annual Public Revenue
Step 6 Calculate the Cost Revenue Impact

Data Requirements

Sophistication of User
Advantages and Disadvantages

Advantages
Time and Cost
Availability of Required Data
Acceptance

Disadvantages
Validity of the Refinement Coefficients

Interpreting Results

CHAPTER 7. EMPLOYMENT ANTICIPATION FISCAL IMPACT

METHOD ............................................................... 135

Background
Application
Basic Assumptions
Procedures
Step 1 Determine Per Capita Municipal Expenditures by Service Category
Step 2 Obtain Anticipated Employment for the New Commercial or Industrial Facility From Developer Estimates or by Multiplying the Average Number of Employees Per Square Foot for a Comparable Facility
Step 3 Using Known Direction of Growth Over the Previous Decade and Current Population Size, Choose the Applicable Percentage Increase Per Employee, by Service Category, in Per Capita Municipal Costs
Step 4 Multiply the New Employment Increment by the Percentage Increase in Per Capita Costs Per Employee to Obtain Total Percentage Increase for Each Service
Step 5 Multiply the Percent Increase in Per Capita Expenditures Per Service Category by the Existing Per Capita Dollar Expenditure in that Service Category to Obtain the Per Capita Dollar Increase for Each Service
Step 6 Multiply Dollar Per Capita Expenditure Increase in Each Service Category by the Existing Population to Obtain the Municipal Cost Increase for Each Municipal Service Assignable to the Nonresidential Facility
Step 7 Project Total Annual Public Revenues
Step 8 Calculate the Cost-Revenue Impact

Data Requirements

Sophistication of User
Advantages and Disadvantages
Advantages
Operational Utility
Detail
Simplicity/Cost

Disadvantages
Interpreting Results

PART 2. CALCULATING REVENUES: METHODS OF FISCAL IMPACT

REVENUE PROJECTION ................................................................. 149

CHAPTER 8. REVENUE TRENDS ...................................................... 153

Municipal and School District Revenue Resources
Intergovernmental Transfers
  Overview
  Regional Patterns

Own Source Revenues
  Taxes
    Property Tax
    Overview
    Regional Patterns
  Sales Tax, Income Tax, and Other Taxes
    Overview
    Sales Tax
    Income Tax
    Other Taxes
    Regional Patterns

Charges and Miscellaneous Revenue
  Overview
  Regional Patterns

Summary — The Revenue Systems of Municipalities and School Districts

CHAPTER 9. PROJECTING MUNICIPAL AND SCHOOL DISTRICT

OWN SOURCE REVENUES ......................................................... 179

Own Source Revenues: Property, Income, Sales and Other Taxes ...........
  Real Property Tax .................................................................
  Personal Property Tax
  Earned Income Tax
  Sales Tax
    Residential Development
    Non-residential Development
  Real Property Transfer Tax
  Occupation and Business Privilege Tax
  Per Capita Tax
  Transient Occupancy Tax

Own Source Revenues: Miscellaneous Revenues and User Charges
  Interest Earnings
  Fees and Permits
  Fines, Forfeitures and Penalties
  User Chargers for Special Services
  User Chargers for Water, Sewerage and Sanitation Services

CHAPTER 10 ................................................................. 195

SECTION I. PROJECTING MUNICIPAL AND SCHOOL DISTRICT

INTERGOVERNMENTAL REVENUES

Intergovernmental Transfers: State
  Redistribution of State-Levied Sales Taxes
Redistribution of State-Levied Income Tax
Redistribution of State Leved Motor Fuels Tax
Redistribution of State Levied Cigarette and Alcohol Taxes
Redistribution of Incorporated/Unincorporated Business Tax
State Road/Street Lighting Aid
Redistribution of Public Utilities Franchise/Gross Receipts Tax
State Aid to Urban or Rural Areas
State Homestead and Property Tax Relief Reimbursement
Educational Support
Educational Basic Support via Flat Grants
Educational Basic Support via Foundation Aid
Educational Basic Support via Variable Guarantees
Educational Assistance via Categorical Aid
Educational Assistance via State Apportioned Federal Programs

Intergovernmental Revenue: Federal
State-Local Fiscal Assistance Act of 1973 (Federal Revenue Sharing)
Public Law 92-512; 86 STAT 919
Comprehensive Employment and Training Act (CETA) of 1972-Public Law 93-203; 87 STAT 839.
Public Works Employment Act of 1976 (Anti-recession or Counter-cyclical Aid) Public Law 94-369; 90 STAT 999
Community Development Block Grants (CDBGs) (Title I of the Housing and Urban Development Act of 1974) Public Law 93-382; 88 STAT 633
Educational Assistance in Federal Impact Areas Public Law 81-874; 64 STAT 1100

SECTION II. EXAMPLE REVENUE CALCULATIONS FOR ALTERNATIVE FISCAL IMPACT METHODS ................. 222

PART 3: GENERAL APPLICABILITY: ARE FISCAL IMPACT CONSIDERATIONS ACCEPTABLE MUNICIPAL ACTIVITIES OR REQUIREMENTS? ......................................................... 236

CHAPTER 11. CURRENT LEGAL STANDING ....................... 239
Fiscal Impact Considerations: Are They Permissible Municipal Concerns?
Scope of Survey
Comprehensive Planning
Zoning
Subdivision Controls
Planned Unit Developments
Annexation
State-wide Land Use Plans
Interpreting Enabling Legislation
Summary
Fiscal Impact Considerations: Are They An Authorized Use of the Police Power?
Methodology
Preliminary Results
The Setting
Fiscal Impact: A Valid Consideration
Fiscal Impact: Not a Valid Consideration
The New Jersey Story
Summary
CHAPTER 12. FIELD EXPERIENCE: FISCAL IMPACT ANALYSIS IN THE UNITED STATES ........................................... 257

Fiscal Impact Analysis: Use and Method Application
  For What is Fiscal Impact Analysis Used?
  What Fiscal Impact Analysis Methods are Used?
Fiscal Impact Analysis: Geographic, Fiscal and Legal Context
  Regional Incidence of Cost-Revenue Analysis
  Fiscal Impact Analysis and the Legal Environment
Fiscal Impact Analysis: Scope of Study and Data Resources
  Fiscal Impact Analysis Costs: Scope Considered, Data Bases Drawn Upon
  Fiscal Impact Analysis Revenues: Scope Considered, Data Bases Drawn Upon
  Other Fiscal Impact Characteristics
Fiscal Impact Analysis: Author, Audience and Significance of Study
  Author and Time Commitments
  Practitioner Reaction to Current Practice
Summary

PART 4. ADDITIONAL DATA: MULTIPLIERS AND MODELS USED IN FISCAL IMPACT ANALYSIS ................................................ 272

CHAPTER 13. DEMOGRAPHIC MULTIPLIERS FOR STANDARD
AND SPECIALIZED HOUSING TYPES: ORIGINS, USES
DERIVATIONS .............................................................. 275

Background
  Calculating Demographic Multipliers
Public Use Samples and Demographic Multipliers: Standard Housing Types
  Samples
  Definitions
  Household Size and School-Age Children Multipliers: Standard Housing Types
Field Surveys and Demographic Multipliers: Specialized Housing Types
  Samples
  Definitions
    Vacation Homes
    Condominiums
    Housing for the Elderly
    Singles Residences
    Housing Size and School-Age Children Multipliers: Specialized Housing Types
Regional and Temporal Variation of Demographic Multipliers
  Regional Variations
  Temporal Variations
Conclusion: Which Multipliers are Used; Where?

CHAPTER 14. USING CENSUS DATA TO CALCULATE
DEMOGRAPHIC MULTIPLIERS ........................................... 291

Public Use Samples
  Geography in Public Use Data
    State Public Use Samples
    County Group Public Use Samples
    Neighborhood Public Use Samples
  Household Descriptions in the Public Use Samples
  Sample Size in the Public Use Samples
Housing Type Specifications Using Public Use Samples
  Defining Housing Structure Types
  Housing Unit Space: Rooms and Bedrooms
Calculation of Demographic Multipliers/Profiles
  Multipliers
  Socio-economic Profiles
Data Processing and the Public Use Samples
  Where to Get the Data
Programming and Using the Public Use Samples

CHAPTER 15. USING FIELD SURVEYS TO CALCULATE DEMOGRAPHIC MULTIPLIERS

Deciding to Undertake a Survey
  Potential Benefits of Surveys
  Potential Costs of Surveys
Sample Design and Survey Methods
  Choosing the Target Population
  Sample Design
Questionnaire Design
  Estimating Demographic Multipliers
  Other Potential Questions
  Questionnaire Layout and Survey Efficiency
    Interview Notes and Pre Interview Data
    Preamble for Interviews
  Computer Coding and Question Design
The Determination of Sample Size
The Mechanics of Sample Surveys: After the Field Work
Conclusion

CHAPTER 16

SECTION I. GROSS INCOME MULTIPLIERS FOR RESIDENTIAL AND COMMERCIAL PROPERTIES

The Organization of the Information and How It Was Obtained
Gross Income Multiplier Procedural Guide: Need and Basic Strategy
Calculating Residential Real Property Value: Garden and High Rise Apartments
  Determine Net Operating Income
    Step 1 Determine Annual Gross Income
    Step 2 Calculate Effective Annual Gross Income
    Step 3 Calculate Total Annual Expenses
    Step 4 Determine Annual Net Operating Income
  Determine the Capitalization Rate
    Step 5 Calculate the Capitalization Rate
    Step 6 Determine Real Property Value
    Step 7 Derive Income Multiplier
Summary
Calculating Nonresidential Real Property Value: Shopping Centers
  Determine the Operating Balance
    Step 1 Determine Actual Annual Operating Receipts
    Step 2 Calculate Effective Annual Operating Receipts (not computed)
    Step 3 Calculate Total Annual Operating Expenses
    Step 4 Determine Operating Expenses
  Determine the Capitalization Rate
    Step 5 Calculate the Capitalization Rate
    Step 6 Determine Real Property Value
    Step 7 Derive Operating Receipts Multiplier
Summary
Calculating Nonresidential Real Property Value: Office Space

Determine Net Income
Step 1 Determine Total Annual Operating Income
Step 2 Calculate Total Annual Effective Income
Step 3 Calculate Total Annual Operating Expenses
Step 4 Determine Annual Net Income

Determine the Capitalization Rate
Step 5 Calculate the Capitalization Rate
Step 6 Determine the Real Property Value
Step 7 Derive Operating Income Multiplier

Summary

SECTION II. INPUT DATA USED TO DETERMINE REAL PROPERTY VALUE OF RESIDENTIAL AND COMMERCIAL PROPERTIES .................................................. 341

CHAPTER 17. COMPUTER MODELS FOR FISCAL IMPACT ANALYSIS .................................................. 345

Model Description
- Alachua County Economic Model (ACEM)
- Community Development Model (CDM)
- Community Impact Model (CIM)
- The Community Development Impact Model (CODIM)
- Cost Revenue Analysis Model (CRAM)
- Fiscal Impact Model for Rural Industrialization (FIMRI)
- Fiscal Impact Research Project (FIRP)
- Municipal Impact Evaluation System (MUNIES)
- New Haven Model (NHM)
- Public Finance Model (PFM)
- Provincial Municipal Simulator (PROMUS)
- Selle Model (SELLE)

Methods and Techniques
Use of Technique by Models

Data Base and Data Base Sources
Revenues Considered
Troublesome Issues
Impact Over Time
Inflation
User Sophistication
Cost of Implementation

Conclusion

APPENDIX 1. NATIONAL SUMMARY OF CASE LAW RELATING TO COST-REVENUE .................................................. 361

- ALABAMA
- ARKANSAS
- CALIFORNIA
- COLORADO
- CONNECTICUT
- FLORIDA
- GEORGIA
- ILLINOIS
- KANSAS
- LOUISIANA
- MARYLAND
- MASSACHUSETTS
- MICHIGAN
APPENDIX 2. EXPERIENCE OF THE FIELD: ANNOTATED

LITERATURE SEARCH ............................................. 378

Annotation Organization
Using the Matrix
Definitions
Summarized Information for Each Study
  1. Subject, Jurisdictional Focus, Method and Land Use Analyzed . 383
  2. Geographical, Fiscal and Legal Context ....................... 393
  3. Scope of Study, Data Resources .............................. 403
  4. Author, Audience and Significance of Study ................. 413
  5. Sources and Prices of Annotated Fiscal Impact Studies .... 423

Glossary ............................................................. 431
Source of Definitions .............................................. 441
Bibliography ....................................................... 443
Index ............................................................... 467
